The King, Mcqueen and the Love Machine

Contains 55 pictures! From 1970 to 1972, Barbara Leigh and Elvis Presley embarked on a torrid love affair from the moment they locked eyes. At the time, Leigh was a world-class model and actress whose looks and beauty embodied the naturalistic seventies and captured the Kings heart at the same time. Add to this mix an affair with the worlds number one box-office attraction, Steve McQueen, and president of MGM studios and the inspiration for Jacqueline Susans The Love Machine, Jim The Smiling Cobra Aubrey, and you have the decades steamiest love triangle. Leigh herself has a legion of fans in Hollywood and abroad. She is legendary among Presley fans and, over the years, has developed a cult following as she was the original Vampirella, a comic book character created by Forrest J. Ackerman. One of six children, Leigh was born Barbara Ann Kish on November 16, 1946, in Ringgold, Georgia. She was raised in a Miami orphanage since her mother could not afford to raise all six children alone. Married at 14 to her sisters ex-boyfriend, and a mother at 17, she moved to Los Angeles and found work as a doctors assistant. Divorced soon after, Leigh was encouraged by a boyfriend to pose for photos, which led to a successful and glamorous modeling career. That soon led to more than 50 national TV commercials and a burgeoning movie career that boasted 10 films, including the cult classic The Student Nurses, Sam Peckinpahs gentle Junior Bonner and Roger Vadims Pretty Maids All In a Row. By the time she turned 21, Barbara Leigh had already lived several lifetimes worth of experiences. Barbara Leigh resides in Los Angeles, California, but spends a good amount of her time traveling around the country, where she frequently appears as a guest at collectors conventions. Leigh currently is working with Marilyn Grabowski, the west coast editor for Playboy for the last 40 years. In her private time, Ms. Leigh is actively involved with Animal Rescue, a passion she takes very seriously. To reach Barbara Leigh, go to www.barbaraleigh.com. Writer Marshall Terrill resides in Mesa, Arizona, and is the author of five books, including the best-selling biography, Steve McQueen: Portrait Of An American Rebel (Donald I. Fine, 1993) Terrill is currently a reporter for Tribune Newspapers as well as a writing teacher at Mesa and Glendale Community Colleges in Phoenix, Arizona.

Now in paperback.

McQueen's Motorcycles

McQueen's Motorcycles takes a close look at the unique bikes that McQueen raced and collected. Any true McQueen or motorcycle fan will love this focused look inside McQueen's garage.

Steve McQueen, King of Cool

The drama of Steve McQueen's life far surpassed those that unravelled on-screen. His mother, a prostitute, seduced him as part of an Oedipal fling. He'd been brutally molested by some of her customers, endured gang rape at school and worked as a porn performer and escort to the rich. When stardom eventually arrived, he in turn treated his lovers (Marilyn Monroe, Faye Dunaway et al.) with contempt whilst other sexual liaisons with men developed. He lived life at top speed and defied categorisation. His death still remains a source of lurid speculation.

Junior Bonner: The Making of a Classic with Steve McQueen and Sam Peckinpah in the Summer of 1971

