Hans Zimmer and James Newton Howard's The Dark Knight

Christopher Nolan's caped crusader trilogy—Batman Begins, The Dark Knight, and The Dark Knight Rises—is considered by many to be one of the finest translations of comic book characters to the big screen. The second film in the series, The Dark Knight, was both a critical and commercial success, featuring an Oscar-winning performance by Heath Ledger as the Joker. The score—by Academy Award winner Hans Zimmer and eight-time Oscar nominee James Newton Howard—also received accolades, including a Grammy. Intricately interwoven with the sound design—and incorporating Mel Wesson's ground-breaking ambient music design, —Zimmer's and Howard's music gives the film an added layer of ominous tones that makes palpable the menace facing Gotham City. In Hans Zimmer and James Newton Howard's The Dark Knight: A Film Score Guide, Vasco Hexel delves into the composers' backgrounds to reveal the many facets of meaning in the highs and lows of the score. This book also highlights the working methods of Zimmer and Howard and how they collaborated with each other and the filmmaking team to create such a memorable soundtrack. By drawing on unprecedented access to some of the key creators of the film, the author provides unique insights into the score's composition. Hans Zimmer and James Newton Howard's The Dark Knight: A Film Score Guide will be of interest to cinema and music scholars, as well as fans of both composers.

River Flows in You and Other Eloquent Songs for Solo Piano

A rare, intimate portrait of Hollywood's reigning 'blockbuster auteur' whose deeply personal billion-dollar movies have established him as the most successful director to come out of the British Isles since Alfred Hitchcock. 'A masterclass . . . brilliant. Immersive, detailed, meticulous, privileged inside-dope.' - Craig Raine More than just the tinkering of a glass watchmaker, Christopher Nolan's films have an unerring grasp of the way time makes us feel. Time steals people away in his films, and he takes careful note of the theft. Time is Nolan's great antagonist, his lifelong nemesis. He seems almost to take it personally. Written with the full cooperation of Nolan himself, who granted Tom Shone access to never-before-seen photographs, storyboards and sketches, the book is a deep-dive into the director's films, influences, methods and obsessions. Here for the first time is Nolan on his dislocated, transatlantic childhood, how

he dreamed up the plot of Inception lying awake one night in his dorm at school, his colour-blindness and its effect on Memento, his obsession with puzzles and optical illusions - and much, much more. Written by one of our most penetrating critics, The Nolan Variations is a landmark study of one of the twenty-first century's most dazzling cinematic artists. 'Christopher Nolan is a wonderfully unlikely contemporary filmmaker. We're fortunate indeed to have him, and fortunate now to have this book.' - William Gibson

The Nolan Variations

Film Themes: The Piano Collection

Henry Mancini, the first publicly successful and personally recognizable film composer in history, has practically become a Hollywood brand name. In his lifetime, he sold thirty million albums and won four Oscars and twenty Grammy awards. Through Mancini, mere background music in movies became part of pop culture--an expression of sophistication and wit with a modern sense of cool and a lasting lyricism that has not dated. The first comprehensive study of Mancini's music, Henry Mancini: Reinventing Film Music describes how the composer served as a bridge between the Big Band period of World War II and the impatient eclecticism of the Baby Boomer generation, between the grand formal orchestral film scores of the past and a modern American minimalist approach. Mancini's sound seemed to capture the bright, confident, welcoming voice of the middle class's new efficient life: interested in pop songs and jazz, in movies and television, in outreach politics but also conventional stay-at-home comforts. As John Caps shows, Mancini easily combined it all in his music. Mancini wrote his first dramatic music for a radio series in 1950. By the mid-1960s, he wielded influence in Hollywood and around the world with his iconic scores: dynamic jazz for the noirish detective TV show Peter Gunn, the sly theme from The Pink Panther, and his wistful folk song "Moon River" from Breakfast at Tiffany's. Following the evolution of Mancini's style, Caps traces the history of movie scoring in general: from the jazz-pop of the 1960s to the edgier, electro-funk harmonies of the Watergate 1970s, from the revisionist 1980s marked by New Age trends and new jazz chords to the frustrating New Hollywood of the 1990s when films were made by committees of lawyers rather than by artisans. Through insightful close readings of key films, Caps traces Mancini's collaborations with important directors and shows how he homed in on specific dramatic or comic aspects of each film to create musical effects through clever instrumentation, eloquent melodies, and the strong narrative qualities of his scores. Accessible and engaging, this fresh view of Mancini's oeuvre and influence will delight and inform fans of film and popular music.

