The Mosquito Coast

Winner of the Stanford Dolman Lifetime Contribution to Travel Writing Award 2020 The Mosquito Coast - winner of the James Tait Black Memorial Prize - is a breathtaking novel about fanaticism and a futile search for utopia from bestseller Paul Theroux. Allie Fox is going to re-create the world. Abominating the cops, crooks, junkies and scavengers of modern America, he abandons civilisation and takes the family to live in the Honduran jungle. There his tortured, messianic genius keeps them alive, his hoarse tirades harrying them through a diseased and dirty Eden towards unimaginable darkness. 'Stunning. . . exciting, intelligent, meticulously realised, artful' Victoria Glendinning, Sunday Times 'An epic of paranoid obsession that swirls the reader headlong to deposit him on a black mudbank of horror' Christopher Wordsworth, Guardian 'Magnificently stimulating and exciting' Anthony Burgess American travel writer Paul Theroux is known for the rich descriptions of people and places that is often streaked with his distinctive sense of irony; his novels and collected short stories, *My Other Life*, *The Collected Stories*, *My Secret History*, *The Lower River*, *The Stranger at the Palazzo d'Oro*, *A Dead Hand*, *Millroy the Magician*, *The Elephanta Suite*, *Saint Jack*, *The Consul's File*, *The Family Arsenal*, and his works of non-fiction, including the iconic *The Great Railway Bazaar* are available from Penguin.

The Mosquito Coast

An eccentric American inventor moves his family to the jungles of Central America in hopes of finding a better life

The mosquito coast, a screenplay

Allie Fox hates America and everything about the 20th century, so he decides to take his wife and two sons to live a better and simpler life in the Honduran jungle. However, when he starts to go mad, life for his family becomes much more frightening than ever before.

Harrison Ford has been labeled one of the top 100 stars of all time, the sexiest man alive, and the highest-grossing actor in the history of film, yet he still has the appeal of an average guy to whom the common man can relate. He has worked in more than 40 films, as well as in narration roles, documentaries, award shows, and television appearances. He has won more than two dozen awards, including the Lifetime Achievement Award in 2000. This biographical and filmographic work covers Ford's personal life and career, concentrating on his efforts in the film industry. It examines in great detail more than 30 films, including *American Graffiti*, the several *Star Wars* outings, *Blade Runner*, *The Fugitive*, and *Air Force One*. It discusses the films' inceptions, writing, casting, sets, schedules, stunts,

filming obstacles, openings, earnings, controversies, and reviews. Quotes and intimate anecdotes from the casts and crews are an added bonus. Numerous photographs, a complete film and television listing, a bibliography and index complete the work.

Don't miss this prequel to the hit crime series and Netflix film *Luther: The Fallen Sun* starring Idris Elba—written by the Edgar Award–winning creator and sole writer of the show! A “gripping, taut” (Guillermo del Toro) thriller featuring homicide detective John Luther, “who is intelligent and almost freakishly intuitive [and] belongs not only to the Sherlock Holmes tradition but also to the newer crime-fiction model elaborated by Thomas Harris in his novels *Red Dragon*, *The Silence of the Lambs*, and *Hannibal*” (The New York Times). Is Luther a force for good or a man hell-bent on self-destruction? Meet Detective Chief Inspector John Luther. He's a homicide detective with an extraordinary case-clearance rate. He's obsessive, instinctive, and intense. Nobody who ever stood at his side has a bad word to say about him. And yet there are rumors that Luther is bad—not corrupt, but tormented. After years of chasing the most depraved criminals in London's gritty underworld, he seethes with a hidden fury he can barely control, making him do things any other detective wouldn't and shouldn't do. A compulsively readable novel by the writer hailed by The Guardian as “Britain's own Stephen King,” this is the story of the serial killer case that tore Luther's personal and professional relationships apart and propelled him over the precipice—beyond fury, beyond vengeance, all the way to the other side of the law.

The Mosquito Coast

In this historical ethnography, Baron Pineda traces the history of the port town of Bilwi, now known officially as Puerto Cabezas, on the Atlantic coast of Nicaragua to explore the development, transformation, and function of racial categories in this region. From the English colonial period, through the Sandinista conflict of the 1980s, to the aftermath of the Contra War, Pineda shows how powerful outsiders, as well as Nicaraguans, have made efforts to influence notions about African and Black identity among the Miskito Indians, Afro-Nicaraguan Creoles, and Mestizos in the region. In the process, he provides insight into the causes and meaning of social movements and political turmoil. *Shipwrecked Identities* also includes important critical analysis of the role of anthropologists and other North American scholars in the Contra-Sandinista conflict, as well as the ways these scholars have defined ethnic identities in Latin America.

