IT cannot be said that the Welsh have any very marked external characteristics to distinguish them from the English. But there is certainly among them a greater prevalence of dark hair and eyes, and they are smaller in build. This is due to the Iberian blood flowing in the stock which occupied the

mountain land from a time before history began, at least in these isles. It is a stock so enduring, that although successive waves of conquest and migration have passed over the land, and there has been an immense infiltration of foreign blood, yet it asserts itself as one of predominant and indestructible vitality. Moreover, although the language is Celtic, that is to say, the vocabulary is so, yet the grammar reveals the fact that it is an acquired tongue. It is a comparatively easy matter for a subjugated people to adopt the language of its masters, so far as to accept the words they employ, but it is another matter altogether to acquire their construction of sentences. The primeval population belonged to what is called the Hamitic stock, represented by ancient Egyptian and modern Berber. This people at a vastly remote period spread over all Western Europe, and it forms the subsoil of the French nation at the present day. The constant relations that existed between the Hebrews and the Egyptians had the effect of carrying into the language of the former a number of Hamitic words. Moreover, the Sons of Israel were brought into daily contact with races of the same stock on their confines in Gilead and Moab, and the consequence is that sundry words of this race are found in both Hebrew and Welsh. This was noticed by the Welsh scholar Dr. John Davies, of Mallwyd, who in 1621 drew up a Welsh Grammar, and it is repeated by Thomas Richards in his Welsh-English Dictionary in 1753. He says: "It hath been observed, that our Language hath not a great many Marks of the original Simplicity of the Hebrew, but that a vast Number of Words are found therein, that either exactly agree with, or may be very naturally derived from, that Mother-language of Mankind."

A New Home--who'll Follow?

This volume explores the interaction of poetry and mathematics by looking at analogies that link them. The form that distinguishes poetry from prose has mathematical structure (lifting language above the flow of time), as do the thoughtful ways in which poets bring the infinite into relation with the finite. The history of mathematics exhibits a dramatic narrative inspired by a kind of troping, as metaphor opens, metonymy and synecdoche elaborate, and irony closes off or shifts the growth of mathematical knowledge. The first part of the book is autobiographical, following the author through her discovery of these analogies, revealed by music, architecture, science fiction, philosophy, and the study of mathematics and poetry. The second part focuses on geometry, the circle and square, launching us from Shakespeare to Housman, from Euclid to Leibniz. The third part explores the study of dynamics, inertial motion and transcendental functions, from Descartes to Newton, and in 20th c. poetry. The final part contemplates infinity, as it emerges in modern set theory and topology, and in contemporary poems, including narrative poems about modern cosmology.

Parables of the Cross is a didactic look at the parables in the Bible. I. Lillias Trotter explores openly and indiscriminately the lessons to be divined from the most famous book in the world. Excerpt: "There was deep insight in those old words. For man's natural thought of death is that of a dreary ending in decay and dissolution. And from his standpoint he is right: death as the punishment of sin is an ending. But far other is God's thought in the redemption of the world. He takes the very thing that came in with the curse and makes it the path of glory. Death becomes a beginning instead of an ending, for it becomes the means of liberating a fresh life."

Sexus is the first volume of the scandalous trilogy The Rosy Crucifixion, Henry Miller's major life work Henry Miller called the end of his life in America and the start of a new, bohemian existence in 1930s Paris his 'rosy crucifixion'. His searing fictionalized autobiography of this time of liberation was banned for nearly twenty years. Sexus, the first volume in The Rosy Crucifixion trilogy, looks back to his early sexual escapades in Brooklyn, and his growing infatuation with the playful, teasing dance hall hostess who will become the great obsession of his life.

