Valerian - The Complete Collection - Volume 6

In this sixth volume of the Collected Edition, our two former agents, now idle, create their own adventures by helping their fellow beings, and resume their quest to find Earth.

Valerian

"Valerian on the big screen ? I blame it all on Jean-Claude Mézières and Pierre Christin ! When I was ten, every week I'd read the adventures of Valerian in Pilote... And I have to confess that I was very much in love with Laureline, even though I quite liked Valerian. It'd be great if the film could make as strong and long-lasting an impression on its viewers." Luc Besson (from his interview with J. C. Mézières and P Christin) Born out of the Wild imagination of Pierre Christin and Jean-Claude Mézières, the characters of Valerian and Laureline first appeared in the pages of Pilote in 1967. Through its creativity and daring, the series quickly became the definitive reference for all readers of science-fiction bandes dessinées.

Valerian

This third book of the collected edition contains volumes 6 to 8: Ambassador of the Shadows – the story that directly inspired Luc Besson's film – On the False Earths and Heroes of the Equinox. Over the course of these titles, among the finest in the series, Laureline takes her rightful place as the brains of the outfit, while Valerian fully embraces his role as anti-hero: always brave, but often a bit out of his depth. You will also find the end of the interview with Luc Besson and the authors, and an in-depth portrait of Jean-Claude Mézières, the artist.

Valerian - The Complete Collection - Volume 3

Galaxy, capital of the Terran Empire in the 28th century. Valerian and Laureline are agents who protect mankind from rogue time travellers. Now they are sent to New York in 1986 to intercept Galaxy's worst megalomaniac, Xombul-except that in 1986, the world is in ruins and New York is about to be swallowed

by the ocean. The two agents must navigate the shifting waters of the past to make sure that the future will exist.

The City of Shifting Waters

Exploring Syrte, the capital planet of a system of one thousand worlds, agents Valerian and Laureline must decide whether this decaying empire poses any danger to Earth.

The Empire of a Thousand Planets

In this book you will find volumes 3 to 5: The Land Without Stars, Welcome to Alfilol and Birds of the Master – three stories that introduce the societal criticism aspect of the series. Battle of the sexes, totalitarianism and extreme productivism are lambasted, but never at the expense of fantasy or of the action. And as they travel from world to distant world, Laureline becomes a truly equal partner, far from the stereotypical female sidekick roles of the time. Finally, the second part of the exclusive interview with the authors and director Luc Besson is followed by an in-depth portrait of Pierre Christin, the writer.

Valerian - The Complete Collection - Volume 2

The last volume of this magnificent collection, which includes the final three books of the main saga, bringing to a close the adventures of Valerian, Laureline and the vanished Earth in style.

Valerian - The Complete Collection - Volume 7

This first volume of the collection contains books 1 and 2 of the series: The City of Shifting Waters – in its original two-part, 9 pages longer format – and The Empire of a Thousand Planets. It also includes book 0, Bad Dreams, translated into English for the first time: the very first adventures of our two heroes, published after City and retroactively numbered. Finally, linking the volumes of this collection together, a long, exclusive interview with the authors and director Luc Besson is illustrated with new art as well as numerous sketches, studies and photographs from the latter's upcoming big-screen adaptation.

Valerian - The Complete Collection - Volume 1

„Valerian and his beautiful, sharp-witted and sharp-tongued partner, Laureline, live adventures set against visually stunning backgrounds: complex architectural inventions, futuristic machines, other-worldly landscapes, and odd-looking aliens...“--Amazon.com.

The theory of Riemann surfaces has a geometric and an analytic part. The former deals with the axiomatic definition of a Riemann surface, methods of construction, topological equivalence, and conformal mappings of one Riemann surface on another. The analytic part is concerned with the existence and properties of functions that have a special character connected with the conformal structure, for instance: subharmonic, harmonic, and analytic functions. Rooted in the classic graphic novel series, Valerian and Laureline- visionary writer/director Luc Besson advances this iconic source material into a contemporary, unique and epic science fiction saga. Valerian (Dane DeHaan) and Laureline (Cara Delevingne) are special operatives for the government of the human territories charged with maintaining order throughout the universe. Under directive from their Commander (Clive Owen), Valerian and Laureline embark on a mission to the breathtaking intergalactic city of Alpha, an ever-expanding metropolis comprised of thousands of different species from all four corners of the universe. Alpha's seventeen million inhabitants have converged over time- uniting their talents, technology and resources for the betterment of all. Unfortunately, not everyone on Alpha shares in these same objectives; in fact, unseen forces are at work, placing our race in great danger.

