Hal Wallis

Hal Wallis (1898-1986) might not be as well known as David O. Selznick or Samuel Goldwyn, but the films he produced—*Casablanca*, *Jezebel*, *Now, Voyager*, *The Life of Emile Zola*, *Becket*, *True Grit*, and many other classics (as well as scores of Elvis movies)—have certainly endured. As producer of numerous films, Wallis made an indelible mark on the course of America's film industry, but his contributions are often overlooked. Bernard Dick offers the first comprehensive assessment of the producer's incredible career. A former office boy and salesman, Wallis first engaged with the film business as the manager of a Los Angeles movie theater in 1922. He attracted the notice of the Warner brothers, who hired him as a publicity assistant. Within three months he was director of the department, and appointments to studio manager and production executive quickly followed. Wallis went on to oversee dozens of productions and formed his own production company in 1944. Dick draws on numerous sources such as Wallis's personal production files and exclusive interviews with many of his contemporaries to finally tell the full story of his illustrious career. Dick combines his knowledge of behind-the-scenes Hollywood with fascinating anecdotes to create a portrait of one of Hollywood's early power players.

The Image of Librarians in Cinema, 1917-1999

From its earliest days to the present, the onscreen image of the librarian has remained largely the same. A silent 1921 film set the precedent for two female librarian characters: a dowdy spinster wears glasses and a bun hairstyle, and an attractive young woman is overworked and underpaid. Silent films, however, employed a variety of characteristics for librarians, showed them at work on many different tasks, and featured them in a range of dramatic, romantic, and comedic situations. The sound era (during which librarians appeared in more than 200 films) frequently exaggerated these characteristics and situations, strongly influencing the general image of librarians. This chronologically arranged work analyzes the stereotypical image of librarians, male and female, in primarily American and British motion pictures from the silent era to the 21st century. The work briefly describes each film, offering some critical commentary, and then examines its librarian, considering every aspect of the total character from socio-economic conditions and motivations for leaving or not leaving the library, to personal attributes (such as clothing, hair, and age) and entanglements with the opposite sex, to commonly used props, plot situations and lines ("Shush!"). The work comments on whether librarians

and library work are depicted accurately and analyzes the development of the public's image of a librarian. The accompanying filmography lists librarian characters and notes stereotypes such as buns and eyeglasses. With bibliography and index.

All These Shiny Worlds

The 2016 ImmerseOrDie Anthology. What do you get when you ask 34 of today's top indie authors to each submit a story and then ask a team of ruthless judges to scour that ore and pick out the gems? You get All These Shiny Worlds: A world of today, divided, black from white, good from evil, and held apart by the taste of a cookie. A world of griffons and glimmer bunnies, wise old mothers, sassy llamas, and the magic of beer. A world of contemplation and serenity, of service and devotion, ruled by a jewel and guarded by children. Plus 12 more, for a total of 15 worlds to explore. From the brutal curators at ImmerseOrDie.com comes this collection of indie short stories, each a distinct jewel forged in the fires of judgment, and all carrying one simple promise: Guaranteed not to suck.

The Practice of Art and AI

Multidisciplinary explorations of AI and its implications for art In this multidisciplinary volume, European ARTificial Intelligence Lab, in partnership with Ars Electronica, considers the incredibly rapid development of Artificial Intelligence in the context of the cyber-arts. Bringing together 13 cultural and six scientific institutions from across Europe, this publication explores the interdisciplinary exchange between art and science and summarizes the accomplishments of the AI Lab since its opening. This guide to the events and exhibitions for this project includes more than 500 reproductions, profiles on featured exhibitors and essays. In keeping with the project's focus on the interplay between art and technology, the book includes QR codes which link the reader to video lectures and other supplementary materials. Artists and researchers include: Eva Smrekar, Eduardo Reck Miranda, Ian Gouldstone, Aarati Akkapeddi, Cecilie Waagner Falkenstrøm, Tega Brain, Sam Lavigne, Hannah Jayanti, Sarah Petkus, Mark J. Koch, Mimi Onuoha, Caroline Sindors, LaJuné McMillian, Victoria Vesna and many more.