"Junior Bonner is Jeb Rosebrook's masterpiece, subtly understated and richly rewarding. In 1972, it provided director Sam Peckinpah with a unique opportunity to return to his roots and deliver a portrayal of the modern American West. In this wonderfully written memoir, Rosebrook captures the creative conflicts that are inevitable as words become images. It depicts a classic confrontation between a talented young screenwriter and tyrannical director whose personal visions merge to make a classic motion picture. A must-read for anyone interested in the reality behind great moviemaking." —Garner Simmons, author of *Peckinpah: A Portrait in Montage* Junior Bonner (1972) is the best rodeo film that's ever been made. It was the best script Sam ever got his hands on.... Junior Bonner is truer to the human element behind the sport than any other rodeo film. It's Sam's one Western film where the protagonists survive the transition—at least for another day. The wreck might still be coming for Junior Bonner another mile or so down the road. That was the story of Sam, too." —Max Evans, author of *Goin' Crazy with Sam Peckinpah* and *All Our Friends* "Without the pressure of being commercially successful the film is one of McQueen's and Peckinpah's finest films, dealing with the human heart. The combination of deft performances, inspired writing and directing, and the authentic feel of the locations resulted in a rare experience., in the words of McQueen's next co-star Ali MacGraw, who proclaimed, "Such a beautiful, perfect film!" —Andrew Antoniadis and Mike Siegel, authors of *Steve McQueen: The Actor and His Films* "Screenwriter Jeb Rosebrook's memoir about the making of the classic Steve McQueen film he penned, Junior Bonner, is infinitely more than a behind-the-scenes account of a great film. It's an inside-the-scenes account of a turning point in his own life, of a dangerous moment in the career of an aging movie star, of a transitional time when Hollywood briefly emulated the artistic ambitions and creative reach of European cinema. The cast of characters includes such flammable figures as McQueen and legendary director auteur-terrible Sam Peckinpah and assorted agents, producers, and 1970s studio executives who were presiding over Hollywood's greatest explosion of audacious, boundary-breaking filmmaking since its founding. And Rosebrook's memoir goes deeper, into the hearts and minds of these dreamers and schemers on both sides of the camera who, almost in spite of themselves, their egos, and their appetites, managed to make lasting film art that's worth analyzing and celebrating all these decades later." —Steven Gaydos, Executive Editor, *VARIETY* "For decades Jeb Rosebrook entertained audiences with films, television shows and novels. Now, his behind-the-scenes memoir of the production of the movie Junior Bonner, which he scripted, spotlights how filmmaking is an intensely collaborative art. Plus, we get all the skinny, and the fat, of behind the scenes shenanigans, sexual dalliances, and Steve McQueen's resilience and acting strength against Peckinpah's iron-fisted directing. Junior Bonner, starring Steve McQueen, Ida Lupino and Robert Preston, evolved through Rosebrook's inspiring creativity and diligent collaboration with the actors—and director Peckinpah always threatening to send home anyone, cast, or crew, with a tin can strapped to their butt. Through it all, Rosebrook's script survived to create a classic and memorable film—one of the top 100 Westerns."

—James Ciletti, Pikes Poet Laureate, Colorado Springs, Colorado “In this lovely and loving memoir, *Junior Bonner: The Making of a Classic* with Steven McQueen and Sam Peckinpah in the Summer of 1971, Jeb Rosebrook recalls the production of the film from its beginnings in his own masterly screenplay—an original and one of the best Peckinpah was ever graced with—to the disappointing returns that greeted the film at the box office. Yet, like the story in front of the camera, the story Rosebrook finds behind the camera is not one of defeat but of faith in dreams and perseverance in pursuing them—it’s a story of creative collaboration, where everyone working to his or her peak capacity contributes to the final achievement.” —Paul Seydor, author of *Peckinpah: The Western Films: A Reconsideration* and *The Authentic Death and Contentious Afterlife of Pat Garrett and Billy the Kid: The Untold Story of Peckinpah’s Last Western Film*.

Steve McQueen

During his lifetime, Steve McQueen embodied the rebel image. Rough around the edges, driven with a passion not found in ordinary men, he was at once a loner and a leader. When McQueen arrived in Hollywood, even the biggest names had to learn fast that McQueen’s hard edge was no mere act, and before long then troubled street kid from Indianapolis was among the highest-paid movie stars in the world. The man many called crazy, who raced motorcycles and lived every day as if it were his last, was also deeply respected by his fellow artists. Edward G. Robinson, Paul Newman and Dustin Hoffman, among others, ranked him among the best actors in film history. Steve McQueen was an original and a natural. *Steve McQueen: Portrait of an American Rebel* chronicles the life and times of a man whose power both on- and off-camera is legendary. From the list of his female friends to the love of his life, actress Ali McGraw, McQueen seemed to have it all. Marshall Terrill relates vivid, first-hand acco

