Intro
I learned from TV
I wanted to play piano
I was the funny guy
My first successful crossing of a moral boundary
One day I was going to school
My grades began to slide

American fun
Losing jobs
Drugs and alcohol
A true story
Going down the park
Im in this church
When it rains youre in deep trouble
Ive had my life saved by crap
Ive been suicidal
Im in a blizzard
Lights out
Meeting of AA
I felt nearly human
I felt like I was needed
I got a little nervous
My sponsor Jimmy
The East River
Prayer

French Literature of the Great War - War College Series

This is a curated and comprehensive collection of the most important works covering matters related to national security, diplomacy, defense, war, strategy, and tactics. The collection spans centuries of thought and experience, and includes the latest analysis of international threats, both conventional and asymmetric. It also includes riveting first person accounts of historic battles and wars. Some of the books in this Series are reproductions of historical works preserved by some of the leading libraries in the world. As with any reproduction of a historical artifact, some of these books contain missing or blurred pages, poor pictures, errant marks, etc. We believe these books are essential to this collection and the study of war, and have therefore brought them back into print, despite these imperfections. We hope you enjoy the unmatched breadth and depth of this collection, from the historical to the just-published works.

French Literature of the Great War

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1920 edition. Excerpt: ... CHAPTER II PERIOD OF DOCUMENTATION--COMMENCING ABOUT THE SPRING OF 1915 Some Soldier Types In War Novels We now come to those books which relate much more objectively than those referred to previously, the facts connected directly or indirectly with the prosecution of the war. As the conflict progressed and assumed formidable proportions, changing its character from that of a war of nations in which national and political aims strove for mastery, to that of a world war in which great human principles were involved, it was both inevitable and imperative that the lyric and epic notes should die down. In the spring of 1915, the more intelligent had already realized how helpless are strong emotions to solve great problems; that the old "cliches" had served their purpose and that it was time to discard them; what the seriousness of the hour demanded then was a deep, clear, practical, sober apprehension of the realities of the hour. The most immediate interest, of course, was focussed on the soldiers who were waging the war. Some men of letters soon began to make use of what had been for many years the most common medium of art, the novel. We must, however, beg leave to draw here a sharp distinction between two kinds of novels dealing with the war. The one we will call War-Novel proper, in which the authors work up documents or personal experiences in order to make us see more deeply the significance of war itself; they apply the realistic theory of art which has been so well defined in Maupassant's Preface to *Pierre et Jean*; their aim is to rearrange facts in a manner which is more exact perhaps than reality but more indicative of the internal order of things, and with a view to bringing out more convincingly than mere contingencies have...

French Literature of the Great War

Table of contents

France and the Great War

Shocked by the fall of France in 1940, panicked US leaders rushed to back the Vichy governmentÑa fateful decision that nearly destroyed the AngloÐAmerican alliance. According to US Secretary of War Henry Stimson, the Òmost shocking single eventÓ of World War II was not the Japanese attack on Pearl Harbor, but rather the fall of France in spring 1940. Michael Neiberg offers a dramatic history of the American responseÑa policy marked by panic and moral ineptitude, which placed the United States in league with fascism and nearly ruined the alliance with Britain. The successful Nazi invasion of France destabilized American plannersÕ strategic assumptions. At home, the result was huge increases in defense spending, the advent of peacetime military conscription, and domestic spying to weed out potential fifth columnists. Abroad, the United States decided to work with Vichy France despite its pro-Nazi tendencies. The USÐVichy partnership, intended to buy time and temper the flames of war in Europe, severely strained AngloÐAmerican relations. American leaders naively believed that they could woo men like Philippe PŽtain, preventing France from becoming a formal German ally. The British, however, understood that Vichy was subservient to Nazi Germany and instead supported resistance figures such as Charles de Gaulle. After the war, the choice to back Vichy tainted USÐFrench relations for decades. Our collective memory of World War II as a period of American strength overlooks the desperation and faulty decision making that drove US policy from 1940 to 1943. Tracing the key diplomatic and strategic moves of these formative years, *When France Fell* gives us a more nuanced and complete understanding of the war and of the global position the United States would occupy afterward.

When France Fell

Behind the fa ade of unity, the French intelligentsia was riven by the same fundamental divisions that had characterized it before the war. For example, the Republican Left argued that German nationalism and militarism began after Kant, with Fichte or Hegel, while the Catholic and nationalistic reactionary Right denounced Kant as the evil inspiration of France's liberal democracy and public school system. The heated rhetoric of the war and the unbearable loss of young lives, says Hanna, lent weight to a redefinition of French culture in national terms--and this, ironically, ended in the cultural conservatism of Vichy France. This is the first study of the power of French pens and words during and after the Great War. It is a contribution to French and European history as well as to intellectual history.

The Mobilization of Intellect

A daring young woman will risk her life to find her destiny in this atmospheric, beautifully drawn historical debut novel—a tale of love, hope, and danger set during the First World War. Lady Elizabeth Neville-Ashford wants to travel the world, pursue a career, and marry for love. But in 1914, the stifling restrictions of aristocratic British society and her mother's rigid expectations forbid Lilly from following her heart. When war breaks out, the spirited young woman seizes her chance for independence. Defying her parents, she moves to London and eventually becomes an ambulance driver in the newly formed Women's Army Auxiliary Corps—an exciting and treacherous job that takes her close to the Western Front. Assigned to a field hospital in France, Lilly is reunited with Robert Fraser, her dear brother Edward's best friend. The handsome Scottish surgeon has always encouraged Lilly's dreams. She doesn't care that Robbie grew up in poverty—she yearns for their friendly affection to become something more. Lily is the most beautiful—and forbidden—woman Robbie has ever known. Fearful for her life, he's determined to keep her safe, even if it means breaking her heart. In a world divided by class, filled with uncertainty and death, can their hope for love survive. . . or will it become another casualty of this tragic war? The paperback includes a P.S. section with additional insights from the author, background material, suggestions for further reading, and more.

The impact of the Great War on some of France and Britain's most prominent writers.