Sketch of the Mosquito Shore

From legendary writer Paul Theroux comes an atmospheric novel following a big-wave surfer as he confronts aging, privilege, mortality, and whose lives we choose to remember.

The Mosquito Coast, [by] Paul Theroux

This historical study traces the nature and extent of British involvement with the Mosquito Indians of Nicaragua's eastern coast and the northern coast of Honduras. The Mosquito Shore venture, shown to have been strongly resisted, contributed to the development of the protectorate system that extended British influence and control through informal empire.

The Great Railway Bazaar is Paul Theroux's classic and much-loved homage to train travel. The Orient Express; The Khyber Pass Local; the Delhi Mail from Jaipur; the Golden Arrow of Kuala; the Trans-Siberian Express; these are just some of the trains steaming through Paul Theroux's epic rail journey from London across Europe through India and Asia. This was a trip of discovery made in the mid-seventies, a time before the West had embraced the places, peoples, food, faiths and cultures of the East. For us now, as much as for Theroux then, to visit the lands of The Great Railway Bazaar is an encounter with all that is truly foreign and exotic - and with what we have since lost. Praise for Paul Theroux: 'Theroux's work remains the standard by which other travel writing must be judged' Observer 'One needs energy to keep up with the extraordinary, productive restlessness of Paul Theroux ... [He is] the most gifted, most prodigal writer of his generation' Jonathan Raban 'Always a terrific teller of tales and conjurer of exotic locales, he writes lean prose that lopes along at a compelling pace' Sunday Times Paul Theroux's books include Dark Star Safari, Ghost Train to the Eastern Star, Riding the Iron Rooster, The Great Railway Bazaar, The Elephanta Suite, A Dead Hand, The Tao of Travel and The Lower River. The Mosquito Coast and Dr Slaughter have both been made into successful films. Paul Theroux divides his time between Cape Cod and the Hawaiian islands.

Shipwrecked Identities

Idealizing the four years he spent in Malawi with the Peace Corps, Ellis Hock is abruptly divorced by his wife and decides to return to Africa only to find the region devastatingly transformed by poverty and apathy. 35,000 first printing.

Under the Wave at Waimea

****The instant New York Times bestseller.** *An international bestseller.*** Finalist for the Lane Anderson Award Finalist for the RBC Taylor Award "Hugely impressive, a major work."—NPR A pioneering and groundbreaking work of narrative nonfiction that offers a dramatic new perspective on the history of humankind, showing how through millennia, the mosquito has been the single most powerful force in determining humanity's fate Why was gin and tonic the cocktail of choice for British colonists in India and Africa? What does Starbucks have to thank for its global domination? What has protected the lives of popes for millennia? Why did Scotland surrender its sovereignty to England? What was George Washington's secret weapon during the American Revolution? The answer to all these questions, and many more, is the mosquito. Across our planet since the dawn of humankind, this nefarious pest, roughly the size and weight of a grape seed, has been at the frontlines of history as the grim reaper, the harvester of human populations, and the ultimate agent of historical change. As the mosquito transformed the landscapes of civilization, humans were unwittingly required to respond to its piercing impact and universal projection of power. The mosquito has determined the fates of empires and nations, razed and crippled economies, and decided the outcome of pivotal wars, killing nearly half of humanity along the way. She (only females bite) has dispatched an estimated 52 billion people from a total of 108 billion throughout our relatively brief existence. As the greatest purveyor of extermination we have ever known, she has played a greater role in shaping our human story than any other living thing with which we share our global village. Imagine for a moment a world without deadly mosquitoes, or any mosquitoes, for that matter? Our history and the world we know, or think we know, would be completely unrecognizable. Driven by surprising insights and fast-paced storytelling, The Mosquito is the extraordinary untold story of the mosquito's reign through human history and her indelible impact on our modern world order.