Elvis

Storia dell'icona più amata di tutti i tempi Elvis Presley è morto il 16 agosto del 1977. Aveva solo quarantadue anni. Sulle circostanze della sua scomparsa è stato detto e scritto di tutto, e le teorie più disparate aleggiano intorno alla fatidica notte in cui si è spenta la più grande star del XX secolo. Icona, animale da palcoscenico, leggenda della musica ma anche figlio, padre, marito: chi era davvero Elvis fuori dal palcoscenico e quale è stata la causa della sua morte? Sally A. Hoedel ha intervistato centinaia di testimoni, ha raccolto prove scientifiche e documenti ufficiali per mettere insieme i pezzi mancanti di una storia di cui, a distanza di tanti anni, si sa ancora molto poco. Il risultato è un libro inchiesta appassionante, che restituisce a Elvis la sua umanità, rischiando le nebbie del mito e rivelando qualcosa di ancora più sconvolgente: contrariamente a quanto si pensa, niente avrebbe potuto salvare il re del rock and roll. Storia e vita del re del rock 'n' roll «Prima di Elvis c'era il nulla.» John Lennon «Da fan di Elvis che ha cercato per anni di mettere insieme i pezzi del puzzle, posso finalmente dire che l'enigma è risolto.» «Un libro che appassiona: chiunque abbia amato la musica di Elvis non potrà che commuoversi.» «Essere famosi non vuol dire essere meno umani. Questo libro straordinario ci restituisce l'Elvis più "vero" che abbiamo mai conosciuto.» Sally A. Hoedel Si è laureata in giornalismo alla Michigan State University e si occupa di formazione. Ha dedicato anni alla ricerca sui retroscena della vita di Elvis, intervistando amici e conoscenti per risolvere l'enigma della sua morte. Il libro frutto della sua inchiesta, Elvis, ha vinto l'Independent Publisher Book Award e il Literary Excellence Pencraft Award per la categoria non fiction.

Steve McQueen

'Clarke brings a historian's erudition to the ideas. Absolutely engrossing and it's beautifully written.' KATE GRENVILLE A few years ago Anna Clark saw a series of paintings on a sandstone cliff face in the Northern Territory. There were characteristic crosshatched images of fat barramundi and turtles, as well as sprayed handprints and several human figures with spears. Next to them was a long gun, painted with white ochre, an unmistakable image of the colonisers. Was this an Indigenous rendering of contact? A work of history? Each piece of history has a message and context that depends on who wrote it and when. Australian history has swirled and contorted over the years: the history wars have embroiled historians, politicians and public commentators alike, while debates over historical fiction have been as divisive. History isn't just about understanding what happened and why. It also reflects the persuasions, politics and prejudices of its authors. Each iteration of Australia's national story reveals not only the past in question, but also the guiding concerns and perceptions of each generation of history makers. Making Australian History is bold and inclusive: it catalogues and contextualises changing readings of the past, it examines the increasingly problematic role of historians as national storytellers, and it incorporates the stories of people.

Discover new and unheard-of facts about Hollywood's coolest car guy: Steve McQueen! Steve McQueen touched the world through his larger-than-life onscreen persona portraying characters that were flawed and realistic. He played his roles to perfection due to his own imperfections and the bitter realism of his early life. As he once said, he had seemingly lived an entire lifetime before his 18th birthday, all of which shines through in his signature blue-eyed icy stares. His legacy on film was cemented with Bullitt and Le Man--the first made him an international superstar while the latter nearly bankrupted and killed him. Today, they're among his most popular films. He held nothing back on screen or in life, and today he is remembered and revered not only for his acting but for his racing prowess and the world-class automobile and motorcycle collection he amassed in a relatively short amount of time. Vehicles once owned, driven, or raced by "the King of Cool" habitually sell for double or triple what their provenance-lacking counterparts do. Ask any 25-year-old car or motorcycle nut born more than a decade after his death who Steve McQueen is, and they'll immediately recognize the collector and racer but make no mention of the actor. Author Tyler Greenblatt has waded through the plethora of information available to compile 1,001 of the most interesting Steve McQueen facts in this cumulative volume that is sure to keep fans of the actor, racer, and collector enthralled for hours.

1001 Steve McQueen Facts: The Rides, Roles and Realities of the King of Cool

The Fly (1958), an American science fiction/horror film that was produced and directed by Kurt Neumann, and the film was a huge success, especially with stars such as David Hedison (credited as Al Hedison), Patricia Owens, Vincent Price, and Hebert Marshall. Who can forget the horrifying plea of

the man turned into a fly? "Help me! Help me!" His wail and the startling close-up that followed etched permanently into the minds of science fiction fans worldwide. The story follows Andre Delambre, a devoted husband, a loving father and a brilliant scientist. When his body is found in his laboratory with his arm and head crushed by a hydraulic press, his wife Helene admits to having killed him. Believing Helene incapable of such a crime, Andre's brother slowly uncovers the truth - that an experiment with Andre's new teleportation device went horribly wrong and Andre persuaded Helene to assist him in suicide. When the American Film Institute distributed a ballot with 400 nominated movie quotes to a jury of over 1500 film industry figures, the above quote came in 123rd. The Fly's influence extends far beyond a simple quote. The movie's concept, ending, and the quote have permeated pop culture from 1958 to The Simpsons to a 2008 opera based on a 1986 film remake by David Cronenberg. The original movie was the surprise hit on 1958. Shot in eighteen days at a cost of \$450,000, it brought in \$6 million, at a time when 20th Century Fox Studios was in desperate need of a hit. This film made a star of David Hedison and cemented Vincent Price's place among the horror film immortals. It is more than a tale of science gone wrong and hideous mutants. It is a film classic, the rare perfect blending of story, cast, and crew, with the fantastic elements in sync with the universality of Andre's struggle with what he had hoped to do with this technology and what actually happened to him. That struggle touches everyone who has ever watched this film and is why, after 50 years, it remains a classic. Complete with reminiscences from David Hedison, this book covers the history and legacy of this seminal science fiction film.

