Christians in the Nicaraguan Revolution

"The controversy within the Catholic Church over the concept of liberation theology raises the questions: is there room in Christian philosophy for a socialist society? And is there a place in a socialist society? Nicaragua's recent experience, says Margaret Randall, shows the answer to these questions to be "yes". The dominant role Christianity played in the Nicaraguan revolution both before and after the 1979 overthrow of the Somoza regime shows that the concrete goals shared by the two ideologies, Christianity and Marxism, outweigh their theoretical contradictions. The main part of Christians in the Nicaraguan Revolution consists of long narratives by members of two Christian base communities with key roles in the Nicaraguan revolution. Solentiname is the retreat founded in the mid-sixties by Father Ernesto Cardenal -- now Nicaragua's minister of culture -- on a remote island in Lake Nicaragua. El Riguero is an urban community, founded in 1972 by father Uriel Molina in a Managua barrio. Christians in the Nicaraguan Revolution features the voices of "ordinary" believers as well as those of well-known religious and political leaders" -- Back cover.

Revolutionaries for the Gospel

In this moving volume edited by celebrated Spanish journalist Teófilo Cabestrero, fifteen...men and women explore their twofold identity as Christians and revolutionaries, describing their integration of faith and political conviction within the Sandinista revolution. Despite the diversity of their experiences, the persons interviewed here--judges, doctors, poets, professors, organizers--reveal a shared commitment: to improve the quality of life for the poor in Nicaragua, a commitment rooted in the liberating message of the Gospel. (back cover).

Breaking Faith

This volume addresses the complex issue of the Christian response to the Nicaraguan revolution from a perspective generally sympathetic to the Sandinista's goals. Luis Serra, himself a Latin American who has worked with the peasantry, argues that the institutional Church has now become a major autonomous source of opposition to the revolution. Laura O'Shaughnessy, analyzing the years leading up to the 1979 revolution and through the Papal visit of 1983, argues that the Church hierarchy has mistrusted the revolution as a threat to its traditional authority. Both authors view the involvement of the progressive clergy in the revolution as the best way to keep the revolution "Christian," both as an institution and as "the people of God," in revolutionary times, and they ask if Church-state conflict is inevitable at the outset of a social revolution or if adaptation and accommodation are possible.

The Church and Revolution in Nicaragua

The 1979 rebellion in Nicaragua was the first in modern Latin America to be carried out with the active participation and support of Christians. Like all revolutions, the Nicaraguan Revolution has provoked controversy and hostility, and the Christian presence has been a focal point in the debate. In this work Michael Dodson and Laura Nuzzi O'Shaughnessy offer a detailed study of the religious sources of the revolution set against the background of the revolutionary traditions of the United States. Nicaragua's Other Revolution places the experience of the Nicaraguan Revolution in a historical framework that extends back to the Protestant Reformation and in an institutional framework that encompasses the whole of Nicaraguan politics. Examining the broad process of religious change, this work explores how that process interacted with the political struggles that culminated in the revolution. Dodson and O'Shaughnessy conclude that the religious values and attitudes arising out of postconciliar renewal in the church contributed powerfully to demands for revolutionary change in Nicaragua. In England and America the Protestant Reformation gave a tremendous boost to demands for democratic changes in society and politics. This work shows that something similar happened in Catholic Central America in the post-Medellin period. Changes in religious thought and action were part of, and served to reinforce and stimulate, a wider movement for social and political change. Without denying the importance of Marxism, the authors demonstrate that other important influences are at work there. Originally published in 1990. Nicaragua's Other Revolution

"Anyone who wants to know the truth about the Nicaraguan Revolution should come and see with their own eyes. Then let them make their own judgment, as the authors of this book have. Those who cannot come should read this book and then make their judgment."Rev. Ernesto Cardenal, Minister of Culture, Nicaragua"Three things are striking about this small volume. The first is the timeliness of the topic. The resolution of the problems of such Third World countries as Nicaragua and the Philippines are weighting the future of our world. The second is the importance to people of faith around the globe as to how our religious heritage can inform our political judgments on current revolutionary situations. The third is the exciting and refreshing 'doing of theology' in the context of group experience and group reflection - in this case by a group comprised almost entirely of women."Robert DeWitt, formerly Bishop of the Episcopal Diocese of Pennsylvania"This book must be read by every American struggling with the question: 'What is the truth about U.S. involvement in Nicaragua?'Delores S. Williams, Muhlenberg College"Revolutionary Forgiveness is a testimony... to the power of the Nicaraguan struggle to change lives and to call citizens of the that very superpower that seeks to crush it to repentance."Rosemary Ruether, Garrett-Evangelical Seminary and Northwestern Seminary"Empathetic and daring, this unusual book, rooted in a feminist perspective, has a message for every North American about the revolutionary power of forgiveness."Archie Smith, Jr., Pacific School of Religion

The Nicaraguan Church and the Revolution

Journalist Christian's masterful, evenhanded account of Nicaragua's Sandinistas derives from years of interviews and on-the-scene observations. Beginning with the last days of the Somoza regime, she details the morass of political intrigue through November 1984. The problem is, she argues, that the success of ``sandinismo" turned the people from instigators of change into objects of change, both in the eyes of the church and of the state. As the center of the struggle flew out of control onto the battlefields of Havana, Washington, Rome, and Panama, democratic principles were subordinated to other peoples' needs, a no-win situation for the peasants. To draw conclusions about Nicaragua, Christian emphasizes, is a lot more difficult than superficial U.S. policy would imply.

