First Follower: Leadership Lessons from Dancing Guy - First Follower: Leadership Lessons from Dancing Guy by Derek Sivers 7,983,267 views 14 years ago 2 minutes, 58 seconds - A **leader**, needs the guts to stand alone and look ridiculous. But what he's doing is so simple, it's almost instructional. This is key.

You must be easy to follow!

Be easy to follow!

It was the first follower that transformed a lone nut into a leader.
The 2nd follower is a turning point: it's proof the first has done well.
Make sure outsiders see more than just the leader.
Everyone needs to see the followers, because new followers emulate followers - not the leader.
Let's recap what we learned
There is no movement without the first follower.
The best way to make a movement, if you really care, is to courageously follow and show others how to follow.
When you find a lone nut doing something great, have the guts to be the first person to stand up and join in.

In the Last Five Years Which Has Created Enormous Wealth and Power in Technology Companies and Yet We See that Enormous Wealth and Power Is Being Reflected upon Them by the People That They Serve and So When You Look Out in the Future Now They're Deeply Worried People Are Deeply Worried about that Potential and Success of those Companies Not because They Didn't Make Lots of Profits Not because They Haven't Got Lots of Data but because People Might Turn against Them and and and When We Say the Shareholder System Is Broken It Might Be Broken in Terms of Financial Results or Numbers or Things like Things like that but We Actually Live in a Shareholder World I Do It Differently if I Could Start from Scratch Today and that Question Now Is Even More Relevant because Technology Is Permitting People To Create New Entities without Much Capital without Big Overheads I Mean My Robotics World I Can Create with a Fraction of the Capital of Big Organizations and Beat Them So this Is a Really Tough Question for Government To Ask Itself if I Weren't Already Doing It in this Parentheses Not Very Sensible Way How Would I Do It because Then once You Realize that Means You Have To Change and People Don't Like Change Great Thank You for that
