Viva Training in ENT

The range of topics which you may be questioned on during a final ENT Viva exam can be very varied. Viva Training in ENT ensures you can answer any question confidently and comprehensively, this book provides you with over 430 examples, mirroring exactly the format of the examination questions and covering all the relevant areas of the curriculum. Dedicated chapters on topics such as rhinology, head and neck, otology and paediatrics take you through the types of scenarios that you are likely to face, often presenting you with a clinical example and asking you a range of questions to test not only your diagnostic skills, but also your supporting knowledge. Three further chapters cover the clinical section of the exam involving patients, and the operative surgery and communication skills stations. These chapters provide both example scenarios and general advice on how to impress the examiners, giving you a thorough grounding in how best to communicate your knowledge and complete tasks calmly and methodically. For each question, detailed model answers and explanatory notes are provided, along with links to relevant websites and key journal articles for further reference. Questions are supplemented with over 85 illustrations and photographs, allowing you to review real examples of the conditions about which you will be questioned. For any candidate wishing to complete the FRCS (ORL-HNS) or the DOHNS Viva with professionalism and a real depth of knowledge, this book's detail and variety of information will be invaluable. Its clear layout and topical structure also make it ideal for surgeons wishing to refresh their clinical knowledge.

MCQs for ENT

MCQs for ENT: Specialist Revision Guide for the FRCS is a key resource for candidates preparing to sit the FRCS (ORL-HNS). It contains over 300 single best answer questions and over 70 extended matching questions to help candidates prepare for all aspects of ENT they may face in this challenging exam. Written by expert consultants who have succeeded in the exam, this resource provides comprehensive coverage of theory and practice, including new questions on challenging topics such as electroneurography and voice clinic procedures, and questions on rare topics such as oropharyngeal cancers. All answers have full explanations, providing candidates with high-quality self-assessment in order to maximize exam success. Providing a thorough assessment of the reader's ENT knowledge, this is an essential revision book for any candidate facing the FRCS ORL-HNS exam.

ENT Vivas: A Guide to Passing the Intercollegiate FRCS (ORL-HNS) Viva Examination

This clear and concise text covers all the assessable aspects of the ENT curriculum for the FRCS. Although technique and presentation of knowledge will no doubt be attained through viva practice, the comprehensive content ensures that all candidates have the relevant knowledge not only to succeed, but also to excel in their viva examination. Covering both the theoretical and clinical aspects of the ex-

amination, as well as other equally critical aspects, including communication skills, clinical examination and miscellaneous sections, this handbook is a high yield revision aid for all surgical trainees in the early stages of their Otolaryngology careers, and simultaneously acts as an emergency information source for those cross-covering the specialty. ENT and Otorhinolaryngology surgical trainees and Residents will find the scope of this guide highly relevant to obtain FRCS accreditation or equivalent.

Advanced ENT training

The syllabus for the FRCS (ORL-HNS) is vast, and a sound preparation for the exams has traditionally involved assimilating knowledge from a wide range of sources. This book provides a focussed guide for exam candidates. More than a question and answer book, this book is a coaching manual. Each section features a combination of model answers, pearls of wisdom, checklists and pointers for further reading. Detailed advice is provided for both Part 1 and Part 2 of the examination. Viva topics that have featured in the exam in recent years have been included, and have then been supplemented by invaluable editorial contributions from leaders in each of the subspecialties. Trainees frequently comment that exam preparation is an enlightening process and the knowledge gained would have served them well during their time as an ENT registrar or Otorhinolaryngology resident. This book will also serve as a valuable learning tool for trainees as early as ST3 and facilitate their development of effective and safe clinical practice.

Oxford Handbook of ENT and Head and Neck Surgery

This is a unique, truly portable, and comprehensive handbook of ENT aimed at medical students and junior doctors. The detailed management plans and rationale for treatments, along with their advantages and disadvantages are useful for anyone managing patients with ENT and head and neck disorders.

Bullet Points in ENT

The perfect trainee companion for postgraduate and exit exams in otolaryngology-head and neck surgery Concise and to-the-point, this book provides a highly effective review and study aid for postgraduate and exit exam candidates in otolaryngology-head and neck surgery. It covers the full breadth of the field in manageable nuggets of information that are easily learned and retained, and ensures that trainees are prepared for all frequently asked exam questions. Special Features: Distills key facts into bullet points for rapid access to essential information, without the need to wade through lengthy, extraneous material Covers the full range of topics in the modern ENT syllabus, as well as other important areas (e.g., imaging techniques, pharmacology, medical statistics) that are encountered in today's exams Organized by subspecialty for quick, convenient review of selected topics Serves equally well as a compact reference and refresher in the clinic, hospital or operating theatre Offers a valuable overview of otolaryngology for trainees in allied specialties, such as maxillofacial and plastic surgery, audiology and speech-language pathology Primarily geared to the Diploma of Otolaryngology-Head Neck Surgery (DOHNS) and Fellowship Intercollegiate (FRCS-ORL HNS) exams in the UK, Key Revision for Otolaryngology is also an excellent learning resource for similar tests in Europe, India, Canada, Australia, New Zealand, South Africa and other countries. It is ideal as a current, comprehensive, study and revision aid in this rapidly expanding specialty. Thieme eOtolaryngology is the premier online resource for otolaryngology-head and neck surgery.