Fumiko and the Finicky Nestmate

She could make a mess of everything. Especially him. The Junzi-also known as the Four Gentlemen-are a set of ancient weapons fashioned from remnants. Dragons refer to them as the Four Storms, and Hisoka Twineshaft believes they will make a difference in the hunt for the rogue. But someone else is interested in gathering up these crystal masterpieces. The so-called Gentleman Bandit is responsible for two thefts already, and Hisoka is concerned for the Bamboo Stave. So he deploys an elite taskforce to guard the treasure. And to catch a thief. Juuyu Farroost and his teammates regroup at a safehouse tucked under the boughs of one of the oldest-and most heavily fortified-orphan trees in the Americas. Fumiko and her tree-twin have enough rooms for all of them. If they can shift enough of the woman's clutter to set up their equipment. Juuyu's expertise is essential to the success of their mission, but he can barely focus thanks to Fumiko, her messes, and Akira, who apparently owes Boon a favor.

Japanese Demon Lore

Oni, ubiquitous supernatural figures in Japanese literature, lore, art, and religion, usually appear as demons or ogres. Characteristically threatening, monstrous creatures with ugly features and fearful habits, including cannibalism, they also can be harbingers of prosperity, beautiful and sexual, and especially in modern contexts, even cute and lovable. There has been much ambiguity in their character and identity over their long history. Usually male, their female manifestations convey distinctively gendered social and cultural meanings. Oni appear frequently in various arts and media, from Noh theater and picture scrolls to modern fiction and political propaganda. They remain common figures in popular Japanese anime, manga, and film and are becoming embedded in American and international popular culture through such media. Noriko Reider's book is the first in English devoted to oni. Reider fully examines their cultural history, multifaceted roles, and complex significance as "others" to the Japanese.

Yosano Akiko (1878–1942) has long been recognized as one of the most important literary figures of prewar Japan. Her renown derives principally from the passion of her early poetry and from her contributions to 20th-century debates about women. This emphasis obscures a major part of her career, which was devoted to work on the Japanese classics and, in particular, the great Heian period text *The Tale of Genji*. Akiko herself felt that *Genji* was the bedrock upon which her entire literary career was built, and her bibliography shows a steadily increasing amount of time devoted to projects related to the tale. This study traces for the first time the full range of Akiko's involvement with *The Tale of Genji*. *The Tale of Genji* provided Akiko with her conception of herself as a writer and inspired many of her most significant literary projects. She, in turn, refurbished the tale as a modern novel, pioneered some of the most promising avenues of modern academic research on *Genji*, and, to a great extent, gave the text the prominence it now enjoys as a translated classic. Through Akiko's work *Genji* became, in fact as well as in name, an exemplum of that most modern of literary genres, the novel. In delineating this important aspect of Akiko's life and her bibliography, this study aims to show that facile descriptions of Akiko as a "poetess of passion" or "new woman" will no longer suffice.

The Inhabitants of the Philippines

The 'International Military Tribunal for the Far East' (IMTFE), held in Tokyo from May 1946 to November 1948, was a landmark event in the development of modern international criminal law. The trial in Tokyo was a complex undertaking and international effort to hold individuals accountable for core international crimes and delivering justice. The Tribunal consisted of 11 judges and respective national prosecution teams from 11 countries, and a mixed Japanese–American team of defence lawyers. The IMTFE indicted 28 Japanese defendants, amongst them former prime ministers, cabinet ministers, military leaders, and diplomats, based on a 55-count indictment pertaining to crimes against peace, war crimes, and crimes against humanity. The judgment was not unanimous, with one majority judgment, two concurring opinions, and three dissenting opinions. The trial and the outcome were the subject of significant controversy and the Tribunal's files were subsequently shelved in the archives. While its counterpart in Europe, the 'International Military Tribunal' (IMT) at Nuremberg, has been at the centre of public and scholarly interest, the Tokyo Tribunal has more recently gained international scholarly attention. This volume combines perspectives from law, history, and the social sciences to discuss the legal, historical, political and cultural significance of the Tokyo Tribunal. The collection is based on an international conference marking the 70th anniversary of the judgment of the IMTFE, which was held in Nuremberg in 2018. The volume features reflections by eminent scholars and experts on the establishment and functioning of the Tribunal, procedural and substantive issues as well as receptions and repercussions of the trial.