British and French Writers of the First World War

The noted military historian presents an illuminating study of trench warfare during WWI—and how it influenced the French Army's evolution. Michel Goya's *Flesh and Steel* during the Great War is a major contribution to our understanding of the French Army's experience on the Western Front, and how that experience impacted the future of its military theory and practice. Goya explores the way in which the senior commanders and ordinary soldiers responded to the extraordinary challenges posed by the mass industrial warfare of the early twentieth century. In 1914 the French army went to war with a flawed doctrine, brightly-colored uniforms and a dire shortage of modern, heavy artillery. How then, over four years of relentless, attritional warfare, did it become the great, industrialized army that emerged victorious in 1918? To show how this change occurred, the author examines the pre-war ethos and organization of the army. He describes in telling detail how, through a process of analysis and innovation, the French army underwent the deepest and fastest transformation in its history.

Flesh and Steel During the Great War

The History of World War I series recounts the battles and campaigns of the 'Great War'. From the Falkland Islands to the lakes of Africa, across the Eastern and Western Fronts, to the former German colonies in the Pacific, the World War I series provides a six-volume history of the battles and campaigns that raged on land, at sea and in the air.

The Western Front 1914–1916

This is a curated and comprehensive collection of the most important works covering matters related to national security, diplomacy, defense, war, strategy, and tactics. The collection spans centuries of thought and experience, and includes the latest analysis of international threats, both conventional and asymmetric. It also includes riveting first person accounts of historic battles and wars. Some of the books in this Series are reproductions of historical works preserved by some of the leading libraries in the world. As with any reproduction of a historical artifact, some of these books contain missing or blurred pages, poor pictures, errant marks, etc. We believe these books are essential to this collection and the study of war, and have therefore brought them back into print, despite these imperfections. We hope you enjoy the unmatched breadth and depth of this collection, from the historical to the just-published works.

A Short History of Modern Europe from the French Revolution to the Great War - War College Series

A renowned military historian closely examines the first month of World War I in France. On August 1, 1914, war erupted into the lives of millions of families across France. Most people thought the conflict would last just a few weeks . . . Yet before the month was out, twenty-seven thousand French soldiers died on the single day of August 22 alone—the worst catastrophe in French military history. Refugees streamed into France as the German army advanced, spreading rumors that amplified still more the ordeal of war. Citizens of enemy countries who were living in France were viciously scapegoated. Drawing from diaries, personal correspondence, police reports, and government archives, Bruno Cabanes renders an intimate, narrative-driven study of the first weeks of World War I in France. Told from the perspective of ordinary women and men caught in the flood of mobilization, this revealing book deepens our understanding of the traumatic impact of war on soldiers and civilians alike. “An exceptional book, a brilliant, moving, and insightful analysis of national mobilization.” —Martha Hanna, author of *Your Death Would Be Mine: Paul and Marie Pireaud in the Great War* “This book deserves a wide readership from historians, critics and anyone interested in the catastrophe of war.” —Mary Louise Roberts, Distinguished Lucie Aubrac and Plaenert-Bascom Professor of History, University of Wisconsin, Madison “The sounds, sights and emotions of August, 1914 are all evoked with exceptional skill.” —David A. Bell, author of *The First Total War: Napoleon's Europe and the Birth of Warfare as We Know It*

August 1914

A Companion to the First World War brings together an international team of distinguished historians who provide a series of original and thought-provoking essays on one of the most devastating events in modern history. Comprises 38 essays by leading scholars who analyze the current state of historical scholarship on the First World War Provides extensive coverage spanning the pre-war period, the military conflict, social, economic, political, and cultural developments, and the war's legacy Offers original perspectives on themes as diverse as strategy and tactics, war crimes, science and technology, and the arts Selected as a 2011 Outstanding Academic Title by CHOICE

A Companion to World War I

How did the soldiers in the trenches of the Great War understand and explain battlefield experience, and themselves through that experience? Situated at the intersection of military history and cultural history, *The Embattled Self* draws on the testimony of French combatants to explore how combatants came to terms with the war. In order to do so, they used a variety of narrative tools at hand—rites of passage, mastery, a character of the soldier as a consenting citizen of the Republic. None of the resulting versions of the story provided a completely consistent narrative, and all raised more questions about the “truth” of experience than they answered. Eventually, a story revolving around tragedy and the soldier as victim came to dominate—even to silence—other types of accounts. In thematic chapters, Leonard V. Smith explains why the novel structured by a specific notion of trauma prevailed by the 1930s. Smith canvasses the vast literature of nonfictional and fictional testimony from French soldiers to understand how and why the “embattled self” changed over time. In the process, he undermines the conventional understanding of the war as tragedy and its soldiers as victims, a view that has dominated both scholarly and popular opinion since the interwar period. The book is important reading not only for traditional historians of warfare but also for scholars in a variety of fields who think critically about trauma and the use of personal testimony in literary and historical studies.

The Embattled Self

In tracing stories about war heroines, but also about villainesses like Mata Hari, this study shows what these stories reveal about French understanding of the First World War, and their hopes and fears for the future.

French Women and the First World War

This is a curated and comprehensive collection of the most important works covering matters related to national security, diplomacy, defense, war, strategy, and tactics. The collection spans centuries of thought and experience, and includes the latest analysis of international threats, both conventional and asymmetric. French Public Finance in the Great War and To-Day, with Chapters on Banking and Currency - War College Series

This vivid, detailed history of World War I presents the general reader with an accurate and readable account of the campaigns and battles, along with brilliant portraits of the leaders and generals of all countries involved. Scrupulously fair, praising and blaming friend and enemy as circumstances demand, this has become established as the classic account of the first world-wide war.

