[#Feynman physics lectures](#) [#classical mechanics](#) [#physics course volume 1](#) [#Richard Feynman](#) [#introductory mechanics](#)

Explore the foundational principles of classical mechanics with the first volume of Feynman's iconic Physics Lectures. This essential course, delivered by Nobel laureate Richard Feynman, offers a unique and insightful approach to understanding the basic laws governing motion, forces, and energy, making it a cornerstone for students and enthusiasts of physics.

Easy Classical Trumpet and Piano Duets

"I recommend this book wholeheartedly to new music lovers" Sir Charles Groves CBE Thanks to Nigel Kennedy and Pavarotti, millions of people have recently discovered that classical music is a highly enjoyable experience, perhaps contrary to their expectations. But the world of classical music can be highly intimidating and confusing. Ian Christians, for many years a passionate believer in broadening the interest in classical music, has developed a unique approach, designed to make it as easy as possible for both newcomers to classical music and those who have started down the path to explore with confidence. Discovering Classical Music concentrates on the greatest composers. The author takes you step-by-step into their most approachable music and, in some cases, boldly into some of the greatest works traditionally considered too difficult for newcomers. Rarely does a book offer such potential for continued enjoyment. This volume concentrates on the life, personality and music of Ludwig van Beethoven.

Easy Classical Violin and Viola Duets

Jean Sibelius has gradually emerged as one of the most striking and influential figures in twentieth-century music, yet his work is only just beginning to receive the critical attention that its importance deserves. This Companion provides an accessible and vivid account of Sibelius's work in its historical and cultural context. Leading international scholars, from Finland, the United States and the UK, examine Sibelius's music from a range of critical perspectives, including nationalism, eroticism and the exotic, music and landscape, reception and musical influence. There are also chapters on recording and interpretation that offer fascinating insights into the performance of Sibelius's work. The book includes much material, drawing on scholarship, as well as providing a comprehensive introduction to Sibelius's major musical achievements.

Easy Classical Guitar and Cello Duets

Testimonials Hi there - I'm just emailing you to tell you how much I love your Oboe duet books, especially the vast range of Christmas music! I have all of them! I'm an oboe and double bass teacher (I know!) based in Dublin, and I am very much a Christmas enthusiast. I'm known among my students for wearing Christmas socks 365 days a year (they've checked!!) I've taken on some double bass students this year, and I'll be buying your double bass Xmas duets to play with them. Given the brilliance of the oboe books, I'm really looking forward to it. Many thanks and keep up the good work! Eimear

Hello - I love the arrangements We just played some today! Have a lovely Christmas and thanks for providing beginner bassoonists with some great music!! Pauline

American String Teacher

This new compact guide to the history and performance of music is both authoritative and a pleasure to use. With entries drawn and condensed from the widely acclaimed The New Harvard Dictionary of Music and its companion The Harvard Biographical Dictionary of Music, it is a dependable reference for home and classroom and for professional and amateur musicians. This concise dictionary offers definitions of musical terms; succinct characterizations of the various forms of musical composition; entries that identify individual operas, oratorios, symphonic poems, and other works; illustrated descriptions of instruments; and capsule summaries of the lives and careers of composers, performers, and theorists. Like its distinguished parent volumes, The Harvard Concise Dictionary of Music and Musicians provides information on all periods in music history, with particularly comprehensive coverage of the twentieth century. Clearly written and based on vast expertise, The Harvard Concise Dictionary of Music and Musicians is an invaluable handbook for everyone who cares about music.