Yosano Akiko and *The Tale of Genji*

To what extent can music be employed to shape one culture's understanding of another? In the American imagination, Japan has represented the "most alien" nation for over 150 years. This perceived difference has inspired fantasies--of both desire and repulsion--through which Japanese culture has profoundly impacted the arts and industry of the U.S. While the influence of Japan on American and European painting, architecture, design, theater, and literature has been celebrated in numerous books and exhibitions, the role of music has been virtually ignored until now. W. Anthony Sheppard's *Extreme Exoticism* offers a detailed documentation and wide-ranging investigation of music's role in shaping American perceptions of the Japanese, the influence of Japanese music on American composers, and the place of Japanese Americans in American musical life. Presenting numerous American encounters with and representations of Japanese music and Japan, this book reveals how music functions in exotic representation across a variety of genres and media, and how Japanese music has at various times served as a sign of modernist experimentation, a sounding board for defining American music, and a

tool for reshaping conceptions of race and gender. From the Tin Pan Alley songs of the Russo-Japanese war period to Weezer's Pinkerton album, music has continued to inscribe Japan as the land of extreme exoticism.

The development of the use of computers and software in art from the Fifties to the present is explained. As general aspects of the history of computer art an interface model and three dominant modes to use computational processes (generative, modular, hypertextual) are presented. The "History of Computer Art" features examples of early developments in media like cybernetic sculptures, computer graphics and animation (including music videos and demos), video and computer games, reactive installations, virtual reality, evolutionary art and net art. The functions of relevant art works are explained more detailed than usual in such histories.

BOOKS OF THE YEAR 2017 - GOURMET TRAVELLER AUSTRALIA 'My approach to food favours intuition over strict rules and is about using your hands, rushing a little less and savouring the details. It is food that slowly weaves its way into the fabric of your daily life - food for living and sharing.' Julia Busuttill Nishimura has gained a strong and loyal following for her generous, uncomplicated, seasonal food. Her interpretations of dishes from Italy and the Mediterranean feel both timelessly familiar and altogether fresh and new. This is modern Australian eating with respect for the past. Julia guides us through the uniquely satisfying experience of making pasta or pizza dough from scratch, with recipes such as ricotta tortelloni with butter, sage and hazelnuts or taleggio and potato pizza. She also shares plenty of flavourful salads and simple meals for days when time is scarce, such as roasted cauliflower and wheat salad or tray-roasted chicken with grapes, olives and walnuts. Baking and desserts, too, needn't be overly complicated. As Julia shows us, some of the best recipes are those that have been passed down the generations and streamlined to perfection along the way, such as the perfect lemon olive oil cake. But we also need the odd show-stopper like a chocolate layer cake with espresso frosting on standby for special occasions! This is simple food that is comforting and generous in spirit. Slow down, take your time and enjoy it. This is a specially formatted fixed layout ebook that retains the look and feel of the print book. PRAISE FOR OSTRO "This is classy, quirky - and perfect for anyone of us wanting to remember that life is, in the end, about friendships and family." Readings "Nishimura produces aspirational dishes - simple, diverse and encouraging us to finally give things like handmade pasta a go" Broadsheet

Conformist, mute and malleable? Andrews tackles head-on this absurd caricature of Japanese society in his fascinating history of its militant sub-cultures, radical societies and well-established traditions of dissent. Following the March 2011 tsunami and Fukushima nuclear crisis, the media remarked with surprise on how thousands of demonstrators had flocked to the streets of Tokyo. But mass protest movements are nothing new in Japan and the post-war period experienced years of unrest and violence on both sides of the political spectrum: from demos to riots, strikes, campus occupations, faction infighting, assassinations and even international terrorism. This is the first comprehensive history in English of political radicalism and counterculture in Japan, as well as the artistic developments during this turbulent time. It chronicles the major events and movements from 1945 to the new flowering of protests and civil dissent in the wake of Fukushima. Introducing readers to often ignored aspects of Japanese society, it explores the fascinating ideologies and personalities on the Right and the Left, including the student movement, militant groups and communes. While some elements parallel developments in Europe and America, much of Japan's radical recent past (and present) is unique and offers valuable lessons for understanding the context to the new waves of anti-government protests the nation is currently witnessing.

The films of John Carpenter cover a tremendous range and yet all bear his clear personal stamp. From the horrifying (Halloween) to the touching (Starman) to the controversial (The Thing) to the comic (Big Trouble in Little China), his films reflect a unique approach to filmmaking and singular views of humanity and American culture. This analysis of Carpenter's films includes a historical overview of his career, and in-depth entries on each of his films, from 1975's *Dark Star* to 1998's *Vampires*. Complete cast and production information is provided for each. The book also covers those films written and produced by Carpenter, such as *Halloween II* and *Black Moon Rising*, as well as Carpenter's work for television. Appendices are included on films Carpenter was offered but turned down, the slasher films that followed in the wake of the highly-successful *Halloween*, the actors and characters who make repeated appearances in Carpenter's films, and ratings for Carpenter's work. Notes, bibliography, and index are included.