Penny Ante Imperialism

The fictional narrator of these memoirs, a man of many different guises, has reconstructed his past, giving it wit and life, tragedy and pathos, and imposed an order on it through careful editing. Life, it seems, has no apparent plot and so it can seem messier than fiction; sometimes it seems as if our hero is leading many different, separate lives . . . 'A memoir; a collection of short stories; an assemblage of

fables; an anthology of Theroux: a book in which he is everywhere present, as himself and as someone other . . . Endlessly inventive, beguiling, provocative and insidiously readable' Sunday Telegraph

Some account of the Mosquito territory; contained in a memoir, written in 1757, while that country was in the possession of the British ... Second edition

Legendary travel writer Paul Theroux drives the entire length of the US-Mexico border, then goes deep into the hinterland, on the back roads of Chiapas and Oaxaca, to uncover the rich, layered world behind today's brutal headlines. Paul Theroux has spent his life crisscrossing the globe in search of the histories and peoples that give life to the places they call home. Now, as immigration debates boil around the world, Theroux has set out to explore a country key to understanding our current discourse: Mexico. Just south of the Arizona border, in the desert region of Sonora, he finds a place brimming with vitality, yet visibly marked by both the US Border Patrol looming to the north and mounting discord from within. With the same humanizing sensibility he employed in Deep South, Theroux stops to talk with residents, visits Zapotec mill workers in the highlands, and attends a Zapatista party meeting, communing with people of all stripes who remain south of the border even as their families brave the journey north. From the writer praised for his "curiosity and affection for humanity in all its forms" (New York Times Book Review), *On the Plain of Snakes* is an exploration of a region in conflict.

The Mosquito Coast (1986): Shooting Script

Sunrise with Sea Monsters is Paul Theroux's immensely entertaining collection of his shorter writings, ranging from sketches to critical essays. Each piece marks a new 'confrontation with the world' and throws new light on the political and social climate of diverse cultures such as those of New York, Singapore, Ireland and Malawi. Others give a lively portrayal of the people Theroux has met or books and landscapes which have inspired him. Above all, this is a fascinating perspective on two decades of travelling, writing and living away from home.

The Mosquito Coast

Jack Flowers, saint or sinner, caught a passing bumboat into Singapore and got a job as a water-clerk to a Chinese ship chandler. Now, on the side, he offers girls (indeed 'anything, anything at all') to tourists, sailors, residents and expatriates, but he is haunted by his lack of worldly success and his fifty-three years weigh heavily on him. So when he agrees to act as blackmailer for the faintly sinister American, Edwin Shuck, in a plot against a general from Vietnam, he has high, not to mention wild, hopes of triumph. These are the outrageous confessions of an ingenious con man in the seedy and unforgettable world of expatriates amidst imperial ruins.

Memoir of the Mosquito Territory

Instant New York Times Bestseller · Winner of the General Wallace M. Greene Jr. Award from the Marine Corps Heritage Foundation "Buzz Bissinger's *Friday Night Lights* is an American classic. With *The Mosquito Bowl*, he is back with a true story even more colorful and profound. This book too is destined to become a classic. I devoured it." — John Grisham An extraordinary, untold story of the Second World War in the vein of *Unbroken* and *The Boys in the Boat*, from the author of *Friday Night Lights* and *Three Nights in August*. When the Japanese attacked Pearl Harbor, college football was at the height of its popularity. As the nation geared up for total war, one branch of the service dominated the aspirations of college football stars: the United States Marine Corps. Which is why, on Christmas Eve of 1944, when the 4th and 29th Marine regiments found themselves in the middle of the Pacific Ocean training for what would be the bloodiest battle of the war – the invasion of Okinawa—their ranks included one of the greatest pools of football talent ever assembled: Former All Americans, captains from Wisconsin and Brown and Notre Dame, and nearly twenty men who were either drafted or would ultimately play in the NFL. When the trash-talking between the 4th and 29th over who had the better football team reached a fever pitch, it was decided: The two regiments would play each other in a football game as close to the real thing as you could get in the dirt and coral of Guadalcanal. The bruising and bloody game that followed became known as "The Mosquito Bowl." Within a matter of months, 15 of the 65 players in "The Mosquito Bowl" would be killed at Okinawa, by far the largest number of American athletes ever to die in a single battle. The Mosquito Bowl is the story of these brave and beautiful young men, those who survived and those who did not. It is the story of the families and the landscape that shaped them. It is a story of a far more innocent time in both college athletics and the life of the country, and of the loss of that innocence. Writing with the style and rigor that won him a Pulitzer Prize and have made several

of his books modern classics, Buzz Bissinger takes us from the playing fields of America's campuses where boys played at being Marines, to the final time they were allowed to still be boys on that field of dirt and coral, to the darkest and deadliest days that followed at Okinawa.

The Great Railway Bazaar

A collection of short stories from the acclaimed author of *The Mosquito Coast* includes stories about a family whose father is becoming a joke-telling, old-fashioned minstrel and two sons who watch their father's obsessive battle with some raccoons. 30,000 first printing.