A History of the Great War, 1914–1918

The Telegraph • Best Books of the Year The Times of London • Best Books of the Year A panoramic history of the savage combat on the Western Front between 1914 and 1918 that came to define modern warfare. The Western Front evokes images of mud-spattered men in waterlogged trenches, shielded from artillery blasts and machine-gun fire by a few feet of dirt. This iconic setting was the most critical arena of the Great War, a 400-mile combat zone stretching from Belgium to Switzerland where more than three million Allied and German soldiers struggled during four years of almost continuous combat. It has persisted in our collective memory as a tragic waste of human life and a symbol of the horrors of industrialized warfare. In this epic narrative history, the first volume in a groundbreaking trilogy on the Great War, acclaimed military historian Nick Lloyd captures the horrific fighting on the Western Front beginning with the surprise German invasion of Belgium in August 1914 and taking us to the Armistice of November 1918. Drawing on French, British, German, and American sources, Lloyd weaves a kaleidoscopic chronicle of the Marne, Passchendaele, the Meuse-Argonne, and other critical battles, which reverberated across Europe and the wider war. From the trenches where men as young as 17 suffered and died, to the headquarters behind the lines where Generals Haig, Joffre, Hindenburg, and Pershing developed their plans for battle, Lloyd gives us a view of the war both intimate and strategic, putting us amid the mud and smoke while at the same time depicting the larger stakes of every encounter. He shows us a dejected Kaiser Wilhelm II—soon to be eclipsed in power by his own generals—lamenting the botched Schlieffen Plan; French soldiers piling atop one another in the trenches of Verdun; British infantryman wandering through the frozen wilderness in the days after the Battle of the Somme; and General Erich Ludendorff pursuing a ruthless policy of total war, leading an eleventh-hour attack on Reims even as his men succumbed to the Spanish Flu. As Lloyd reveals, far from a site of attrition and stalemate, the Western Front was a simmering, dynamic “cauldron of war” defined by extraordinary scientific and tactical innovation. It was on the Western Front that the modern technologies—machine guns, mortars, grenades, and howitzers—were refined and developed into effective killing machines. It was on the Western Front that chemical warfare, in the form of poison gas, was first unleashed. And it was on the Western Front that tanks and aircraft were introduced, causing a dramatic shift away from nineteenth-century bayonet tactics toward modern combined arms, reinforced by heavy artillery, that forever changed the face of war. Brimming with vivid detail and insight, *The Western Front* is a work in the tradition of Barbara Tuchman and John Keegan, Rick Atkinson and Antony Beevor: an authoritative portrait of modern warfare and its far-reaching human and historical consequences.

The Western Front: A History of the Great War, 1914-1918

A history of Germany in World War I as told by the soldiers who fought the battles and the civilians grappling with a decline in quality of life. Europe went to war in 1914 to the sound of brass bands and cheering crowds; in every country, civilians and soldiers alike believed that the war would be won by Christmas time. By the time Christmas arrived, however, it became clear that this, indeed, would be a much longer war. In the months and years which followed, combatants perused the war with boundless intensity to emerge victorious. This was partially true of Germany where publicists pictured it as a life-and-death struggle for the survival of a nation surrounded by hostile enemies. No nation involved in the conflict so completely mobilised its population, its resources, its energies into such a single-minded pursuit of the war. This unusual and incisive account chronicles Germany in World War I from the viewpoint of the soldiers who fought the battles and civilians who endured the ever-increasing trauma of escalating casualties, widespread shortages, and declining conditions of living. It relates how Germany attempted to cope with a massive blockade, the scope of which had not been seen

since the days of Napoleon, thus forcing German authorities to adopt a series of sometimes brutal measures, all of which rested on the underlying premise that victory, a clear-cut victory, could be the only acceptable option. *Victory Must Be Ours* explores the Germany which in 1914 took a prestigious leap into darkness. It explores the ingredients which make the Great War perhaps the single most fateful event in the Twentieth Century, setting in motion the bloodiest conflict of all time, World War II. Praise for *Victory Must Be Ours* "A stark, well-documented study of the hardships suffered by German civilians during WWI." —Publishers Weekly "Moyer makes sophisticated use of published and archival sources in the best English-language survey to date German participation in World War I. . . . He presents a vivid picture of a society strained beyond its limits by the unexpected demands of total war. . . . Civilians saw the quality of their lives decline precipitously in every area—a process that Moyer, a researcher and former history professor, describes particularly well." —Library Journal "Moyer draws a convincing connection between that bitterness and the appeal of extremist movements during the Weimar period. A specialist in German history, he has full command of the facts and relates his account with analytical skill and compassion." —Booklist

Victory Must Be Ours

After the Ruins uses both official and unofficial records to explore a relatively ignored aspect of recent rural history: how the fields, farms, villages and market towns of Northern France were restored during the 1920s in the aftermath of the Great War. The book contains illustrations and many detailed maps and makes use of both official reports and unofficial critical commentaries.

After the Ruins

Landmark study of World War I, describing its effects on the nation.

The Great War and Modern Memory

This book offers a critical study of the cultural and social phenomena of war in the French and French-speaking world through a number of lenses, including memory, gender, the arts, and intellectual history.

France and Its Spaces of War

This is a curated and comprehensive collection of the most important works covering matters related to national security, diplomacy, defense, war, strategy, and tactics. The collection spans centuries of thought and experience, and includes the latest analysis of international threats, both conventional and asymmetric. It also includes riveting first person accounts of historic battles and wars. Some of the books in this Series are reproductions of historical works preserved by some of the leading libraries in the world. As with any reproduction of a historical artifact, some of these books contain missing or blurred pages, poor pictures, errant marks, etc. We believe these books are essential to this collection and the study of war, and have therefore brought them back into print, despite these imperfections. The Psychology of the Great War - War College Series

Nick Lloyd's *Hundred Days: The End of the Great War* explores the brutal, heroic and extraordinary final days of the First World War. On the eleventh hour of the eleventh day in November 1918, the guns of the Western Front fell silent. The Armistice, which brought the Great War to an end, marked a seminal moment in modern European and World history. Yet the story of how the war ended remains little-known. In this compelling and ground-breaking new study, Nick Lloyd examines the last days of the war and asks the question: how did it end? Beginning at the heralded turning-point on the Marne in July 1918, *Hundred Days* traces the epic story of the next four months, which included some of the bloodiest battles of the war. Using unpublished archive material from five countries, this new account reveals how the Allies - British, French, American and Commonwealth - managed to beat the German Army, by now crippled by indiscipline and ravaged by influenza, and force her leaders to seek peace. 'This is a powerful and moving book by a rising military historian. Lloyd's depiction of the great battles of July-November provides compelling evidence of the scale of the Allies' victories and the bitter reality of German defeat' Gary Sheffield (Professor of War Studies) 'Lloyd enters the upper tier of Great War historians with this admirable account of the war's final campaign' Publishers Weekly Nick Lloyd is

Senior Lecturer in Defence Studies at King's College London, based at the Joint Services Command & Staff College in Shrivenham, Oxfordshire. He specialises in British military and imperial history in the era of the Great War and is the author of two books, *Loos 1915* (2006), and *The Amritsar Massacre: The Untold Story of One Fateful Day* (2011).