The Persuasion Code

This critically acclaimed play by Luis Valdez cracks open the depiction of Chicanos on stage, challenging viewers to revisit a troubled moment in our nation's history. From the moment the myth-infused character El Pachuco burst onto the stage, cutting his way through the drop curtain with a switchblade, Luis Valdez spurred a revolution in Chicano theater. Focusing on the events surrounding the Sleepy Lagoon Murder Trial of 1942 and the ensuing Zoot Suit Riots that turned Los Angeles into a bloody war zone, this is a gritty and vivid depiction of the horrifying violence and racism suffered by young Mexican Americans on the home front during World War II. Valdez's cadre of young urban characters struggle with the stereotypes and generalizations of America's dominant culture, the questions of assimilation and patriotism, and a desire to rebel against the mainstream pressures that threaten to wipe them out. Experimenting with brash forms of narration, pop culture of the war era, and complex characterizations, this quintessential exploration of the Mexican-American experience in the United States during the 1940's was the first, and only, Chicano play to open on Broadway. This collection contains three of playwright and screenwriter Luis Valdez's most important and recognized plays: *Zoot Suit*, *Bandido!* and *I Don't Have to Show You No Stinking Badges*. The anthology also includes an introduction by noted theater critic Dr. Jorge Huerta of the University of California-San Diego. Luis Valdez, the most recognized and celebrated Hispanic playwright of our times, is the director of the famous farm-worker theater, El Teatro Campesino.

Science Education: A Global Perspective is 'global' both in content and authorship. Its 17 chapters by an assemblage of seasoned and knowledgeable science educators from many parts of the world seek to bring to the fore current developments in science education and their implications. The book thus covers a wide range of topics in science education from various national and international perspectives. These include the nature of science, science and religion, evolution, curriculum and pedagogy, context-based teaching and learning, science and national development, socially-responsible science education, equitable access for women and girls in science and technology education, and the benefits of science education research. It ends on an optimistic note by looking at science education in 50 years' time with a recommendation, among others, for stakeholders to take the responsibility of preparing children towards a blossoming science education sector in an anticipated future world. This book is suitable for use by discerning researchers, teachers, undergraduate and postgraduate students in science education, and policy makers at all levels of education. Other educationalists and personnel in science

and technology vocations will also find it interesting and useful as the reader-motivated approach has guided the presentation of ideas. *Science Education: A Global Perspective* is a rich compendium of the components of science education in context, practice, and delivery. Dr Bulent Cavas, Professor of Science Education, Dokuz Eylul University, Buca-Izmir, Turkey/President-Elect, International Council of Associations for Science Education (ICASE) This book will be of immense relevance for current and future global strides in training and research in science education. Surinder K. Ghai, Chairman, Sterling Publishers Pvt. Ltd., New Delhi, India This book provides a refreshing insight into the current status and future direction of science education. It will be very useful to researchers, those pursuing undergraduate and post-graduate courses in science education, and all other personnel involved in the policy and practice of science education. The Films of John Carpenter

"Take a walk down Madison's iconic State Street -- from the State Capitol to UW-Madison's Library Mall -- to witness the images and feel the emotion that dozens of artists felt after the killing of George Floyd. This publication encompasses striking photographs and the artists' own words to understand their motivation and appreciate what they hope readers will feel when they see their work. More than a hundred murals originally commissioned by the City of Madison on storefronts generously provided by downtown business owners are celebrated in this striking collection of art and protest. Also included are original essays from noteworthy Black scholars and a special poem by Madison's former poet laureate. We hope this book encourages you to reflect, to consider and to "Talk About It" when it comes to issues of racial justice."--Jacket flap.

