Introduction

Conspectus of "Master and his Emissary" (Iain's Weltanschauung)

What is meaning?

On writing a 1,000 page book, and developing your own worldview

Why is God sometimes associated with "becoming" and not "being"?

How does the mind "bring the world about" rather than observe it?

Existence needs resistance

Nietzschean story of the Emissary, and the left-brain being contemptuous of the right

Not wanting a master, speaking to oneself, and evil

On "boredom" and the realness of time ("even God cannot exist without time")

Why the "arrow of time" in physics? (some thoughts on Bergson)

On Henri Bergson and flow vs slices of time

Language is like money (the "meaning" of language)

Music / painting / the arts be made explicit in language

Metaphor is a cure by language for the ills entailed by language

Reason is related to embodiment

Is "logic" universal? Would aliens develop them in the same manner?

Fantasy vs Imagination: "Original" isn't newness, but going back to the "origin"

The more we're authentic, the more we're the same

How can something both "be" and "not be" simultaneously

Wissen vs Kennen (knowledge)

On schizophrenia

Non-rhythmic music (right brained) vs rhythmic music (left brain)

Longing vs wanting (unification vs division)

Should you engage with the world or disengage?

The meaning of having "no self"

Identifying psychological structures neurologically (ego = left hemisphere?)

Utilitarianism, objective morals, and the left-hemisphere
 On Daniel Dennett's "Consciousness Explained"
 Writing a book about the right-brain, using your left-brain
 Mindfulness is similarly "objective" like the schizophrenic mind?
 Mixing the left and the right brain (coherent but incompatible)
 Does consciousness reside in the left or right hemisphere
 The world is not made out of "things"
 Solving the "never step in the same river twice" paradox, with "being"
 Reason / rationality in their extremes demonstrate their own limitations
 Measuring intelligence via inhibitory neurons, rather than encephalization
 Jung and McGilchrist [Sam Ford]
 "Substitution effect" and its impact to the imbalance between right / left brain in the West [Joanne Dong]
 The left / right distinction is a left phenomenon? [Ciaran Dudley]
 Left / right hemispheres mapping onto the left / right political spectrum?
 Reason vs rationality
 The right brain should be paramount, according to Jesus?
 How can something be more important than reason? Isn't that self defeating?
 How can we "transcend utility"? On the hierarchy of goals / needs
 On Chomsky and Objective Truth [Diego J. Pinto]
 On Douglas Hofstadter's analogy book "Surfaces and Essences"
 Thinking of time as a resource is a destructive idea (eg. "time is wasted")