A fresh biography of legendary entertainment manager Colonel Tom Parker, with a contrarian and corrective point of view. Colonel Tom Parker, often reviled in his time, led the strategy from the earliest days of Elvis's career. Together, they built the most legendary partnership in show business. For the first time, Colonel Parker's story is told by an insider, Greg McDonald, who worked under Parker for years. Never-before-heard stories of Parker's collaboration with Elvis reveal the man behind the legend and the strategies that made Elvis a commercial groundbreaker. Ingrained lore has it that Parker took advantage of "poor country boy" Elvis to sign the singer who became "The King". But Elvis and the Colonel shows that Elvis was not foolish when it came to business arrangements. This book is full of stories of innovations Parker made with his star client, including: --ingenious merchandising (eg, selling both "I love Elvis" and "I hate Elvis" buttons) --licensing and branding, from suits to toys, ashtrays to guitars --establishing The King as an artist-in-residence in Las Vegas --creating televised concert events, like Elvis' Christmas special Many of the practices Parker established are still deployed today by most major agencies. Parker's experience as a carny and an immigrant shaped his management style when he was at his peak, showing how he adapted big top practices to the big time. The heart of Elvis and the Colonel is the long, strong, warm and complex relationship between two iconic men.

It features numerous behind-the-scenes stories from some of his finest and greatest films, including *The Magnificent Seven*, *The Great Escape*, *The Sand Pebbles*, *The Thomas Crown Affair*, *Bullitt*, *The Getaway*, and *Papillon*. The book's triumph is the way in which the author explores McQueen in full through his larger-than-life exploits but as important, the lesser known, humanitarian side of the Hollywood legend. It also captures the fundamental essence of what made McQueen cinema's "King of Cool."

With over 30 of the most revealing interviews Bowie has given in 45 years, *Bowie on Bowie* tells the story of Bowie's restlessly inventive career in his own words. Over the decades Bowie has always answered honestly and articulately in interviews, analysing his own past and trying to explain the motivations behind his latest persona. Bowie was the first artist to regard the interview as a means of artistic expression in itself and this is as close to an autobiography as he has come. In 1973, Martin Amis wrote in the *New Statesman*, "Bowie himself is unlikely to last long as a cult". The 'cult' of David Bowie has now lasted for several decades and while Amis's piece is not included in *Bowie on Bowie*, there are over 30 interviews and profiles that document his changes. Widely regarded as a revolutionary influence on writers in fashion, art and film, as well as music, he discusses the full extent of his interests in these revealing interviews, drawn from *NME*, *Melody Maker*, *The Face*, *Q*, *Mojo* and *GQ*. Sean Egan has compiled Bowie's most revealing interviews into a riveting commentary on 50 years of personas and styles, tracing each step from Ziggy Stardust, Aladdin Sane to The Thin White Duke and into the elder statesman that Bowie has become. This essential collection of 50 years of interviews from Rock's most restlessly creative spirit is as close to an autobiography that Bowie has come. Bowie came to fame at a time when rock journalism came into its own, and he came to see interviews as another opportunity for artistic expression. Some of rock's greatest writers are included in this collection, Robert Hilburn and Charles Shaar Murray to Allan Jones and Steven Wells alongside an interview with Alexander McQueen, the fashion designer, all of which reveal the extent of Bowie's interests over the decades with a rare articulacy and thoughtfulness. Few musicians have had the wide-ranging influence Bowie has cast over writers, fashion, art and film as well as music, and here is the ultimate introduction to Rock's most distinctive voice.