Hundred Days

A detailed history of France's development of tanks and the combat the tanks served in during World War I, by an armored warfare expert. The French tank corps was an essential part of the French army from 1917 onwards, yet its history has been strangely neglected in English accounts of the Western Front. Using information derived from the French military archives at Vincennes—much of which has never been published in English before—author Tim Gale describes the design and development of the tanks, the political and organizational issues that arose between the French military and civilian bureaucracy, and the record of these pioneering fighting vehicles in combat. All the major engagements in which French tanks participated are depicted in graphic detail, often quoting directly from recollections left by individual tank commanders of their experience in battle, and each operation is assessed in terms of its impact on French tactics in general and on tank tactics in particular. The Nivelle offensive and the battles of Malmaison, the Matz, Soissons, and Champagne are featured in the narrative, and the actions of the French tanks serving with the U.S. army are covered, too. Much of the material in Tim Gale's study will be entirely new to non-French speakers. The story will be fascinating reading for anyone who is interested in the Great War, the French army, military innovation and the history of armored warfare. Praise for *French Tanks of the Great War* "Gale's book . . . is very easy to dip into." —Military Modelling "It is a wealth of information and I would definitely recommend it." —Forgotten Weapons

French Tanks of the Great War

The first full-length study interpreting Celine's great novel through his traumatic war experience. As such, it makes an important contribution to Celine studies, to studies of memory and literature of the Great War, as well as to broader studies of war disrupted by twentieth-century trauma, memory and identity.

The Traumatic Memory of the Great War, 1914-1918, in Louis-Ferdinand Céline's *Voyage Au Bout de la Nuit*

This is a curated and comprehensive collection of the most important works covering matters related to national security, diplomacy, defense, war, strategy, and tactics. The collection spans centuries of thought and experience, and includes the latest analysis of international threats, both conventional and asymmetric. It also includes riveting first person accounts of historic battles and wars. Some of the books in this Series are reproductions of historical works preserved by some of the leading libraries in the world. As with any reproduction of a historical artifact, some of these books contain missing or blurred pages, poor pictures, errant marks, etc. We believe these books are essential to this collection and the study of war, and have therefore brought them back into print, despite these imperfections. We hope you enjoy the unmatched breadth and depth of this collection, from the historical to the just-published works.

The Hunters of the Hills

A comparative study of the cultural impact of the Great War on British and German societies. Taking medievalism as a mode of public commemorations as its focus, this book unravels the British and German search for historical continuity and meaning in the shadow of an unprecedented human catastrophe.

The Great War and Medieval Memory

A century ago General Joffre, as Chief of the French General Staff, led the armies that blocked the German invasion at the First Battle of the Marne. He saved Paris from occupation and France from probable defeat. His calm demeanour when faced with a disaster, his ruthless dismissal of incompetent subordinates, and his skilled redeployment of his forces contributed to a historic victory. At the time many saw him as the saviour of the nation, but what should we make of him now? For Joffre contributed to the failures of the French army and its strategy before the war and during the first battles of 1914.

Also his conduct of the war after the Marne futile offensives that cost thousands of lives and gained no ground, followed by near defeat at Verdun - undermined his position and led to his dismissal. Although he remained immensely popular in France, his reputation has been under a cloud ever since, and he has been overshadowed by the French generals - Ptain and especially Foch - who commanded the French army at the time of the final victory over Germany. Andr Bourachot, in this lucid and highly readable study of Joffre's career, focuses on his performance during the opening phase of the Great War. He offers a fresh and carefully considered view of the man and the soldier.

Marshal Joffre

DigiCat Publishing presents to you this special edition of "The Battle of Flanders 1940" by Major General John Hay Beith. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

The Battle of Flanders 1940

This multi-volume series in six parts is the first English-language translation of *Der Weltkrieg*, the German official history of the First World War. Originally produced between 1925 and 1944 using classified archival records that were destroyed in the aftermath of the Second World War, *Der Weltkrieg* is the inside story of Germany's experience on the Western front. Recorded in the words of its official historians, this account is vital to the study of the war and official memory in Weimar and Nazi Germany. Although exciting new sources have been uncovered in former Soviet archives, this work remains the basis of future scholarship. It is essential reading for any scholar, graduate student, or enthusiast of the Great War. This volume, the second to be published, covers the outbreak of war in July–August 1914, the German invasion of Belgium, the Battles of the Frontiers, and the pursuit to the Marne in early September 1914. The first month of war was a critical period for the German army and, as the official history makes clear, the German war plan was a gamble that seemed to present the only solution to the riddle of the two-front war. But as the Moltke-Schlieffen Plan was gradually jettisoned through a combination of intentional command decisions and confused communications, Germany's hopes for a quick and victorious campaign evaporated.

Germany's Western Front

The Great War is a collection of seven original essays and three critical comments by senior scholars dealing with the greatest conflict in modern history to its time - the 1914-18 World War. The Great War is edited by the distinguished historian of the First World War, R.J.Q. Adams.

The Great War, 1914–18

Who were the senior generals who took France through the First World War, and why do we know so little about them? They commanded the largest force on the Western Front through both humiliating defeats and forgotten victories; they won international respect and adoration, but also led their army to infamous mutiny. Nevertheless, the French and their allies, under a French General in Chief, would eventually achieve final victory over Imperial Germany. It is extraordinary that this remarkable group of men has been so neglected in histories on the war. Previous studies are outdated and haven't tapped the wealth of primary source material in France's military archives. It is this gap in the literature and in the understanding of the conflict that this thought-provoking and original volume is designed to address. It takes a collective biographical approach to the leading French soldiers who ran the war on the Western Front.