Christianity and Revolution

Sandinistas is about the Nicaraguan revolution and the party that leads it, the Sandinista National Liberation Front (FSLN). In the early chapters of the book, author Dennis Gilbert tell who the Sandinistas are and what they believe. He probes the inner workings of the FSLN and the party's relations with the organized masses, the military and the revolutionary state. The second half of the book examines the Sandinistas in action, as they deal with peasants, businessmen, Christians, and Yankees. The final chapter covers the history of US-Nicaraguan relations from 1855-1988. Sandinistas is a balanced, sophisticated, readable account of the most significant revolutionary experience of our day.

The Church and Revolution

The strategy of low-intensity conflict (or LIC) is a little-known yet sophisticated and deadly form of U.S. intervention in the Third World. Drawing heavily on his own experience of living and working in Central America, Nelson-Pallmeyer shows how LIC victimizes the poor through various techniques: disinformation, manipulation of elections, economic exploitation, even--as with the contras in Nicaragua--outright terrorism. Low-intensity conflict does more than disable the poor. It also threatens U.S. democracy and undermines Christian faith. By integrating economic, psychological, diplomatic, and military aspects of war into a "unified package" designed to manage or block social change in the Third World, U.S. "special interests" use LIC to protect their elite positions and profits. So cynical in outline, and so damaging in practice, Nelson- Pallmeyer argues LIC presents Christians in the United States with a situation similar to that faced by the Confessing Churches in Nazi Germany

Revolutionary Forgiveness

In this critical study of the thought of Augusto Cesar Sandino and his followers, Donald C. Hodges has discovered a coherent ideological thread and political program, which he succeeds in tracing to Mexican

and Spanish sources. Sandino's strong religious inclination in combination with his anarchosyndicalist political ideology established him as a religious seer and moral reformer as well as a political thinker and is the prototype of the curious blend of Marxism and Christianity of the late twentieth-century Nicaraguan government, the Frente Sandinista de Liberación Nacional.

Nicaragua, Revolution in the Family

This is a provocative and important contribution to understanding the role of Catholicism in the struggle for justice in Central America. Phillip Berryman writes with the sensitivity and passion of a Christian who has lived the biblical option for the poor. Penny Lernoux

Saints and Sandinistas

This book explores Protestant-Sandinista relations in revolutionary Nicaragua, demonstrating how and why most Protestants vigorously opposed the revolution, tracing Sandinista irritation with Pentecostal belief and practice, and identifying how brutal Sandinista repression of Pentecostals led many to join the Contras.

Sandinistas

The memoirs of a priest revolutionary."Hope is necessary in our lives. Without hope, commitment is absent. It would not make sense to work for change in society if I did not believe that change is possible. We have lost some battles but I believe that our cause is invincible because it is the cause of justice, the cause of love."Fernando Cardenal, a Nicaraguan Jesuit priest, oversaw a national literacy campaign and served as Minister of Education in the revolutionary Sandinista government. The Sandinista revolution was unusual for the wide participation of Christians, including priests, in the struggle. However, the role of priest in the revolutionary government (including Ernesto Cardenal, Fernando's brother, a famous poet), was a source of bitter controversy with the Vatican. When he declined to resign his government post (judging that it would be "a grave sin if I were to abandon my priestly option for the poor"), Cardenal was suspended from the priesthood and expelled from the Society of Jesus. In later years, following the Sandinista era, he was readmitted - the first case of a Jesuit expelled and readmitted into the history of the Society. In this memoir Cardenal describes how his Jesuit vocation led to his commitment to the poor, his decision to join the resistance to the Somoza dictatorship, and his dedication to the Sandinista cause. The same values later led him to break with the Sandinistas, when he became disillusioned by the corruption of some party leaders. His moving and inspiring story relates the journey of a priest who consistently followed his faith

Faith and Revolution in Nicaragua

First revised edition of interviews with 14 prominent activists whose writings influenced the 1979 Nicaraguan revolution and help us understand present-day Nicaragua Margaret Randall presents a dynamic collection of personal interviews with Nicaragua's most important writer-revolutionaries who played major roles in the 1979 revolution and the subsequent reconstruction. This revised first edition includes a new preface and additional notes that frame the narrative in high relevance to the present day. The featured writer-activists speak of their work and practical tasks in constructing a new society. Among the writers included are Gioconda Belli, Tomás Borge, Omar Cabezas, Ernesto Cardenal, Vidaluz Meneses, Julio Valle-Castillo, and Daisy Zamora. The work also features 50 evocative photographs from the era by Margaret Randall.