Valerian and the City of a Thousand Planets The Art of the Film

Fifth volume of the collection, and it's almost a new series that begins, without ever losing any of what makes its strength or its charm. In this volume of the Collection you will find books 13 to 15, and our heroes' life has been irretrievably changed with the disappearance of future Earth and Galaxy. Lacking work, they become freelance spies in the 80s in *On the Frontiers*. Lacking money, they're reluctant arms dealers in *The Living Weapons*. Lacking options, they turn investigators slash bait on corrupt Rubanis in *The Circles of Power*. The apparent descent into hell of the two former agents is the chance for the authors to study the ambiguities of our world, either directly or through the lens of alien civilisations; along with the ambiguity – pragmatism versus heroism – of the titular character, saved from a fall from grace by his ever irreproachable partner.

Valerian - The Complete Collection - Volume 5

Fourth volume of the collection: return to Earth, and some great upheavals in the characters' lives, are on the menu for the best titles of the series. This volume contains books 9 to 12 – two unmissable two-parters that represent a turning point in the story of our agents, and which are widely considered by critics and readers alike to be the pinnacle of the series. Characterised by a return to 20th century Earth, these two stories are suffused with incredible melancholy and poetic charm, and force Valerian, the action man, to face his limitations. As the real date neared 1986, final year of our world according to the authors, Pierre Christin reconciled fiction and reality with consummate skill and daring, sweeping aside the status quo and sending his heroes down a completely new path. This book is introduced by several articles of the recently departed Stan Barets.

Valerian - The Complete Collection - Volume 4

By the second half of the twentieth century, a new branch of materials science had come into being — crystalline materials research. Its appearance is linked to the emergence of advanced technologies primarily based on single crystals (bulk crystals and films). At the turn of the last century, the impending onset of the “ceramic era” was forecasted. It was believed that ceramics would play a role comparable to that of the Stone or Bronze Ages in the history of civilization. Naturally, such an assumption was hypothetical, but it showed that ceramic materials had evoked keen interest among researchers. Although sapphire traditionally has been considered a gem, it has developed into a material typical of the “ceramic era.” Widening the field of sapphire application necessitated essential improvement of its homogeneity and working characteristics and extension of the range of sapphire products, especially those with stipulated properties including a preset structural defect distribution. In the early 1980s, successful attainment of crystals with predetermined characteristics was attributed to proper choice of the growth method. At present, in view of the fact that the requirements for crystalline products have become more stringent, such an approach tends to be insufficient. It is clear that one must take into account the physical–chemical processes that take place during the formation of the real crystal structure, i.e., the growth mechanisms and the nature and causes of crystal imperfections.

In the 28th century, Valerian (Dane DeHaan) and Laureline (Cara Delevingne) are a team of special operatives charged with maintaining order throughout the human territories. Valerian and the City of a Thousand Planets: The Official Movie Novelization

Galaxy's orders are rather bizarre, lately. Laureline has been left on stand-by in a Scottish castle. Valerian, haunted by recurrent nightmares, has been sent to capture a sentient being as if it were a wild animal - an unsavoury task, to say the least. And on Earth in the 1980s, members of the military and political elites are descending into madness one by one. What future does our planet still have ... and who's so bent on changing it?

The Ghosts of Inverloch

Valerian and Laureline, no longer members of any organisation, are down to doing space deliveries. With Galaxy gone and money getting scarce, their aging spaceship is becoming a hazard, which is pushing Valerian into accepting questionable cargo. After a somewhat rough landing, our two ex-agents, on their way to deliver their goods, meet some individuals with very surprising gifts who claim to be itinerant artists. But is that really all they are?

The Vanishing

The 144 pages of this fourth volume of the 'Complete Collection' contains three full titles. Goscinny and the Daltons in superb hardback format – an unmistakable volume.