TSQ aims to be the journal of record for the rapidly emerging field of transgender studies. The inaugural issue, "Postposttranssexual: Key Concepts for a 21st-Century Transgender Studies," pays homage to Sandy Stone's field-defining "Posttranssexual Manifesto" and assesses where the field is now and where it seems to be heading. Comprising over eighty short essays by authors ranging from graduate students to senior scholars, the issue takes on such topics as biopolitics, disability, political economy, childhood, trans-of-color critique, area studies, translation, pathologization, the state, and animal studies. Some keyword entries resemble encyclopedia articles (sports, psychoanalysis); others are poetic meditations on concepts (capacity, transition); still others offer whimsical and eccentric expositions of words that are more unexpected-and unexpectedly productive (perfume, hips). Some entries pose trenchant resistances to the keyword concept itself. The issue includes a substantive introduction by the editors and serves as a primer for readers encountering transgender studies for the first time.

Teaching Race in the 21st Century

The *Unlike Us* Reader offers a critical examination of social media, bringing together theoretical essays, personal discussions, and artistic manifestos. How can we understand the social media we use every day, or consciously choose not to use? We know very well that monopolies control social media, but what are the alternatives? While Facebook continues to increase its user population and combines loose privacy restrictions with control over data, many researchers, programmers, and activists turn towards designing a decentralized future. Through understanding the big networks from within, be it by philosophy or art, new perspectives emerge. *Unlike Us* is a research network of artists, designers, scholars, activists, and programmers, with the aim to combine a critique of the dominant social media platforms with work on 'alternatives in social media', through workshops, conferences, online dialogues, and publications. Everyone is invited to be a part of the public discussion on how we want to shape the network architectures and the future of social networks we are using so intensely.

"The Design of "The Waste Land" offers a detailed, comprehensive explanation of T. S. Eliot's enigmatic poem. It relates *The Waste Land* to earlier and later poems by Eliot, demonstrating that the major poems describe a continuous spiritual odyssey or quest undertaken by the same individual, initiated by the moment of ecstasy in the Hyacinth garden." "Blistein's analysis of Eliot's sources reveals that the protagonist's glimpse of "the heart of light" is equivalent to drinking from the Grail, or communing with God. The incarnate deity momentarily transforms the Hyacinth garden into the likeness of the

Edenic paradise. With the inevitable passing of the moment of communion, the protagonist in effect is expelled from the paradisiacal garden as mankind was from Eden. By contrast, the familiar world appears to him a wasteland. The protagonist seeks to drink again from the divine Source and return again to the garden as it was when transfigured by the divine presence. His is a quest for grail and homeland."--BOOK JACKET.

Workings of the Spirit

Urban slum dwellers—especially in emerging-economy countries—are often poor, live in squalor, and suffer unnecessarily from disease, disability, premature death, and reduced life expectancy. Yet living in a city can and should be healthy. *Slum Health* exposes how and why slums can be unhealthy; reveals that not all slums are equal in terms of the hazards and health issues faced by residents; and suggests how slum dwellers, scientists, and social movements can come together to make slum life safer, more just, and healthier. Editors Jason Corburn and Lee Riley argue that valuing both new biologic and “street” science—professional and lay knowledge—is crucial for improving the well-being of the millions of urban poor living in slums.

An Introduction to the Profession of Social Work

For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers—such as Henry Mancini, Randy Newman, and John Williams—have become household names. The *Encyclopedia of Film Composers* features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Each entry includes Biographical material Important dates Career highlights Analysis of the composer's musical style Complete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, *The Encyclopedia of Film Composers* will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.

Science Education: A Global Perspective

A Library Journal Horror Best Seller From Nebula Award winner Sam J. Miller comes a frightening and uncanny ghost story about a rapidly changing city in upstate New York and the mysterious forces that threaten it. Ronan Szepessy promised himself he'd never return to Hudson. The sleepy upstate town was no place for a restless gay photographer. But his father is ill and New York City's distractions have become too much for him. He hopes that a quick visit will help him recharge. Ronan reconnects with two friends from high school: Dom, his first love, and Dom's wife, Attalah. The three former misfits mourn what their town has become—overrun by gentrifiers and corporate interests. With friends and neighbors getting evicted en masse and a mayoral election coming up, Ronan and Attalah craft a plan to rattle the newcomers and expose their true motives. But in doing so, they unleash something far more mysterious and uncontrollable. Hudson has a rich, proud history and, it turns out, the real-state developers aren't the only forces threatening its well-being: the spirits undergirding this once-thriving industrial town are enraged. Ronan's hijinks have overlapped with a bubbling up of hate and violence among friends and neighbors, and everything is spiraling out of control. Ronan must summon the very best of himself to shed his own demons and save the city he once loathed.