The Lower River

"These stories will last," said Raymond Carver of *Shiloh and Other Stories* when it was first published, and almost two decades later this stunning fiction debut and winner of the PEN/Hemingway Award has become a modern American classic. In *Shiloh*, Bobbie Ann Mason introduces us to her western Kentucky people and the lives they forge for themselves amid the ups and downs of contemporary American life, and she poignantly captures the growing pains of the New South in the lives of her characters as they come to terms with feminism, R-rated movies, and video games. "Bobbie Ann Mason is one of those rare writers who, by concentrating their attention on a few square miles of native turf, are able to open up new and surprisingly wide worlds for the delighted reader," said Robert Towers in *The New York Review of Books*.

The Mosquito

'Nothing on the shelf has quite prepared the reader for *My Secret History* . . . Parent saunters into the book aged fifteen, shouldering a .22 Mossberg rifle as earlier, more innocent American heroes used to tote a fishing pole. In his pocket is a paperback translation of Dante's *Inferno* . . . He is a creature of naked and unquenchable ego, greedy for sex, money, experience, another life' Jonathan Raban, *Observer*

My Other Life

Hood, a renegade American diplomat, envisions a new urban order through the opium fog of his room. His sometimes bedmate, Mayo, has stolen a Flemish painting and is negotiating for publicity with *The Times*. Meanwhile, Murf the bomb-maker leaves his mark in red whilst his girlfriend Brodie bombs Euston . . . Set in the grimy decay of south-east London, *The Family Arsenal* is a chilling novel of violence in the tradition of *Brighton Rock*.

On the Plain of Snakes

When a young archivist rummages through fifty years' accumulation of her photographs, seventy-year-old Maude Coffin Pratt realizes that her fame means nothing and that her true self rests on an incestuous passion

Sunrise With Seamonsters

The acclaimed writer shares an intimate portrait of his former mentor V.S. Naipaul in this memoir of their thirty-year friendship and sudden falling out. Paul Theroux was a young aspiring writer when he met the legendary V.S. Naipaul in Uganda in 1966. There began a friendship that would span continents as both men ascended the ranks of literary stardom. Naipaul's early encouragement of Theroux's talent had a profound impact on him—yet the apprenticeship was not always easy. This heartfelt and revealing account of Theroux's thirty-year friendship with Naipaul explores the unique effect each writer had on the other. Built around exotic landscapes, anecdotes that are revealing, humorous, and melancholy, and three decades of mutual history, this is a personal account of how one develops as a writer and how a friendship waxes and wanes between two men who have set themselves on the perilous journey of a writing life. *A New York Times Notable Book*

Saint Jack

Fourteen-year-old Jilly Farina walks into the tent at the County Fair and finds her life transformed. Fixing her with his hypnotic gaze, Millroy the Magician performs astonishing miracles. When she is later magicked into his trailer and Millroy promises to train her as his assistant, Jilly feels safe for the

first time in her short life. But Millroy is more than a mere stage show magician. A vegetarian and health fanatic, a possessor of healing and hypnotic powers, Millroy's mission is to change the eating habits of an entire nation. And through Jilly he has found the strength to preach his evangelical message. With Millroy's messianic fervour ever growing, Jilly begins to have doubts - but Millroy knows that without Jilly there will be no magic . . .

The Mosquito Bowl

The travel writer Paul Theroux turns his unflinching eye on an American South too often overlooked. He finds there a paradoxical place, full of incomparable music, unparalleled cuisine, and yet also some of the nation's worst schools, housing, and unemployment rates. On road trips spanning four seasons, wending along rural highways, Theroux visits gun shows and small-town churches, laborers in Arkansas, and parts of Mississippi where they still call the farm up the road 'the plantation.' He talks to mayors and social workers, writers and reverends, the working poor and farming families ... the unsung heroes of the south, the people who, despite it all, never left, and also those who returned home to rebuild a place they could never live without