After the events of *The Time Opener*, Valerian and Laureline reverted to childhood, and are now living with Mr Albert on 21st century Earth. The Secret Circle

Rosicrucianism is one of the most important, and least recognized, streams of Western spirituality. Forced underground in the maelstrom of the Thirty Years War, Rosicrucianism was passed down secretly by alchemists, hermetists, and Masons into the nineteenth century, when it inspired new spiritual movements, including theosophy, the Order of the Golden Dawn, and Rudolf Steiner's spiritual science. This book collects from many different sources Steiner's discussions on Rosicrucianism: the Tao and the Rose Cross; the history and mission of Christian Rosenkreutz; the nature of Rosicrucian practice and experience; the meaning of The Chemical Wedding; Goethe's Rosicrucian poem "The Mysteries;" and how to meditate on the Rose Cross itself.

The Power

A riveting historical investigation and family memoir that intertwines the iconic narrative of Anne Frank with the untold story of Bep Voskuijl, her protector and closest confidante in the Annex, bringing us closer to understanding one of the great secrets of World War II. Anne Frank's life has been studied by many scholars, but the story of Bep Voskuijl has remained untold, until now. As the youngest of the five Dutch people who hid the Frank family, Bep was Anne's closest confidante during the 761 excruciating days she spent hidden in the Secret Annex. Bep, who was just twenty-three when the Franks went into hiding, risked her life to protect them, plunging into Amsterdam's black market to source food and medicine for people who officially didn't exist under the noses of German soldiers and Dutch spies. In those cramped quarters, Bep and Anne's friendship bloomed through deep conversations, shared meals, and a youthful understanding. Told by her own son, *The Last Secret of the Secret Annex* intertwines the story of Bep and her sister Nelly with Anne's iconic narrative. Nelly's name may have been scrubbed from Anne's published diary, but Joop van Wijk-Voskuijl and Jeroen De Bruyn expose details about her collaboration with the Nazis, a deeply held family secret. After the war, Bep tried to bury her memories just as the Secret Annex was becoming world famous as a symbol of resistance to the Nazi horrors. She never got over losing Anne nor could Bep put to rest the horrifying suspicion that those in the Annex had been betrayed by her own flesh and blood. This is a story about those caught in between the Jewish victims and Nazi persecutors, and the moral ambiguities and hard choices faced by ordinary families like the Voskuijls, in which collaborators and resisters often lived under the same roof. Beautifully written and unsettlingly suspenseful, *The Last Secret of the Secret Annex* will show us the Secret Annex as we've never seen it before. And it provides a powerful understanding of how historical trauma is inherited from one generation to the next and how sometimes keeping a secret hurts far more than revealing a shameful truth.

This work opens with His Holiness the Dalai Lama presenting the key features of Yoga Tantra then continues with Tsongkhapa's section of the main text focusing on this class of tantra. This is followed by an overview of the central practices of the five manifest enlightenments and the four seals written by Khaydrub Je (Khaydrub Geleg Palsang), one of Tsongkhapa's main students and the first in the line of Panchen Lamas. Jeffrey Hopkins concludes the volume with an outline of the steps of Yoga Tantra practice, which is drawn from the Dalai Lama's, Tsongkhapa's, and Khaydrub Je's explanations.

The Secret Doctrine

A True Story of Heroism in Nazi-Occupied Greece [Some of] the most dramatic use of secret intelligence in the Western Theater resulted from covert operations against the Nazis in the cities of occupied Europe, which were implemented, to a great extent, by young men and women. For the most part, their stories remained shrouded in secrecy. Readers were carried away reading the brave feats of the partisans in the mountains, deserts, and jungles, while the strategic role of the spies and saboteurs in the cities remained almost anonymous. Rigas Rigopoulos offers a rare insight into the world of espionage and sabotage and the daily terror that characterized covert operations in Athens and Piraeus. Rigopoulos was one of many young Greeks appalled by the Axis occupation, but one of the few who was prepared to undertake the hazardous role of spy and saboteur. ""