Parables of the Cross

"In looking at the celebrations of Christmas, at different periods and in different places, I have observed that, whatever views men hold respecting Christ, they all agree that His Advent is to be hailed with joy, and the nearer the forms of festivity have approximated to the teaching of Him who is celebrated the more real has been the joy of those who have taken part in the celebrations. My aim is neither critical nor apologetic, but historical and pictorial: it is not to say what might or ought to have been, but to set forth from extant records what has actually taken place: to give an account of the origin and hallowed associations of Christmas, and to depict, by pen and pencil, the important historical events and interesting festivities of Christmastide. With materials collected from different parts of the world, and

from writings both ancient and modern, I have endeavored to give in the present work a chronological account of the celebrations and observances of Christmas. "

Anthony Adverse

Originally published in 2003. The fruit of a lifetime's reading and thinking about literature, its delights and its responsibilities, this book by acclaimed poet and critic Anthony Hecht explores the mysteries of poetry, offering profound insight into poetic form, meter, rhyme, and meaning. Ranging from Renaissance to contemporary poets, Hecht considers the work of Shakespeare, Sidney, and Noel; Housman, Hopkins, Eliot, and Auden; Frost, Bishop, and Wilbur; Amichai, Simic, and Heaney. Stepping back from individual poets, Hecht muses on rhyme and on meter, and also discusses St. Paul's Epistle to the Galatians and Melville's *Moby-Dick*. Uniting these diverse subjects is Hecht's preoccupation with the careful deployment of words, the richness and versatility of language and of those who use it well. Elegantly written, deeply informed, and intellectually playful, *Melodies Unheard* confirms Anthony Hecht's reputation as one of our most original and imaginative thinkers on the literary arts.

Sunny Memories of Foreign Lands

Human Toll by Barbara Baynton is about peasant Australians Boshy and Nungi as they prepare to go to work when a snake crawls under their hut. Excerpt: "WHAT was this blocking the tallow-scoop? Boshy, secretly styled 'The Lag,' or 'One Eye,' bent to see. Leisurely he thrust down a groping hand and drew up, but not out, a fat clogged basil-belt. Hastily his other hand clawed it conferring, then with both he forced it back again into its greasy hidingplace of past long years."

Patty Session's 1847 Mormon Trail diary has been widely quoted and excerpted, but her complete diaries chronicling the first decades of Mormon settlement at Salt Lake City have never before been published. They provide a detailed record of early Mormon community life from Illinois to Utah through the eyes of Mormondom's most famous midwife. They also recount her important role in women's social networks and her contributions to community health and Utah's economy, to pioneer education and horticulture. Patty Sessions assisted at the births of hundreds of early Mormons and first-generation Utahns, meticulously recording the events. She had an active role in the founding of the Relief Society and health organizations. She spoke in tongues and administered spiritually as well as medically to the ill. Her diaries are a rich resource for early Mormon and Utah history.

Collected Poems

NATIONAL BESTSELLER • Two Egypt experts posit a revolutionary theory: The Sphinx and other great Egyptian monuments are older than common history books tell us and are arranged in such a way as to send us a message from the silent past. Guardian of the ancient mysteries, the keeper of secrets . . . For thousands of years the Great Sphinx of Egypt has gazed toward the east, its eyes focused on eternity, reading a message in the stars that mankind has long forgotten. And today as our civilization stands poised at the end of a great cycle, it is a message that beckons insistently to be understood. All the clues are in place. Geology and archeo-astronomy have already indicated that the lion-bodied Sphinx may be vastly older than Egyptologists currently believe, dating not from 2500 B.C., but from 10,500 B.C.—the beginning of the astrological Age of Leo. And we now know that the three pyramids of Giza, standing on high ground half a mile to the west of the Sphinx, are in fact a precise map of the three stars of Orion's belt, formed in fifteen million tons of solid stone. Are these monuments trying to tell us something? And, if so, what? In *The Message of the Sphinx*, Robert Bauval and Graham Hancock present a tour de force of historical and scientific detective work that unravels the millennial code embodied in these structures. Using sophisticated computer simulations of ancient skies, they unravel the riddle of the Sphinx, and they present a startling new theory concerning the enigmatic Pyramid Texts and other archaic Egyptian scriptures. Their discoveries lead the authors to this question: Does mankind have a rendezvous with destiny—a rendezvous not in the future, but in the distant past, at a precise place and time? The secrets can be kept no longer. *The Message of the Sphinx* brings them to light.