French Generals of the Great War

"Comparing Grief in French, British and Canadian Great War Fiction (1977- 2014) is a comparative study of selected First World War novels published in France, Britain and Canada in the last forty years"--

Comparing Grief in French, British and Canadian Great War Fiction (1977-2014)

Recent scholarship has challenged the assumption that military commanders during the First World War were inflexible, backward-looking and unwilling to exploit new technologies. Instead a very different

picture is now emerging of armies desperately looking to a wide range of often untested and immature scientific and technological innovations to help break the deadlock of the Western Front. Nowhere is this better illustrated than in the development of tank warfare, which both the British and the French hoped would give them a decisive edge in their offensives of 1917 and 1918. Whilst the British efforts to develop armoured warfare have been well chronicled, there has been no academic study in English on the French tank force - the *Artillerie Spéciale* - during the Great War. As such, this book provides a welcome new perspective on an important but much misunderstood area of the war. Such was the scale of the French tanks' failure in their first engagement in 1917, it was rumoured that the *Artillerie Spéciale* was in danger of being disbanded, yet, by the end of the war it was the world's largest and most technologically advanced tank force. This work examines this important facet of the French army's performance in the First World War, arguing that the AS fought the war in as intelligent and sensible a manner as was possible, given the immature state of the technology available. No amount of sound tank doctrine could compensate for the fragility of the material, for the paucity of battlefield communication equipment and for the lack of tank-infantry training opportunities. Only by 1918 was the French army equipped with enough reliable tanks, as well as aircraft and heavy-artillery, to begin to exercise a mastery of the new form of combined-arms warfare. The successful French armoured effort outlined in this study (including a listing of all the combat engagements of the French tank service in the Great War) highlights a level of military effectiveness within

The French Army's Tank Force and Armoured Warfare in the Great War

Translated from the French by Helen McPhail, this important study examines the politics and social situation of the eight million Frenchmen who served in the Great War.

In the Wake of War

For the Central Powers, 1916 was a year of trial and error, of successes and failures, of innovation and of drastic changes. Tactics developed, while war aims mutated to suit the inertia of trench warfare. Advances were effectively countered with the development of new weaponry, or indeed aided by their inclusion. Across all fronts, whether at home or in Poland, citizens and soldiers alike stood fast against Entente forces. On the Western Front, bitter fighting continued apace. To the east the armies of Austro-Hungary, Germany and Bulgaria battled Entente forces. Meanwhile at sea, the German High Seas Fleet ambushed the Royal Navy off the coast of Denmark. On the Home Front, the poor harvest of 1916, coupled with a lack of transport, led to a winter of stark deprivation. As a consequence, the German government introduced what was effectively a system of rationing entitled, 'sharing scarcity.' While to the south, Ottoman forces fought Allied soldiers for control of Kut and Erzurum, a fortified trading port in eastern Turkey. *Germany in the Great War: Verdun & Somme* is the third publication in a five-part series. In addition to the author's introduction and a chronology of events, five hundred contemporary photographs, many of which have never before been published in this country, are included.

Germany in the Great War

Volume 3 of *The Cambridge History of the First World War* explores the social and cultural history of the war and considers the role of civil society throughout the conflict; that is to say those institutions and practices outside the state through which the war effort was waged. Drawing on 25 years of historical scholarship, it sheds new light on culturally significant issues such as how families and medical authorities adapted to the challenges of war and the shift that occurred in gender roles and behaviour that would subsequently reshape society. Adopting a transnational approach, this volume surveys the war's treatment of populations at risk, including refugees, minorities and internees, to show the full extent of the disaster of war and, with it, the stubborn survival of irrational kindness and the generosity of spirit that persisted amidst the bitterness at the heart of warfare, with all its contradictions and enduring legacies.

The Cambridge History of the First World War: Volume 3, Civil Society

Volume 2 of *The Cambridge History of the First World War* offers a history of the war from a predominantly political angle and concerns itself with the story of the state. It explores the multifaceted history of state power and highlights the ways in which different political systems responded to, and were deformed by, the near-unbearable pressures of war. Every state involved faced issues of military-civilian relations, parliamentary reviews of military policy, and the growth of war economies;

and yet their particular form and significance varied in every national case. Written by a global team of historical experts, this volume sets new standards in the political history of the waging of war in an authoritative new narrative which addresses problems of logistics, morale, innovation in tactics and weapons systems, the use and abuse of science; all of which were ubiquitous during the conflict.

The Cambridge History of the First World War: Volume 2, The State

Sociocultural Anthropology

This is the first multi-volume collection of major writings on cultural anthropology, the sub-field of anthropology which is concerned with how people in different places live and understand the world around them. It covers key methodologies (participant observation, ethnography) and topics (kinship, ritual, values) and maps the development of the field from its beginnings in the mid-nineteenth century through to recent and current debates on the 'critique of anthropology' and the rise of new methodologies such as multi-sited research. The four volumes are arranged thematically and each is separately introduced. Drawing upon essays from anthropology and related disciplines, the volumes together chart the origins of the field, explore its core theories and methods, and trace the proliferation of sub-fields that it has generated, including anthropology of art, urban anthropology, medical anthropology and the anthropology of gender and sexuality. With key texts from James George Frazer, Lewis Henry Morgan, Bronislaw Malinowski, Franz Boas, Ruth Benedict, Margaret Mead, Lucy Mair, Claude Levi Strauss, Melford Spiro, Marshall Sahlins, Laura Nader, Maurice Godelier, David Graeber, Suad Joseph and many more, this set is an essential resource for scholars and students of the subject.