The Secret Doctrine: Index to volumes 1-3

Sinnett's "Esoteric Buddhism" was an excellent work with a very unfortunate title. Esoteric Buddhism (spelled with one D), or Inner Wisdom (Sophia, in Greek), is a pre-Vedic term millennia older than 643 BCE, the year Siddhartha Gautama, Prince of Kapilavastu, was born. It has nothing to do with the Buddhist religion whatsoever. An agnostic student of Theosophy puzzled by "Esoteric Buddhism." Puzzle solved by Madame Blavatsky Buddhism, the religious system of ethics preached by Lord Gautama and named after his title of Buddha, the "Enlightened," and Buddha or Inner Wisdom are totally unrelated terms. Long kalpas had passed before the epithet of Buddha became so humanised, as to allow the term to be applied to mortals and, finally, to Siddhartha Gautama. Buddhism is Archaic Wisdom-Religion. It reconciles all religions, strips every one of its outward, human garments, and shows the root of each to be identical with that of every other great religion. It proves the necessity of an immutable Divine Principle in nature but rejects the gods of monotheistic religions, sorry caricatures created by man in his own image and likeness. Truth is its god and dogma. Orthodox, Exoteric

BuDDhism, or the public teachings of Gautama Buddha, differ greatly from the Secret Doctrine, or Esoteric BuDhism, that he had reserved for the initiated Brahmans of his day and his Arhats. Sinnett defends his "Esoteric Buddhism." Though "Esoteric Buddhism" preceded "Isis Unveiled" and "The Secret Doctrine," its contents are not original. His letter to "Lucifer," annotated by Madame Blavatsky in her capacity as Editor of Lucifer." Theosophy is not BuDDhism, whether Exoteric or Esoteric. Bodhi and Sophia are one and the same, supersensuous wisdom from within. Bodha, Bodhi, Buddha, Buddhi are one and the same, Divine Wisdom.

Stefan George (1868–1933) was one of the most important and influential poets to have written in German. His work, in its originality and impact, easily ranks with that of Goethe, Holderlin, or Rilke. Yet George's reach extended far beyond the sphere of literature. Particularly during his last three decades, George gathered around himself a group of men who subscribed to his homoerotic and idiosyncratic vision of life and sought to transform that vision into reality. George considered his circle to be the embodiment and defender of the "real" but "secret" Germany, opposed to the false values of contemporary bourgeois society. Some of his disciples, friends, and admirers were themselves historians, philosophers, and poets. Their works profoundly affected the intellectual and cultural attitudes of Germany's elite during the critical postwar years of the Weimar Republic. Essentially conservative in temperament and outlook, George and his circle occupy a central, but problematic, place in the rise of proto-fascism in Germany. Their own surrogate state offered a miniature model of a future German state: enthusiastic followers submitting themselves without question to the figure and will of a charismatic leader believed to be in possession of mysterious, even quasi-divine, powers. When he died several months after the Nazi takeover, George was one of the most famous and revered figures in Germany. Today the importance of George and his circle has largely been forgotten. In this, the first full biography of George to appear in any language, Robert E. Norton traces the poet's life and rise to fame.

The Great Exposition of Secret Mantra, Volume Three

Assimilation of universal laws is the first key to manhood. Sacrificing the ephemeral to the eternal is the final key. Sacrificing others is a crime against Nature, for sacrifice is always a voluntary, not an enforced, act. Sacrifice proper is unselfish love of humanity in person and in secret. Defiling the altars of gods with blood is worse than murder. Four Metaphysical and Philosophical Keys to Theosophy: 1. Parabrahman or Absoluteness is the One and Only Reality. 2. Mulaprakriti or Noumenon of Matter is a veil thrown over Parabrahman. 3. Logos or Word is Divine Thought Concealed. 4. Fohat or Light of Logos is Divine Thought Revealed. The Three Fundamental Propositions of The Secret Doctrine analysed and amplified. How The One Becomes Two Ones: Parabrahman and Logos, and then Three. And how The Three Live within The One. Allusions to Logos in the Bhagavad Gita examined in the Light of Theosophy. Deity is Life and Law, and vice versa. Compassion is the Divine Law of Universal Sympathy and Sacrifice. Overseen by Spiritual Intelligences above, Compassion is enacted by the Intelligence of Nature and Her dual forces below. Deity is Unerring Karman or Abstract Nature: the Mind and Soul of the Universe. The One Eternal Life and Law, triple in its manifestation, is underpinned by the three Propositions of The Secret Doctrine. Each proposition is examined according to The Bhagavad-Gita, and in the light of Theosophy. Narada and Krishna speak with One Voice. Narada is the