How far will four friends go for immortality? This novel is Hugo and Nebula Award-winning author "Robert Silverberg at his very best" (George R. R. Martin). After Eli, a scholarly college student, finds and translates an ancient manuscript called *The Book of Skulls*, he and his friends embark on a cross-country trip to Arizona in search of a legendary monastery where they hope to find the secret of immortality. On the journey with Eli, there's Timothy, an upper-class WASP with a trust fund and a solid sense of entitlement; Ned, a cynical poet and alienated gay man; and Oliver, a Kansas farm boy who escaped his rural origins and now wants to escape death. If they can find the House of Skulls where immortal monks allegedly reside, they'll undergo a rigorous initiation. But do those eight grinning skulls mean the joke will be on them? For a sacrifice will be required. Two must die so that two may live forever . . . Stretching the boundary between science fiction and horror, Robert Silverberg masterfully probes deeper existential questions of morality, brotherhood, and self-determined destiny in what Harlan Ellison refers to as "one of my favorite nightmare novels." This ebook features an illustrated biography of Robert Silverberg including rare images from the author's personal collection.

An intimate look at movie star Steve McQueen's reckless life of fast cars, women, and drugs all the way up to his dramatic life-change and terminal cancer diagnosis. Join Greg Laurie as he takes a cross-country drive in his 1968 Highland Green Ford Mustang 390 GT through the canyons of Malibu, the alleys of Hollywood, the wide and open roads of the Midwest, and the streets of New York as he traces the woolly geography of actor Steve McQueen's life, relationships, career, and spiritual journey. This iconic muscle car was the vehicle McQueen drove in his most raucous and enduring film, *Bullitt*. In the 1960s, McQueen was, according to box office receipts, the biggest movie star of his generation and one of the coolest men to ever walk the planet. Greg Laurie was a teen at the time and an ardent fan of "The King of Cool," first mesmerized by McQueen in 1963's *The Great Escape*. Like millions of cinema fans, Greg developed a lifelong fascination with the actor. Now he has a chance to tell McQueen's story. McQueen was a complex, contradictory man who lived the same way he drove his motorcycles and cars: fearlessly, ruthlessly, and at top speed. After a lifetime of fast cars, women, and drugs, McQueen took a surprising detour. In this book, Laurie thoughtfully interviews Steve McQueen's friends, co-stars, associates, widow, and pastor to tell of the dramatic life-change for the actor in the spring of 1979--six months before McQueen was diagnosed with terminal cancer. What were the critical steps that led McQueen to make such a life-altering decision? Perhaps more importantly, why is that part of his story so rarely told? This book answers these questions. Greg Laurie will follow the seeds of Christianity that were sown throughout McQueen's improbable life where a Light finally shone into the darkness of his troubled life. These seeds miraculously germinated, allowing McQueen to see that redemption through Jesus Christ is a lasting truth more glittering and real than any magic of the entertainment industry.

From the TIME 100 author of the Sunday Times and number 1 New York Times bestseller *So You Want to Talk About Race*, a subversive history of white male American identity -- now with a new preface. 'One of the most admired writers and "internet yellers" around... [Mediocre is] ever more vital... Oluo's meeting the time -- this movement against white supremacy and systems of oppression. But the question she keeps asking in her work: Are we?' IBRAM X KENDI 'Mediocre paints an urgent, honest picture of how white male identity has spawned unrest in the country's political ideology... It's a necessary read for the world we live in' CHIDOZIE OBASI, Harper's Bazaar '[Ijeoma's] books don't come from a place of hate, but of determination to make change... [Mediocre is] another amazing book' TREVOR NOAH on The Daily Show What happens to a country that tells generation after generation of white men that they deserve power? What happens when success is defined by status over women and people of colour, instead of actual accomplishments? Through the last 150 years of American history -- from the post-Reconstruction South and the mythic stories of cowboys, to the present-day controversy over NFL protests and the backlash against the rise of women in politics -- Ijeoma Oluo exposes the devastating consequences of white male supremacy on women, people of colour, and white men themselves. As provocative as it is essential, Mediocre investigates the real costs of white male power in order to imagine a new white male identity, one free from racism and sexism. '[An] analytical and compassionate book' New Statesman 'Deftly combines history and sociological study with personal narrative, and the result is both uncomfortable and illuminating' Washington Post 'Ijeoma's sharp yet accessible writing about the American racial landscape made her 2018 book *So You Want to Talk About Race* an invaluable resource . . . Mediocre builds on this exemplary work, homing in on the role of white patriarchy in creating and upholding a system built to disenfranchise anyone who isn't a white male' TIME