In the Shadow of the Fire

A breathless criminal investigation against the bloody canvas of the French Revolution The Paris Commune's "bloody week" sees the climax of the savagery of the clashes between the Communards and the French Armed Forces loyal to Versailles. Amid the shrapnel and the chaos, while the entire west side of Paris is a field of ruins, a photographer fascinated by the suffering of young women takes "suggestive" photos to sell to a particular clientele. Young women begin disappearing, and when Caroline, a seamstress who volunteers at a first aid station, is counted among the missing, her fiancé Nicolas, a member of the Commune's National Guard, and Communal security officer Antoine, sets off independently in search of her. Their race against the clock to find her takes them through the shell-shocked streets of Paris, and introduces them to a cast of fascinating characters.

La Moschetta

Tomboy Sarah is eighteen years old and trapped in the last year of high school. Required to watch school football games from the sidelines, she only looks at jocks with complete contempt. Despite an extreme hatred for all football players, she can't manage keep away from her team's quarterback. With no boyfriend to hold her back, the suggestion of a night filled with sex is quickly accepted. However, when they get caught having sex in the school's locker room the coach offers her a rather intriguing proposition. If Sarah gets ravished by the coach, will she stick around for a second round?

Locker Room Confession

Situated at the crossroads of east and west between the Mediterranean, Black, and Caspian seas, the richly historic region of Armenia has provided the world with one of its most varied and exciting culinary traditions. Fragrant with the aromas of spices and herbs, Armenian cuisine abounds in succulent kebabs, stuffed vegetables and fruits, opulent pilafs, delectable breads, and irresistible pastries and confections that have been perfected by generations of ingenious cooks over a period of many centuries. The 375 recipes and variations in this book range from time-honored favorites to inspired

innovations and include many highly original specialties from the Caucasus, which were previously unknown in the West. You will find all the classics in this definitive guide - tanabour, dolma, sarma, keufteh, shish kebab, moussaka, boereg, manti, lahmajoon, lavash, pideh, choereg, gatah, baklava, tel kadayif, kurabia, and many more. As a bonus, the book includes a number of Sonia Uvezian's own superb creations, derived from the Armenian tradition, important contributions to a vigorous culinary style. Among these are Pomegranate-Glazed Roast Chicken with Apricot and Chestnut Stuffing; Fried Fish with Oranges, Black Olives, and Mint Leaves; Saffron Rice Pilaf with Toasted Almonds and Sesame Seeds; and Yogurt Cream (a delectable low-calorie alternative to sweetened whipped cream). The book also includes valuable historical information, a selection of perfectly harmonized menus, and an excellent glossary. Long recognized as the standard in its field, *The Cuisine of Armenia* has received outstanding reviews from major publications both in this country and abroad and has been a selection of four different book clubs. Written by one of America's most gifted cookbook authors, it is a "must have" volume, whether you already own one or dozens of books on Armenian, Middle Eastern, or eastern Mediterranean cooking. Sonia Uvezian was born and brought up in Beirut, Lebanon. A leading authority on Middle Eastern and Caucasian cooking and the winner of a James Beard Award, she is the author of six other highly acclaimed cookbooks, including *Recipes and Remembrances from an Eastern Mediterranean Kitchen*, *Cooking from the Caucasus*, and *the Book of Yogurt*. Several of her books have been selections of Book-of-the-Month Club and published internationally. Ms. Uvezian has also contributed articles and recipes to *Gourmet*, *Bon Appetit*, *Vogue*, and numerous other publications."

The Cuisine of Armenia

This volume focuses on the study of linguistic manipulation, persuasion and power in the written texts of professional communication, bringing forth studies on the language of various specialised fields such as law and arbitration, engineering, economics, advertising, business, politics, medicine, social work, education and the media.

Power, Persuasion and Manipulation in Specialised Genres

There is a swim across the Mojave, a harrowing error on a solo trip down a wild river, and a birthday party with wild sheep."--BOOK JACKET.

The Anthropology of Turquoise

An incendiary new novel based on the myth of Medusa from noted author Martine Desjardins She's been called Medusa for so long that she's forgotten her real name. She walks with her head down, her face hidden behind her hair to spare others the sight of her Deformities - eyes so horrible they repel women and petrify men. She herself never dares to look in a mirror. Driven from her family home, Medusa is locked up in the Athenæum, an institute for young "malformed" girls, which stands on the shores of a lake infested with jellyfish. In this dismal abyss, where Benefactors indulge in cruel games with their protégées, she gradually discovers the prodigious and formidable faculties of her ocular Sickenings. The day when Medusa finally emerges from her confinement, she sows destruction in her path. But before she can take revenge on the Benefactors who humiliated her, she'll first have to face the treacherous gaze of her nemesis - and the deadly gaze of her own Abominations. Martine Desjardins's chilling and poetic Medusa is a provocative story of women's body shame and men's body shaming, phallocratic oppression, and the power of femininity - an inversion of the traditional balance of power that throws a light on so-called monstrosity.

Medusa

Pinocchio, a puppet with a talent for getting into trouble, wants to become a real boy, but he must earn that by learning to be good.

Pinocchio's Adventures in Wonderland

Florence, October 1966. The rain is never-ending. When a young boy vanishes on his way home from school the police fear the worst, and Inspector Bordelli begins an increasingly desperate investigation. Then the flood hits. During the night of 4th November the swollen River Arno, already lapping the arches of the Ponte Vecchio, breaks its banks and overwhelms the city. Streets become rushing torrents, the force of the water sweeping away cars and trees, doors, shutters and anything else in its wake. In the

aftermath of this unimaginable tragedy the mystery of the child's disappearance seems destined to go unsolved. But obstinate as ever, Bordelli is not prepared to give up.

Death in Florence

"It's nearly 50 years ago that my book of conceptual instructions Grapefruit was first published. In these pages I'm picking up where I left off. After each day of sharing the instructions you should feel free to question, discuss, and/or report what your mind tells you. I'm just planting the seeds. Have fun." - Yoko Ono
Legendary avant-garde icon Yoko Ono has inspired generations of artists and performers. In *Acorn*, she offers enchanting and thought-provoking exercises that open our eyes-and all of our senses - to more creative and mindful ways of relating to ourselves, each other, and the planet we cohabit. Throughout this beautifully designed book are 100 black-and-white line drawings by Yoko. Like this legendary woman herself, the book is wildly original, stimulating, and hard to label: call it purposeful play, call it brain poetry, call it guided motivation, call it Zen-like incantations, call it whatever you want. But read it. *Acorn* may change the way you experience the world.