Deva Rishi of Occultism. He impelled animal man towards intellectual freedom. Narada's aphorisms on Devotional Love and Krishna's precepts to Arjuna are impossible to tell apart. A recension of Narada Bhakti Sutra in the light of Theosophy: 1. O Lanoo, listen to the Voice of the Heart Doctrine. 2. Give it all away or you will lose it. 3. Let your life become an example to unbelievers. 4. True life can only be found through Devotion to All. 5. With subdued heart place all thy works on Me. 6. Rise above the trappings of personal life. 7. Feel the Great Heart within. 8. With unfettered mind throw every deed on Me. 9. Intoxicate yourself with the right attitude and ethic. Avatars are our Watchers and Guardians. Prince Siddhartha Gautama locked mankind within one embrace. Jesus was a martyred Adept, not an Avatara. The real Christ is Krishna: Internal Light, not external symbols. The "still small voice" is the Heart and Pulse of the Universe. She is the Voice of the Great Sacrifice. Voice of the Silence and Light on the Path: two books, One Voice! Who speaks with a "still small voice"? Where is The Voice? When will The Voice speak? Where will The Voice speak? Under what conditions? What will The Voice say? How will I know if The Voice is genuine? What will I learn? With twenty-one tips for Pilgrim Souls: 1. Rise above the Fog of Separateness. 2. Seek Darkness with the Lamp of Faith. 3. Confirm Faith by Reason and Experience. 4. Validate Imagination by Faith and Will. 5. Lose yourself in the Sea of Devotion. 6. Realise your Ideals. 7. Live your Dreams. 8. Axe the Ashvattha Tree. 9. Slay your Mind. 10. Charity begins at home? 11. Be wise! Restrain thyself! 12. Head learning versus soul wisdom. 13. The false is nothing but an imitation of the true. 14. Act in person but Impersonally. 15. Thoughts and emotions are one and the same. 16. Action speaks louder than words. 17. Higher versus lower altruism. 18. Charity is a debt of honour. 19. Merge self in Self. 20. Seek out the fifth way of Loving. 21. Listen to the Clarion Call. Followed by four parting thoughts: - Master thyself and protect others. - Despise the life that only seeks its own. - Let thy pulses beat to heaven's own music. - Let us be true to each other. And twelve Appendices on: Theosophists described metaphysically and ethically. Action, Renunciation, and their endless variants. At the threshold of two paths. Eyes Like the Sea

Eyes Like the Sea By Mor Jokai Eyes Like the Sea by Mor Jokai The pessimistic tone of Continental fiction, and its pronounced preference for minute and morbid analysis, are quite revolutionizing the modern novel. Fiction is ceasing to be a branch of art, and fast becoming, instead, a branch of science. The aim of the novelist, apparently, is to lecture instead of to amuse his readers. Plot, incident, and description are being sacrificed more and more to the dissection of peculiar and abnormal types of character, and the story is too often lost in physiological details or psychological studies. Eyes Like the Sea

Whoever has traversed the long single street of Hétfalu will have noticed three houses whose exterior plainly shows that nobody dwells in them. The first of these three houses is outside the village on a great green hill, round which the herds of the village peacefully crop the pasture. Only now and then does one or other of these quiet beasts start back when it suddenly comes upon a white skeleton, or a bleached bullock-horn, in the thickest patches of the high grass. The house itself has no roof, and the soot with which years of heavy rains have bedaubed the walls, points to the fact that once upon a time the place was burnt out. Now, dry white stalks of straw wave upon the mouldering balustrades. The iron supports have been taken out of the windows, on the threshold thorns and thistles grow luxuriantly. There is no trace of a path—perhaps there never was one. The land surrounding this house is full of all sorts of fragrant flowers.

