American Vital Records from the Gentleman's Magazine, 1731-1868

The Gentleman's Magazine was founded in London in 1731. The first publication of its type, it featured a broad mix of news, essays, poetry, parliamentary debates, book reviews, and antiquarian notes. For the genealogist it is an absolute treasure-house of useful data. From the beginning the magazine published notices of births, deaths, and marriages, enabling people throughout the English-speaking world to keep abreast of friends and relatives at home and abroad. About 6,000 of these notices relate to persons in North America and the West Indies, and these have been extracted for this compilation. Among the many fascinating notices are those relating to the deaths of American Loyalists in England and to marriages and deaths in America of "younger sons" of the English gentry and nobility.

Genealogists and other historical researchers have valued the first two editions of this work, often referred to as the genealogist's bible. The new edition continues that tradition. Intended as a handbook and a guide to selecting, locating, and using appropriate primary and secondary resources, The Source also functions as an instructional tool for novice genealogists and a refresher course for experienced researchers. More than 30 experts in this field--genealogists, historians, librarians, and archivists--prepared the 20 signed chapters, which are well written, easy to read, and include many helpful hints for getting the most out of whatever information is acquired. Each chapter ends with an extensive bibliography and is further enriched by tables, black-and-white illustrations, and examples of documents. Eight appendixes include the expected contact information for groups and institutions that persons studying genealogy and history need to find.

The Gentleman's Magazine: Or, Monthly Intelligencer

Excerpt from The Gentleman's Magazine Library, 1883: Being a Classified Collection of the Chief The present volume (as its successors will be) is something more than a mere volume of selections. It aims at reproducing from the old Gentleman's Magazine all that is really of value on the subject of which it treats - manners and customs. This, perhaps, is hardly the place to expatiate on the value and interest of the world-known journal we are now dealing with; and it is, moreover, not at all necessary. Everybody knows the Gentleman's Magazine - knows it and values it. The idea of printing selections from it was first suggested by Gibbon, the historian, in a letter dated from Lausanne, Feb. 24, 1792, and printed in the January number of 1794, pp. 5, 6. The paragraph is as follows: "I am tempted to embrace this opportunity of suggesting to you the ideas of a work which must be surely well received by the public, and would rather tend to benefit than to injure the proprietors of the Gentleman's Magazine. That voluminous series of more than threescore years now contains a great number of literary, historical, and miscellaneous articles of real value; they are at present buried in a heap of temporary rubbish; but if properly chosen and classed they might revive to great advantage in a new publication of moderate size." And again, in 1799 (Part ii., p. 754), a correspondent, V., suggests a similar undertaking. Dr. J. Walker, in 1809, first acted upon this hint, and issued four volumes, 8vo., of A Selection of Curious Articles from the Gentleman's Magazine. Excerpt from Gentleman's Magazine Library, Vol. 16: Being a Classified Collection of the Chief Contents of the Gentleman's Magazine From 1731 to 1868; Ecclesiology At page I 37 will be found an extremely interesting note on the legend of the pelican billing the blood out of her breast to feed her young ones. The extract from Wither's Emblems on the same page, will at once suggest the

appropriateness of choosing the figure of this bird as a support for a church reading-desk. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. The Source

Excerpt from *The Gentleman's Magazine Library: Being a Classified Collection of the Chief Contents of the Gentleman's Magazine From 1731 to 1868; English Traditional Lore, to Which Is Added Customs of Foreign Countries and Peoples Scandinavia and the North are yet almost unworked, but are full of material; while in Mr. Ralston's Songs of the Russian People and Russian folk-tales we may obtain some idea of what exists in Eastern Europe.* Beowulf may be considered our national epic, but it does not stand to English people like the Nibelungen to the Germans, the Sagas to the Norse, the Kalevala to the Finns, the Iliad and Odyssey to the old Greeks, the Pentateuch to the Hebrews, the Vedas to the Hindu, nor like the Ossianic cycle to the Scottish and Irish. The Arthurian cycle of tales is the nearest approach to being national in its characteristics; and Professor Sayce agrees with Mr. Coote that the main figure of these stories was Artorius, a Roman general. Is it then that the Roman conquest uprooted the Celtic legends and overshadowed the later Teutonic legends? Such a question may well be asked of students of English traditional lore; for the only alternative is, that, just as Cicero had to lament the loss of the old national legends and stories of the Romans (see Cicero, *In Brutum*), so have we to lament that science has been so laggard in her recognition of the value of this important branch of materials for English history, that the opportunity has irretrievably passed away for its recovery.