Acorn

A blind child questions all he encounters--a dog, wolf, elephant, mountain, bird, stream, and tree--about the color of the wind. Each responds differently, with a shape, color, smell, texture, or idea. Each page displays a visual and tactile palette of cutouts, textures, colors. It is a sensory experience that makes the invisible experiential, ending with the wind as the pages fly. A graduate of the Academy of Fine Arts in Brussels, Anne Herbauts expresses an original world in each of her books. Awake to the richness of the world, endlessly curious, and rigorous in her work, Anne has written and illustrated over twenty books.

La traduzione

Spartacus is a little spider with big web-building problems, but when he devises a way to spin a mighty net, what may be the cost of his triumph?

What Color Is the Wind?

The timeless Christmas story comes alive for even the youngest child without a word of text! Charming illustrations "tell" the story of Jesus' birth.

Spartacus the Spider

An Italian magician exposed as a charlatan flees to Argentina where he marries a woman eager to help him experiment in telepathy. Unfortunately marriage chores and a pregnancy get in the way.

My Christmas Picture Book

Soon after moving to the secluded Norfolk village of Munding, Alex Darken has a disturbing encounter with the ageing poet Edward Nesbit and his young lover Laura. They are obsessively researching the lives of Sir Henry Agnew and his daughter Louisa who lived in Munding in the nineteenth century and were deeply engaged in alchemical practices. By recovering the lost secret of the hermetic mysteries, Edward and Laura hope to find an alternative to the destructive materialism of the post-industrial world. Once drawn into their fervent quest for knowledge, Alex finds himself entangled in a passionate and intense intrigue that reaches across two centuries. A beautifully written, ambitious and captivating novel, which takes a profound look at issues of nature, human existence and forgotten knowledge, *The Chymical Wedding*, which won the 1989 Whitbread Prize for Best Novel, is already considered a classic for its stylistic prowess and philosophical resonances.

The Event

PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself

and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream-fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

Chymical Wedding

Uno de los pilares sobre los que se sostiene la visión del mundo hegemónica en la actualidad es el de la importancia fundamental atribuida a los individuos, entendidos como seres libres y soberanos, y, en consecuencia, responsables. Sin embargo, no está claro que semejante defensa de la libre responsabilidad sea la actitud realmente más extendida en nuestra sociedad, en la que lo que parece generalizado en creciente medida es la sistemática búsqueda de argumentos exculpatorios que minimicen la aceptación de responsabilidad por parte de los individuos (el ambiente familiar, el contexto económico, la inestabilidad emocional...). Desde el punto de vista teórico, estaríamos ante una paradoja. De tanto exculpar al individuo a base de responsabilizar a las estructuras, hemos terminado por convertirle en el eslabón más débil de la cadena. La misma modernidad que en un principio pretendía hacer descansar el sentido del mundo sobre el ser humano, convirtiéndolo en la nueva clave para justificar lo real, al final ha terminado por considerarlo un elemento incapaz de sostener nada ni hacerse cargo de acción alguna a poco que ésta tenga consecuencias negativas.

Dante Vivo

Drawing on the Marxist, French structuralist and American pragmatist traditions, this is a lively and accessible introduction to the sociology of knowledge.

Hacerse cargo

A bunch of friendly vegetables wear colorful underwear of all varieties—big, small, clean, dirty, serious, and funny—demonstrating for young ones the silliness and necessity of this item of clothing. The unexpectedness of vegetables in their unmentionables is enough to draw giggles, but the pride with which the “big kid” attire is flaunted in front of the baby carrots in diapers will tickle readers of all ages. With rhyming text that begs to be chanted aloud and art that looks good enough to eat, this vibrant story will encourage preschoolers to celebrate having left those diapers behind!

Knowledge as Culture

Over one hundred of the world's most important species of nuts are systematically accounted in this informative handbook. The text defines nuts and discusses their economic and nutritional value. For

easy reference; there is an illustrated account of each nut by species, arranged alphabetically by scientific name. Each account includes the family name, several colloquial names, and paragraphs on uses, folk medicine, chemistry, germplasm, distribution, ecology, cultivation, harvesting, yields, energy, and biotic factors. Chapters Describe: Uses Folk medicine Chemistry Germplasm Distribution Ecology Cultivation Harvesting Yields and economics Energy Biotic factors

Vegetables in Underwear

Ernest and Celestine go to the circus where Ernest was once a clown and take part in the show."

CRC Handbook of Nuts

This is a collection of Terry Eagleton's best criticisms and book reviews. His skill in this field is notable: never content merely to assess the ideas of a writer, Eagleton, in his inimitable style, always paints a vivid theoretical fresco as the background to his engagement with the texts.

Ernest and Celestine at the Circus

Cazacu's Dracula offers the most authoritative scholarly biography of Vlad III the Impaler (d. 1476), including how his imagery evolved from contemporary to modern times.

Figures of Dissent

Since Plato, philosophers have dreamed of establishing a rational state ruled through the power of language. In this radical and disturbing account of Soviet philosophy, Boris Groys argues that communism shares that dream and is best understood as an attempt to replace financial with linguistic bonds as the cement uniting society. The transformative power of language, the medium of equality, is the key to any new communist revolution.

The semantics of Color Sharing The Laboratory with Color Vision

Helen Shaw is the daughter of white middle-class parents in a gold-mining town in South Africa. As Helen comes of age, her awareness of the African life around her grows. Her involvement with young blacks leads her into complex relationships of emotion and action in a culture of dissension.

Dracula

A paperback original, Bloom's stand-alone introduction to The Best Poems of the English Language. A notable feature of Harold Bloom's poetry anthology The Best Poems English Language is his lengthy introductory essay, here reprinted as a separate book. For the first time Bloom gives his readers an elegant guide to reading poetry—a master critic's distillation of a lifetime of teaching and criticism. He tackles such subjects as poetic voice, the nature of metaphor and allusion, and the nature of poetic value itself. Bloom writes "the work of great poetry is to aid us to become free artists of ourselves." This essay is an invaluable guide to poetry. This edition will also include a recommended reading list of poems.