Faith in Struggle

Life Stories of the Nicaraguan Revolution delineates the human dimension of the Nicaraguan conflict, revealing what it is like to live in Nicaragua today. Through conversations with Denis Heyck, twenty Nicaraguans--powerful and powerless, rich and poor, government and opposition, educated and illiterate--tell their fascinating stories. What emerges is the picture of a shattered society, capturing twin features of Nicaragua's revolutionary experience: idealism and suffering.

War Against the Poor

Sabia examines the complex interaction of religious belief and political inspiration among internal divisions of Nicaragua's popular church.

Intellectual Foundations of the Nicaraguan Revolution

This is the biography of Gaspar Garcia Laviana, who, as a young priest, left Spain and went to Nicaragua to work for the poor; he eventually became convinced that the only way he could change his parishioners' lives was through armed struggle. The main narrative thread of this work is biographical, but crucial episodes are counterpointed with selected poems that chart the changes in Gaspar's attitudes.

The Religious Roots of Rebellion

Relates how the American organization Witness for Peace observed the war in Nicaragua to bring accurate reports of the war back to the United States

Breaking faith

This book presents an in-depth, uniquely historical perspective on Nicaragua, focusing on the key role of the Catholic Church in the political, social, and religious issues that confront this country today. It examines the profound transformation of the Church via the radical approach of liberation theology and the development of the clergy's socio-political alliances in Nicaragua. Foroohar's analysis highlights the complex role of religion in politics and social change in Latin America.

Revolution, Revival, and Religious Conflict in Sandinista Nicaragua

Kinzer interviewed people at every level of the Somoza, Sandinistas and contra hierarchies, as well as dissidents, heads of state, and countless ordinary citizens. This is his dramatic story of the centuries-old power struggle that made headlines in 1979 with the overthrow of the Somoza dictatorship, and a vibrant portrait of the Nicaraguan people.

Thanks to God and the Revolution

Blase Bonpane has lived and worked with the realities of liberation theology for more than a quarter of a century. In *Guerrillas of Peace*, Bonpane takes the reader from the high country of Huehuetenango in Guatemala to intensive grass roots organizing in the United States. He shows that we cannot renew the face of the earth and coexist with the torturing, murdering governments of Guatemala and El Salvador, and their accomplices in Washington. We cannot say the Lord's Prayer and fail to do the will of God on earth. A new person is being formed. This person, this revolutionary person insists that human values be applied to government. This leads to a ruthless and revolutionary conclusion...children should not be free to die of malnutrition, no one should be allowed to die of polio or malaria, women should not be free to be prostitutes, no one should be free to be illiterate. The loss of these freedoms is essential for a people to make their own history. This is the Theology of Liberation, the kind of theology that made the early Church an immediate threat to the Roman Empire. --from the Introduction
Blase Bonpane, former Maryknoll priest and superior, was expelled from Central America. UCLA professor, contributor to the L.A. Times, N.Y. Times, commentator on KPFB, and author of many publications, he is currently Director of the Office of the Americas, a broad-based educational foundation dedicated to peace and justice in this hemisphere.

Li Yang acknowledges the darkness in China but expresses the experience of God's victory amid that darkness.

Li Yang shares that he became a believer 10 years ago during a business trip, and his entire family

came to Christ afterward.

Li Yang explains the challenges of sharing the Gospel in China, where the government treats those spreading the Gospel as criminals, aiming to control the number of Christians.

Li Yang recounts the recent persecution of a friend who was taken by the Chinese police, questioned, and severely beaten for spreading the Gospel.

Due to restrictions on public meetings, Li Yang describes how their ministry takes place in the buildings where they live, with believers gathering in homes in the evenings.

Li Yang highlights the lack of awareness about Christ among people on the streets and the challenges of ministering in a context where no one in their families is a believer.

Despite the fearful darkness, Li Yang expresses his confidence that God will overcome, and he is determined to share the Gospel despite the risks.

Li Yang describes his approach to ministry, visiting neighbors, listening, sharing in their lives, and telling the story of Jesus Christ when he gets the chance.

Li Yang shares the discovery of another home church meeting in the same building, which humbled them and highlighted God's work in their midst.

Li Yang emphasizes that despite the darkness and persecution, the Holy Spirit is moving in China, preparing the hearts of people.

Li Yang expresses his commitment to sharing the love of Jesus Christ every day, even if it means going to prison, confident that no one can have victory over God.

Thank you for the blessing they have been on my life and to the lives of everyone they touched.
Thank you that, though now it seems like such a short time, I had the wonderful experience of knowing them.
