Collins Dictionary and Thesaurus of the English Language

"English Thesaurus" is a reading book that is very suitable for study by a wide audience who want to increase knowledge in a foreign language, namely English. Thesaurus is different from an ordinary English dictionary. For those of you who are still taking online English courses at the beginner level, to use the thesaurus, you still need one additional book, namely an English dictionary because Thesaurus does not include the meaning of words, only synonyms and antonyms. Thesaurus is very useful in enriching your English vocabulary. Sometimes, the lack of vocabulary you have makes it difficult to find the right words to convey an idea or express what you are thinking. Dictionary serves to help someone recognize new words. To clarify, sometimes there are also illustrations in the dictionary. Whereas the thesaurus is a reference list of vocabulary that is grouped based on similarity in meaning (containing synonyms or antonyms), in contrast to dictionaries, which provide definitions of words, and generally list them in alphabetical order. The main purpose of references is so that users can find the most appropriate vocabulary to express ideas. Although it includes synonyms, the thesaurus should not be taken as a complete list of all synonyms for a particular word. Entries are also designed to draw differences between similar words and help in choosing the right words. Unlike dictionaries, thesaurus entries do not provide word definitions.