'Til It Happens to You (from The Hunting Ground)

As both a distinct genre and a particular mode of filmmaking, the idea of the epic has been central to the history of cinema. Including contributions from both established and emerging film music scholars, the ten essays in Music in Epic Film: Listening to Spectacle provide a cross-section of contemporary scholarship on the subject. They explore diverse topics, including the function of music in epic narratives, the socio-political implications of cinematic music, and the use of pre-existing music in epic films. Intended for students and scholars in film music, film appreciation, and media studies, the wide range of topics and the diversity of the films that the authors discuss make Music in Epic Film: Listening to Spectacle an ideal introduction to the field of music in epic film.

Pirates of the Caribbean

Film Music: A History explains the development of film music by considering large-scale aesthetic trends and structural developments alongside socioeconomic, technological, cultural, and philosophical circumstances. The book's four large parts are given over to Music and the "Silent" Film (1894--1927), Music and the Early Sound Film (1895--1933), Music in the "Classical-Style" Hollywood Film (1933--1960), and Film Music in the Post-Classic Period (1958--2008). Whereas most treatments of the subject are simply chronicles of "great film scores" and their composers, this book offers a genuine history of film music in terms of societal changes and technological and economic developments within the film industry. Instead of celebrating film-music masterpieces, it deals—logically and thoroughly—with the complex 'machine' whose smooth running allowed those occasional masterpieces to happen and whose periodic adjustments prompted the large-scale twists and turns in film music's path.

Miss Saigon (2017 Broadway Edition) Songbook

From the acclaimed writer and critic Geoff Dyer, an extremely funny scene-by-scene analysis of Where Eagles Dare - published as the film reaches its 50th anniversary A thrilling Alpine adventure starring a magnificent, bleary-eyed Richard Burton and a coolly anachronistic Clint Eastwood, Where Eagles Dare is the apex of 1960s war movies, by turns enjoyable and preposterous. 'Broadsword Calling Danny Boy' is Geoff Dyer's tribute to the film he has loved since childhood: an analysis taking us from its snowy, Teutonic opening credits to its vertigo-inducing climax. For those who have not even seen Where Eagles Dare, this book is a comic tour-de-force of criticism. But for the film's legions of fans, whose hearts will always belong to Ron Goodwin's theme tune, it will be the fulfilment of a dream. 'Geoff Dyer's funniest book yet. Who else would work in Martha Gellhorn on the first page of a book on the film Where Eagles Dare?' Michael Ondaatje 'One of our greatest living critics, not of the arts but of life itself, and one of our most original writers' Kathryn Schulz, New York Magazine

Gollum's Song (from the Lord of the Rings)

This book provides a comprehensive and lively introduction to the major trends in film scoring from the silent era to the present day, focussing not only on dominant Hollywood practices but also offering an international perspective by including case studies of the national cinemas of the UK, France, India, Italy, Japan and the early Soviet Union. The book balances wide-ranging overviews of film genres, modes of production and critical reception with detailed non-technical descriptions of the interaction between image track and soundtrack in representative individual films. In addition to the central focus on narrative cinema, separate sections are also devoted to music in documentary and animated films, film musicals and the uses of popular and classical music in the cinema. The author analyses the varying technological and aesthetic issues that have shaped the history of film music, and concludes with an account of the modern film composer's working practices.

'Broadsword Calling Danny Boy'

Saying It With Songs is a groundbreaking study of the ways in which Hollywood's conversion to synchronized-sound filmmaking in the late 1920s gave rise not only to enduring partnerships between the film and popular music industries, but also to a rich and exciting period of song use in American cinema.

Max Landis, acclaimed screenwriter of the hit film CHRONICLE, presents seven stories from the life of the man who will be the Man of Steel, seven pivotal moments that turned a sometimes good, sometimes angry, sometimes funny, always human, all-American alien into the world's first superhero. THIS IS NOT A SUPERMAN COMIC. This is the story of Clark Kent, a Kansas farm boy who happens to be from another planet. It's the story of a scared young kid with impossible powers, of a teenage delinquent with a lot to learn, of a reporter with a nose for the truth who's keeping the biggest secret the world has ever known. This is not the Superman you know. Not yet. Illustrated by some of the greatest artists in comics today-including Jock (BATMAN: THE BLACK MIRROR), Francis Manapul (DETECTIVE COMICS), Jae Lee (BATMAN/SUPERMAN), Joëlle Jones (LADY KILLER), Nick Dragotta (EAST OF WEST) and more with covers by Ryan Sook (ACTION COMICS)-SUPERMAN: AMERICAN ALIEN tells the very human story of the Last Son of Krypton.
