B2 English Story The Toxic Office

Martina had worked for the same company for the last four years. She started working there when it was a team of five people and it had since progressed into a team of over fifty. Things were

growing and changing fast and with it, new management started. They created a toxic, hostile work environment.

The company were not meeting their insane targets and the pressure was starting to mount. Martina didn't take kindly to being shouted at like she was a naughty child. She was an adult and wanted respect from her peers.

Have you ever been in a similar situation to Martina? If so, how did you cope with a toxic work environment?