Dr. Dumany's Wife

"Was it you who yawned so, Clementina?" Nobody answered. The questioner was an old gentleman in his eightieth year or so, dressed in a splendid flowered silk Kaftan, with a woollen night-cap on his head, warm cotton stockings on his feet, and diamond, turquoise, and ruby rings on his fingers. He was reclining on an atlas ottoman, his face was as wooden as a mummy's, a mere patch-work of wrinkles, he had a dry, thin, pointed nose, shaggy, autumnal-yellow eyebrows, and his large prominent black eyes protected by irritably sensitive eyelids, lent little charm to his peculiar cast of countenance. "Well! Will nobody answer? Who yawned so loudly behind my back just now?" he asked again, with an angry snort. "Will nobody answer?" Nobody answered, and yet there was a sufficient number of people in the room to have found an answer between them. In front of the hearth was sitting a young woman about thirty or thirty-five, with just such a strongly-pronounced pointed nose, with just such high raised eyebrows as the old gentleman's, only her face was still red (though the favour of Nature had not much to do with that perhaps) and her eyebrows were still black; but her thin lips were just as hermetically sealed as the old man's, when she was not speaking. This young woman was playing at Patience.

The Nameless Castle

Timars Two Worlds by Mor Jokai Mor Jokai, born Moric Jokay (1825-1904), outside Hungary also known as Maurus Jokai, was a Hungarian dramatist and novelist. On the re-establishment of the Hungarian constitution by the Composition of 1867, he took an active part in politics. As a constant supporter of the Tisza administration, not only in parliament, where he sat continuously for more than twenty years, but also as the editor of the government organ, Hon, founded by him in 1863, he became a power in the state, and, though he never took office himself, frequently extricated the government from difficult places. He was an arch-romantic, with an almost Oriental imagination, and humour of the purest, rarest description. He continued to devote most of his time to literature, and his productiveness after 1870 was stupendous, amounting to some hundreds of volumes. Stranger still, none of this work is slipshod, and the best of it deserves to endure. His works include: Dr. Dumany's Wife (1891), The Nameless Castle (1896), The Poor Plutocrats (1899), Halil the Pedlar: A Tale of Old Stambul (1901) and Manasseh: A Romance of Transylvania (1901). He began humming his favorite song: "If only the inn were not so near, If only I did not find such cheer In golden quart and copper gill, I would not linger, my love, until It ever should grow so late." But soon his head fell forward again and he went on nodding, till all at once, with a frightened start, he saw that the yellow rose was gone!

Eyes Like The Sea A Novel

Maurus Jokai (1825 - 1904) was a Hungarian novelist who took part as a journalist in the revolution of 1848. He wrote about 200 novels, including "Timar's Two Worlds," "Black Diamonds," and "The Romance of the Coming Century." He was intended for the law, that having been his father's profession but at twelve years of age the desire to write seized him. Some of his stories fell into the hands of the lawyer in whose office he was studying, who read them, and was so struck by their originality and talent that he published them at once at his own expense. The public was as well pleased with the book as the lawyer had been with the manuscripts, and from that tender age Jokai devoted himself to writing. At the age of twenty-three he laid down his pen long enough to get married, his bride being Rosa Laborfalvi, the then leading Hungarian actress. At the end of a year he joined the Revolutionists, and buckled on the sword of a patriot. He was taken prisoner and sentenced to be shot, when his bride appeared upon the scene with her pockets full of the money she had made by the sale of her jewels, and, bribing the guards, escaped with her husband into the birch woods, where they hid in caves and slept on leaves, all the time in danger of their lives, until they finally found their way to Budapest and liberty. This city Jokai made his home; in the winter living in the heart of the town, in the summer just far enough outside of it to have a house surrounded by grounds where he could sit out of doors in the shade of his own trees. He became the best-known man in Hungary in his day, for he was not only an author, but a financier, a statesman, and a journalist as well.