A Study Guide for Jack London's The Heathen

A Study Guide for Jack London's "The Heathen"

Approaches to Teaching the Works of Jack London

A prolific and enduringly popular author--and an icon of American fiction--Jack London is a rewarding choice for inclusion in classrooms from middle school to graduate programs. London's biography and the role played by celebrity have garnered considerable attention, but the breadth of his personal experiences and political views and the many historical and cultural contexts that shaped his work are key to gaining a nuanced view of London's corpus of works, as this volume's wide-ranging perspectives and examples attest. The first section of this volume, "Materials," surveys the many resources available for teaching London, including editions of his works, sources for his photography, and audiovisual aids. In part 2, "Approaches," contributors recommend practices for teaching London's works through the lenses of socialism and class, race, gender, ecocriticism and animal studies, theories of evolution, legal theory, and regional history, both in frequently taught texts such as *The Call of the Wild*, *"To Build a Fire,"* and *Martin Eden* and in his lesser-known works.

Handbook of the American Short Story

The American short story has always been characterized by exciting aesthetic innovations and an immense range of topics. This handbook offers students and researchers a comprehensive introduction to the multifaceted genre with a special focus on recent developments due to the rise of new media. Part I provides systematic overviews of significant contexts ranging from historical-political backgrounds, short story theories developed by writers, print and digital culture, to current theoretical approaches and canon formation. Part II consists of 35 paired readings of representative short stories by eminent authors, charting major steps in the evolution of the American short story from its beginnings as an art form in the early nineteenth century up to the digital age. The handbook examines historically, methodologically, and theoretically the coming together of the enduring narrative practice of compression and concision in American literature. It offers fresh and original readings relevant to studying the American short story and shows how the genre performs American culture.

Jack London

Recounting his 1897-98 Klondike Gold Rush experience Jack London stated: It was in the Klondike I found myself. There nobody talks. Everybody thinks. There you get your perspective. I got mine. This study explores how London's Northland odyssey - along with an insatiable intellectual curiosity, a hardscrabble youth in the San Francisco Bay Area, and an acute craving for social justice - launched the literary career of one of America's most dynamic 20th-century writers. The major Northland works - including *The Call of the Wild*, *White Fang*, and *To Build a Fire* - are considered in connection with the motifs of literary Naturalism, as well as in relation to complicated issues involving imperialism, race, and gender. London's key subjects-the frontier, the struggle for survival, and economic mobility-are examined in conjunction with how he developed the underlying themes of his work to engage and challenge the social, political, and philosophical revolutions of his era that were initiated by Darwin,

South Sea Tales

This book of eight Jack London tales is set in the South Seas.

Jack London and the Sea

The first book-length study of London as a maritime writer Jack London's fiction has been studied previously for its thematic connections to the ocean, but *Jack London and the Sea* marks the first time that his life as a writer has been considered extensively in relationship to his own sailing history and interests. In this new study, Anita Duneer claims a central place for London in the maritime literary tradition, arguing that for him romance and nostalgia for the Age of Sail work with and against the portrayal of a gritty social realism associated with American naturalism in urban or rural settings. The sea provides a dynamic setting for London's navigation of romance, naturalism, and realism to interrogate key social and philosophical dilemmas of modernity: race, class, and gender. Furthermore, the maritime tradition spills over into texts that are not set at sea. *Jack London and the Sea* does not address all of London's sea stories, but rather identifies key maritime motifs that influenced his creative process. Duneer's critical methodology employs techniques of literary and cultural analysis, drawing on extensive archival research from a wealth of previously unpublished biographical materials and other sources. Duneer explores London's immersion in the lore and literature of the sea, revealing the extent to which his writing is informed by travel narratives, sensational sea yarns, and the history of exploration, as well as firsthand experiences as a sailor in the San Francisco Bay and Pacific Ocean. Organized thematically, chapters address topics that interested London: labor abuses on "Hell-ships" and copra plantations, predatory and survival cannibalism, strong seafaring women, and environmental issues and property rights from San Francisco oyster beds to pearl diving in the Paumotos. Through its examination of the intersections of race, class, and gender in London's writing, *Jack London and the Sea* plumbs the often-troubled waters of his representations of the racial Other and positions of capitalist and colonial privilege. We can see the manifestation of these socioeconomic hierarchies in London's depiction of imperialist exploitation of labor and the environment, inequities that continue to reverberate in our current age of global capitalism.