The Communist Postscript

Corporate Finance: The Basics is a concise introduction to the inner workings of finance at the company level. It aims to take the fear out of corporate finance and add the fun in, presenting the subject in a way that is simple to grasp and easy to digest. Its aim is to explain – and demystify – the essential ideas of corporate finance, avoiding the heavy use of maths and formulae. The calculations and figures in the book are purely to illustrate fundamental concepts, appealing to readers' common sense, rather than stretch their ability to do "number-crunching". Topics covered include: Financial statements through the corporate finance lens How to make investment decisions Cash versus profit Net working capital management How to determine the value of a business Through the use of a subject map, this book explains how the key components of the subject are connected with each other, strengthening the reader's understanding. This book is the ideal introduction for anyone looking for a short yet scholarly overview of corporate finance.

The Lying Days

A History of Siena provides a concise and up-to-date biography of the city, from its ancient and medieval development up to the present day, and makes Siena's history, culture, and traditions accessible to anyone studying or visiting the city. Well informed by archival research and recent scholarship on medieval Siena and the Italian city-states, this book places Siena's development in its larger context, both temporally and geographically. In the process, this book offers new interpretations of Siena's artistic, political, and economic development, highlighting in particular the role of pilgrimage, banking, and class conflict. The second half of the book provides an important analysis of the historical development of Siena's nobility, its unique system of neighborhood associations (*contrade*) and the race of the Palio, as well as an overview of the rise and fall of Siena's troubled bank, the Monte dei Paschi. This book is accessible to undergraduates and tourists, while also offering plenty of new insights for graduate students and scholars of all periods of Siennese history.

The Art of Reading Poetry

A cat sleeps, curled up in a warm place, and while it sleeps it dreams. . . of being a tiger, flame cat of the forest; a cheetah - fast as the wind on the African plains; a lion, lounging through the heat of the day, tangled in sunshine on the African savannah; a jaguar, perfectly camouflaged deep in the jungle. And the cat dreams of being a lynx, a puma, a snow leopard, a Scottish wild cat, an Asian fishing cat, and the rare Amur leopard. Finally Cat wakes, a domestic cat again, telling his dreams to the child who is stroking him. Ten wild habitats, ten wild cats and one domestic cat are dramatically and beautifully illustrated in this unique celebration of the cat.

Corporate Finance: The Basics

An "absorbing" look at how our species evolved, from the curator of human evolution at the American Museum of Natural History (Kirkus Reviews). What makes us so different from those other animals? How did we get this way? How do we know? And what exactly are we? These questions are what make human evolution a subject of general fascination. Ian Tattersall, one of those rare scientists who is also a graceful writer, addresses them in this delightful book. Tattersall leads the reader around the world and into the far reaches of the past, showing what the science of human evolution is up against—from the sparsity of evidence to the pressures of religious fundamentalism. Looking with dispassion and humor at our origins, Tattersall offers a wholly new definition of what it is to be human. "Unparalleled insight." —Donald C. Johanson, author of *Lucy: The Beginnings of Humankind*

A History of Siena

Five years after his death, Stieg Larsson is best known as the author of the Millennium Trilogy, but during his career as a journalist he was a crucial protagonist in the battle against racism and for democracy in Sweden, and one of the founders of the anti-facist magazine *Expo*. Kurdo Baksi first met Larsson in 1992; it was the beginning of an intense friendship, and a fruitful but challenging working relationship. In this candid and rounded memoir, Baksi answers the questions a multitude of Larsson's fans have already asked, about his upbringing; the recurring death threats; his insomnia and his vices; his feminism - so evident in his books - and his dogmatism. What was he like as a colleague? Who provided the inspiration for his now-immortal characters (Baksi is one of the few who appears in the trilogy as himself)? Who was Lisbeth Salander?

I am Cat

Poetry. Translated from the French by Lee Fahnestock. First published in 1942 and considered the keystone of Francis Ponge's work, *Le parti pris de choses* appears here in its entirety. It reveals his preoccupation with nature and its metaphoric transformation through the creative ambiguity of language. "My immediate reaction to Lee Fahnestock's translation was: this must certainly be 'Ponge's voice in English'...[She] gives us his tones, rhythms, humor...[and] maneuvers his word play with respect and unostentatious discretion"--Barbara Wright, translator of Queneau, Pinget, Sarraute.

The Monkey in the Mirror

One of the world's most renowned classicists here offers a fascinating look at myths of origins and their role in ancient Greek civic ideology. Through a series of critical interpretations of Athenian myths, Nicole Loraux explores the meaning of democracy in its first form, which excluded from its benefits women, slaves, and foreigners. Arguing that these stories have much to tell us about the present and

the human condition, her book makes important claims about the role of the past in our understanding of the present. Loraux begins by discussing the Greek fascination with being born from the earth. Myths of autochthony, she asserts, shed important light on attitudes toward both foreigners and women in democratic states. She considers the role demarcated for women by the Pandora myth, according to which women are artificially created out of earth and therefore belong to a race apart. Her analysis also extends to contemporary issues, concluding with the place of the foreigner in democratic societies, ancient and modern. Originally published in France in 1996, *Born of the Earth* has been superbly translated into English by Selina Stewart.

Stieg Larsson, My Friend

Devon "Shadow" Kane chose a life of anonymity the moment he entered the clandestine world of the CIA. His training made him a killer, a skill he has no qualms using. Elle Sinclair, the younger sister of his childhood friend, is far from the girl next door. She'll be the next big star. She's also the one he can't have. The blinding lights of flash bulbs in her celebrity world contradict the stealth and invisibility required in his. Then she's gone. Disappeared, without a word or a trace. A desperate plea for help from her brother tests Shadow's undercover skills. The stakes are high, and Shadow will risk everything for her. The only two constants in the equation are the threat of blowing his cover and the probability he won't reach her in time. With peril at every turn, can Shadow and Elle both survive? Or will the wicked shadows surrounding them ultimately cause their demise?