Mr. Bones

A writer turned Hawaiian hotel manager observes the many lives that pass through his rooms in this novel by the author of *The Great Railway Bazaar*. A New York Times Notable Book In this wickedly satiric romp, a down-on-his-luck writer finds escape from his life as the manager of a low-rent hotel a few blocks from the beach in Waikiki. His boss is quick to explain that the Hotel Honolulu is a multistory establishment—and the writer soon discovers just how many stories are contained in its walls. Honeymooners, vacationers, wanderers, mythomaniacs, soldiers, and families all check in. Like the Canterbury pilgrims, every guest has come in search of something, whether it's sun, love, happiness, or objects of unnameable longing. And every guest—not to mention the staff, the owner, and the author himself—has a story. By turns hilarious, ribald, tender, and tragic, *Hotel Honolulu* offers a unique glimpse into the psychological landscape of an American paradise. "A sun-soaked Decameron."—Chicago Sun-Times

My Secret History

The acclaimed travel writer journeys by train across the Americas from Boston to Patagonia in this international bestselling travel memoir. Starting with a rush-hour subway ride to South Station in Boston to catch the Lake Shore Limited to Chicago, Paul Theroux takes a grand railway adventure first across the United States and then south through Mexico, Central America, and across the Andes until he winds up on the meandering Old Patagonian Express steam engine. His epic commute finally comes to a halt in a desolate land of cracked hills and thorn bushes that reaches toward Antarctica. Along the way, Theroux demonstrates how train travel can reveal "the social miseries and scenic splendors" of a continent. And through his perceptive prose we learn that what matters most are the people he meets along the way, including the monologuing Mr. Thornberry in Costa Rica, the bogus priest of Cali, and the blind Jorge Luis Borges, who delights in having Theroux read Robert Louis Stevenson to him.

The Family Arsenal

Nicaragua's Mosquito Shore provides a general history of eastern Nicaragua from the time of the first British entry in 1633 to the present. The territory is populated chiefly by Mosquito Indians, who speak their own language and some Mosquito. Dozier develops the history of the current political troubles in Nicaragua, which had their origin in the early 1930s and which center about the control of the rich area inhabited by the Mosquitos. His book presents the historical background for the tragic events that are now taking place in that region.

The U.S. Navy SEAL Survival Handbook

As the elite of the military elite, U.S. Navy SEALs know that they can be deployed anywhere in the world at a moment's notice. Whether in a temperate, tropical, arctic, or subarctic region, they might find themselves alone in a remote area with little or no personal gear. In The U.S. Navy SEAL Survival Handbook, decorated Navy SEAL Team Six member Don Mann provides a definitive survival resource. From basic camp craft and navigation to fear management and strategies for coping with any type of disaster, it is an essential resource for all outdoorspeople. Complete with 150 color photographs, this comprehensive guide includes life-saving information on: - Making weapons and tools - Finding water - Wildlife for food - Making shelters - Signaling - Sea survival - And much more

100 Deadly Skills: Survival Edition

From national bestselling author and retired Navy SEAL Clint Emerson comes the essential guide for surviving today's emergencies—from navigating in the wild to staying alive in any disaster. These 100 skills, adapted for civilians from actual field experiences of special forces operations, offer a complete hands-on and practical guide to help you survive in the wild no matter the climate or terrain; be prepared for any crisis; and have the critical life-saving knowledge for staying safe in any hostile environment or disaster. Yesterday's survival guide is no longer relevant. 100 Deadly Skills: Survival Edition is what you need for today's world, combining survival hacks developed on the battlefield with the low-tech tools you have on hand. This book is your essential prep manual, from securing shelter, building fire, finding food, and navigating back to civilization no matter the environment to thinking like a special forces soldier so that you can survive a hostage situation, an active shooter, a suicide bomber, or a terrorist threat on the subway, and even apply trauma medicine as a first responder. Full of specific scenarios to help you get in the mindset of survival, 100 Deadly Skills: Survival Edition is better than a Swiss Army knife whether you're lost at sea, forced to land a plane, fighting off a bear, or deciding whether to run, hide, or fight. Next to each skill are easy-to-grasp detailed illustrations, because when you need to survive the apocalypse, you don't have time for complicated instructions.

100 Deadly Skills

A hands-on, practical survival guide from retired Navy SEAL Clint Emerson—adapted for civilians from actual special forces operations—to eluding pursuers, evading capture, and surviving any dangerous situation. In today's increasingly dangerous world, threats to your personal safety are everywhere. From acts of terror to mass shootings, and from the unseen (and sometimes virtual) matrix of everyday crime, danger is no longer confined to dark alleys or unstable regions. Potentially life-threatening circumstances can arise anywhere, anytime, and Clint Emerson—former Navy SEAL—wants you to be prepared. 100 Deadly Skills contains proven self-defense skills, evasion tactics, and immobilizing maneuvers—modified from the world of black ops—to help you take action in numerous “worst case” scenarios from escaping a locked trunk, to making an improvised Taser, to tricking facial recognition software. With easy-to-understand instructions and illustrations, Emerson outlines in detail many life-saving strategies and teaches you how to think and act like a member of the special forces. This complete course in survival teaches you how to prevent tracking, evade a kidnapping, elude an active shooter, rappel down the side of a building, immobilize a bad guy, protect yourself against cyber-criminals, and much more—all using low-tech to “no-tech” methods. Clear, detailed, and presented in an easy-to-understand and execute format, 100 Deadly Skills is an invaluable resource. Because let's face it, when danger is imminent, you don't have time for complicated instructions.