The Yellow Rose

To a man who has earned such titles as "The Shakespeare of Hungary" and "The Glory of Hungarian Literature"; who published in fifty years three hundred and fifty novels, dramas, and miscellaneous works, not to mention innumerable articles for the press that owes its freedom chiefly to him, it seems incredible that there was ever a time of indecision as to what career he was best fitted to follow. The idle life of the nobility into which Maurus Jókay was born in 1825 had no attractions for a strongly intellectual boy, fired with zeal and energy that carried him easily to the head of each class in school and college; nor did he feel any attraction for the prosaic practice of law, his father's profession, to which Austria's despotism drove many a nobleman in those wretched days for Hungary. It was Pétofi, the poet, who was his dearest friend during the student-life at Pápa; idealism ever attracted him, and, by natural gravitation toward the finest minds, he chose the friendship of young men who quickly rose into eminence during the days of revolution and invasion that tried men's souls.

"A deafening uproar -- the cracking of wood and glass, the grating and crushing of iron, and the pitiful cries of men, women, and children --" The traveler leaps free just as the train, battered by the rockslide, plunges off the mountainside. Yet he has not leapt alone, for he had seized in his arms a shy, mute American boy. The Hungarian traveler soon finds himself confronted by a series of disturbing puzzles. Suddenly the mute child speaks fluent Hungarian -- and the grateful boy's father, Dumany, seems already to know intimate details of his child's rescuer's life! And even more disturbing than Dumany -- the American Croesus said to have served the devil -- is his strangely reserved wife.

The Yellow Rose

Set against the dramatic backdrop of the Hungarian Revolution of 1848, this epic historical novel follows the lives of a group of young revolutionaries as they fight for freedom and love in a time of war and political upheaval. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. The Nameless Castle

Timar's Two Worlds: Maurus Jokai. Translation Of "Az Arany Ember" By Mrs. Hegan Kennard (American Series) This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional\unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!

Tales from Jokai

Stories by Foreign Authorsby Mor JokaiCHAPTER IOn a time it happened that the light-house keeper in Aspinwall, not far from Panama, disappeared without a trace. Since he disappeared during a storm, it was supposed that the ill-fated man went to the very edge of the small, rocky island on which the light-house stood, and was swept out by a wave. This supposition seemed the more likely as his boat was not found next day in its rocky niche. The place of light-house keeper had become vacant. It was necessary to fill this place at the earliest moment possible, since the light-house had no small significance for the local movement as well as for vessels going from New York to Panama. Mosquito Bay abounds in sandbars and banks. Among these navigation, even in the daytime, is difficult; but at night, especially with the fogs which are so frequent on those waters warmed by the sun of the tropics, it is nearly impossible. The only guide at that time for the numerous vessels is the light-house. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

Tales from Jókai

Mr Jkai -- also known as Maurus Jkai -- was a Hungarian dramatist and novelist. He originally studied law and became an advocate in what is now Budapest. Encouraged by the reception of his first play, "The Jewish Boy," he turned to writing, producing *Working Days*, and becoming editor of "Ietkpek," the leading Hungarian literary journal. Following a revolution and the deposition of the Hapsburg dynasty, he became a political suspect. He spent the next fourteen years reviving the Magyar language, producing thirty romances and numerous other works. After the re-establishment of the Hungarian Constitution, he sat in parliament for twenty years, founded and edited the government organ "Hon," and was later elevated to the upper house by the king. "The Poor Plutocrats" is an adventure story.

The book concerns "Fatia Negra," or "The Black Mask," who leads a double life: brigand by night, and respectable baron by day. The tale includes mysterious bandits, counterfeiters, poisoners and murderers, plus portraits of Hungarian and Romanian peasant life in the later 1800s. Jkai rises to the sort of breathless excitement produced by Dumas.

Eyes Like the Sea a Novel

Mor Jokai was a 19th century Hungarian dramatist and novelist. He studied law in order to follow in his fathers footsteps. After the success of his first play he left the legal profession in order to write. In 1847 he became editor of the Hungarian literary journal Eletkepek. Manasseh: A Romance of Transylvania is the story of Manasseh Adorjan, a Hungarian man of intelligence and talents, who meets Princess Cagilari on a train. She is on the way to Rome to petition the Pope for a divorce. Manasseh is a leader among Hungary's Unitarians. He sees no obstacle in their religious differences. Manasseh Adorjan's enemies and Prince Cagliari will use forgeries and schemes to cause the couple trouble.
