TV scientist Ben Garrod presents the biggest extinction events ever, told from the point of view of evolution's superstars, the most incredible animals ever to swim, stalk, slither or walk our planet. Whether you're 9 or 90, his unique exploration of the most destructive, yet most creative, force in nature makes top level science fun. Here are the superstars of the story of life, from the super-weird to the super-ferocious. Usually a species has 10 million years or so of evolving, eating, chasing, playing, maybe doing homework, or even going to the moon before it goes extinct. Dunkleosteus was super-snappy. With a bite 10 times stronger than a great white shark, it could snap its jaws 5 times faster than you can blink! Discover its habitat, what it ate and what it was like to live in the shadow of this one-tonne predator until it went extinct at the end of the Age of Fishes. 'This book is amazing and the illustrations are spectacular! I want to read the rest of the books in this series!' Toppsta Collect all eight books about animals we have lost in mass extinctions caused by asteroids or mega-volcanoes, clashing continents and climate change. Tip the Mouse Doesn't Want to Eat

God Has A Dream is an extremely personal and liberating message of hope and light in dark times. In it, the Archbishop shows how important it is that, even as we face the harsh realities of our individual lives and global conditions, we remember the importance of hope and dreams - for it is on hope and dreams that a better future will be built, and that God's dream for us will be fulfilled. And Tutu also demonstrates how to bring these dreams to fruition in very practical terms, for example in learning how to love, ridding ourselves of our prejudices, opposing injustice, promoting the qualities of forgiveness, humility and generosity in ourselves, taking time to be still and quiet and in being patient. Meant not only for a Christian audience but also for those of all faiths - and none - who are drawn to a life of more inspiration and integrity, God Has A Dream is highly readable and very relevant to the times we live in. Instead of being a political document (as was his previous book No Future Without Forgiveness) this is a major work of contemporary spirituality from a Church leader known for his charisma, robust approach and humour.