Western American Literature

Jack London (1876-1916), known for his naturalistic and mythic tales, remains among the most popular and influential American writers in the world. *Jack London's Racial Lives* offers the first full study of the enormously important issue of race in London's life and diverse works, whether set in the Klondike, Hawaii, or the South Seas or during the Russo-Japanese War, the Jack Johnson world heavyweight bouts, or the Mexican Revolution. Jeanne Campbell Reesman explores his choices of genre by analyzing racial content and purpose and judges his literary artistry against a standard of racial tolerance. Although he promoted white superiority in novels and nonfiction, London sharply satirized racism and meaningfully portrayed racial others--most often as protagonists--in his short fiction. Why the disparity? For London, racial and class identity were intertwined: his formation as an artist began with the mixed "heritage" of his family. His mother taught him racism, but he learned something different from his African American foster mother, Virginia Prentiss. Childhood poverty, shifting racial allegiances, and a "psychology of want" helped construct the many "houses" of race and identity he imagined. Reesman also examines London's socialism, his study of Darwin and Jung, and the illnesses he suffered in the South Seas. With new readings of *The Call of the Wild*, *Martin Eden*, and many other works, such as the explosive Pacific stories, Reesman reveals that London employed many of the same literary tropes of race used by African American writers of his period: the slave

narrative, double-consciousness, the tragic mulatto, and ethnic diaspora. Hawaii seemed to inspire his most memorable visions of a common humanity.

What can there possibly be left to say about . . .? This common litany, resonant both in and outside of academia, reflects a growing sense that the number of subjects and authors appropriate for literary study is rapidly becoming exhausted. Take heart, admonishes Richard Kopley in this dynamic new anthology--for this is decidedly not the case. While generations of literary study have unquestionably covered much ground in analyzing canonical writers, many aspects of even the most well-known authors--both their lives and their work-- remain underexamined. Among the authors discussed are T. S. Eliot, Ralph Waldo Emerson, William Faulkner, Harriet Beecher Stowe, Walt Whitman, Ernest Hemingway, Richard Wright, Edith Wharton, Nathaniel Hawthorne, Zora Neale Hurston, Henry James, Willa Cather, Herman Melville, Edgar Allan Poe, Henry David Thoreau, and Mark Twain.

The South Sea Tales ANNOTATED

Accounts of dare-devil exploits have always been read with deep interest. One of the salient features of human nature is curiosity, a desire to know what is being said and done outside the narrow limits of one's individual experience, or, in other words, to learn the modes of life of persons whose environment and problems are different from one's own environment and problems. To this natural curiosity, the book of travel is particularly gratifying. But when we add to the fact that such a narrative treats of races and conditions almost unknown to the inhabitants of civilised countries the consideration that those voyageurs to whom the adventures fell are men and women already prominently before the public, and so deserving of that public's special confidence, the interest and value of such a work will be seen to be extraordinarily enhanced. The cruise of Jack London's forty-five-foot ketch Snark was followed eagerly by the press of several continents. The Snark alone was enough to compel attention, but the Snark sailed by Jack London, a writer of world-wide celebrity, was irresistible. The venture caught the world's fancy. Periodicals devoted columns to a discussion of the Snark and her builder, and to the daring crew who sailed the tiny craft for two years through the South Seas. When it became known that such a voyage was in contemplation, hundreds of persons wrote to Mr. London, begging that he allow them to accompany him. On the other extreme, they were legion who threw up their hands in horror at the mere suggestion....

Through the South Seas With Jack London

Entertaining, atmospheric, and action-filled--yet difficult to obtain until now--the eight short stories in Jack London's A Son of the Sun center on the thrilling exploits of Captain David Grief in the dangerous and exotic South Seas. Captain Grief encounters the adventurers, scoundrels, pirates, and opportunists who followed the example of their colonial predecessors and exploited the islands and their resources early in the twentieth century. Inspired by London's own voyage through the South Seas on board his self-made yacht, the Snark, these stories paint a colorful--and at times horrifying--picture of the remote South Pacific.

South Sea Tales (1911) is a collection of short stories written by Jack London. Most stories are set in island communities, like those of Hawaii, or are set aboard a ship. The stories that comprise South Sea Tales derive their intensity from the author's own far-flung adventures, conveying an impassioned, unsparing vision borne only of experience. The powerful tales gathered here vividly evoke the turn-of-the-century colonial Pacific and its capricious tropical landscape, while also trenchantly observing the delicate interplay between imperialism and the exotic.