Christmas: Its Origin and Associations (Illustrated Edition)

In nearly 1500 entries, many of them strikingly and often surprisingly illustrated, J.C. Cooper has documented the history and evolution of symbols from prehistory to our own day. With lively, informative and often ironic texts, she discusses and explains an enormous variety of symbols extending from the Arctic to Dahomey, from the Iroquois to Oceania, and coming from systems as diverse as Tao, Christianity, Judaism, Buddhism, Islam, Tantra, the cult of Cybele and the Great Goddess, the Pre-Columbian religions of the Western Hemisphere and the Voodoo cults of Brazil and West Africa.

Melodies Unheard

This ingeniously conceived anthology raises the intriguing question, If Thomas Pynchon's *Gravity's Rainbow* had won the Nebula award in 1973, would the future distinction between literary fiction and science fiction have been erased? Exploring the possibility of an alternate history of speculative fiction, this literary collection reveals that the lines between genres have already been obscured. Don DeLillo's "Human Moments in World War III" follows the strange detachment of two astronauts who are orbiting in a skylab while a third world war rages on earth. "The Ziggurat" by Gene Wolfe traverses a dissolving marriage, a custody dispute, and the visit of time travelers from the future. T. C. Boyle's "Descent of Man" is the subversively funny tale of a man who suspects that his primatologist lover is having an affair with one of her charges. In "Schwarzschild Radius," Connie Willis draws an allegorical parallel between the horrors of trench warfare and the speculative physics of black holes. Artfully crafted and offering a wealth of esteemed authors—from writers within the genre to those normally associated with mainstream fiction, as well as those with a crossover reputation—this volume aptly demonstrates that great science fiction appears in many guises.

The Home Book of Verse

What does it mean when a fictional hero takes a journey? Shares a meal? Gets drenched in a sudden rain shower? Often, there is much more going on in a novel or poem than is readily visible on the surface—a symbol, maybe, that remains elusive, or an unexpected twist on a character—and there's that sneaking suspicion that the deeper meaning of a literary text keeps escaping you. In this practical and amusing guide to literature, Thomas C. Foster shows how easy and gratifying it is to unlock those hidden truths, and to discover a world where a road leads to a quest; a shared meal may signify a communion; and rain, whether cleansing or destructive, is never just rain. Ranging from major themes to literary models, narrative devices, and form, *How to Read Literature Like a Professor* is the perfect companion for making your reading experience more enriching, satisfying, and fun.

The Adventures of Ulysses

Excerpt from *The World of Dylan Thomas* How many Thomases had Dylan? There were several, but all were linked by acquired impiety. First was the child who was father Of the man: the child of The Peaches with the demon-haunted imagination, cribbed in the domesticated fussiness of the Victorian parlor, reveling in the slops of the pig-sty, frightened by drunken Uncle Jim, solaced by Annie, impressed by evangelistic Gwilym, forsaken by his rich friend Jack.* The child's sense of aloneness in an alien world of adults pervades the story. He Sits in a cart in a dangerous street while his uncle drinks in company inside the tavern; he dreams in the warm, safe island of his bed while all Swansea flows and rolls outside the house; he thinks that he had been walking long, damp passages all [his] life, and climbing stairs in the dark, alone; because Of his Uncle's temper, he loses the companionship Of a friend; he turns away even from the entrancing Gwilym when the latter in his religiosity pries. Only Annie's loving warmth welcomes him into a community of souls: One minute I was small and cold, skulking dead-scared down a black passage in my stiff, best suit, with my hollow belly thumping and my heart like a time bomb, clutching my grammar school cap, unfamiliar to myself, a snub-nosed story-teller lost in his own adventures and longing to be home; the next I was a royal nephew in smart town clothes, embraced and welcomed, standing in the snug centre of my stories and listening to the clock announcing me. The tyranny of the Uncle; of a religion whose basic commandment is Prepare to Meet thy God of a God who can see and spy and watch us all the time in the terrible shadows, pitch black, pitch black of a preacher who insists on public confession of the worst thing you've done of the respectability which shamed Annie, who wore her best black dress (smelling Of mothballs) but had forgotten to change

out Of her gym shoes: such tyranny Thomas fought or mocked the rest of his life. And he needed and sought for the rest Of his life the warmth and light of Annie's arms and Annie's kitchen.