Be a Hero

Dealing with the unthinkable It's never going to be you. Then one day you hear the clatter of automatic fire at the mall. You have been drawn into the chaos and terror of an active shooter event. What do you do? Who do you turn to? Be a Hero is the essential guide to terrorist attacks that will help you survive. Former Special Air Service terror expert John Geddes will explain how to cope with a life-threatening event. He shows you how to make clear decisions and beat the odds by: Dealing with fear through simple and effective techniques to bring the chemical urges generated by terror at least partially under control Escaping and evading when possible, using everyday objects and landmarks for protection Fighting back if needed, with methods to disarm an active shooter and to use items at hand as weapons Using a weapon if you are licensed to carry, shooting to kill without collateral damage or being mistaken for a perpetrator Providing medical assistance to deal with traumatic battlefield injury and save lives This is not a book primarily for survivalists and 'preppers.' Be a Hero is a book for ordinary men and women who could find themselves in the middle of an extraordinary moment. It will help them find the hero inside—and live to tell the tale.

Active Shooter Survival Guide

It's a sad fact that in today's world, mass shootings seem to be a regular thing in the United States. From schools to colleges to grocery stores to concerts to other public areas, it seems that nowhere is safe. While the news media will usually focus on the political debates that arise as a result of these shootings, it is very rare that prominent discussions are held on what people need to do in an active shooter situation to survive. That changes now. Active shootings in public locations in the U.S have become more common. This is why it is so important for every person to understand how they need to respond should they find themselves under a hail of bullets. Something else I want to make clear is this guide is not a political book and is not going to touch on the debates surrounding what causes mass shootings or what needs to be done about them. This book is purely about what YOU need to do to keep yourself alive during a mass shooting situation. I have two pieces of good news for you: 1. You Don't Have To Rely On Luck To Survive A Mass Shooting 2. You Don't Have To Be Professionally Trained To Survive A Mass Shooting You can be just an ordinary person with knowledge of basic principles and strategies to survive an active shooter situation. This guide is going to outline 21 lessons on those principles and strategies that will enable you to survive unharmed and alive from any active shooter scenario that you may find yourself in. Most active shooter situations will only last ten or so minutes before the police arrive and put down the shooter, which is why you must be as mentally and physically prepared as possible to deal with the shooting situation during that timeframe. Being aware, knowing basic principles, and taking action will each go a long way to increase your odds of surviving an active shooting incident. Without any further ado, let's dive into the top twenty one lessons that will enable you to survive an active shooter scenario.

U. S. Navy SEAL Survival Handbook

Illness or injury can strike anytime, anywhere, and if you're not ready for it, you may not survive. That's why it's so critical to have the right medicine and first aid gear for any situation, as well as the basic knowledge on how to use it. Did you know that you can temporarily fill a cavity with aspirin or hot pepper? What are signs that you've lost 15 percent of your body fluid? How do you treat severe bleeding in the field? In this valuable guide, survival expert Don Mann covers insect stings, wilderness hygiene, snake bites, common parasites, salt deficiency, and much more. Skyhorse Publishing is proud to publish a range of books for readers interested in military tactics and skills. We publish content provided by or of interest to the U.S. Army, Army Rangers, the U.S. Navy, Navy SEALs, the U.S. Air Force, the U.S. Marine Corps, and the Department of Defense. Our books cover topics such as survival, emergency medicine, weapons, guns, weapons systems, hand-to-hand combat, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

U.S. Navy SEAL Guide to Survival Medicine

Most look at survival medicine as stocking up on some helpful over-the-counter medicines and coverings for wounds for their survival kit. However, survival medicine entails much more. To be adequately prepared, you must know what to do once your supplies run out. Survival medicine teaches you about common ailments, good over-the-counter medications to stock up on, and how to use your surroundings to make medicine in an emergency, by relying on herbs, berries, and other plants.
