Adventures in American Literature

American Literature gives students a broad perspective on the rich literary heritage of the United States with its wide-range collection of multicultural, traditional, and nontraditional literary works. A colorful and engaging text, American Literature engages struggling learners with ELL/ESL activities, graphic

organizers, and Before Reading and After Reading features. Altogether, they help boost learning success. This newly revised textbook captures more than 400 years of America's literary history, and also includes some of the country's most contemporary authors. New selections have been added, including an excerpt from Chief Joseph's speech "I Will Fight No More Forever" and two poems--"The Great Figure" and "This is Just to Say"--by William Carlos Williams. Lexile Level 820* Reading Level 3-4 Interest Level 8-12 *Lexile level of instructional content is 820; Lexile levels of individual text selections range from 430 to 1550.

Adventures in American Literature

High school and college teachers interested in offering units or courses on Native American literature have often had to carve out new teaching strategies because ready resources and guides are scarce. In *Reading Native American Literature: A Teacher's Guide*, Bruce A. Goebel offers innovative and practical suggestions about how to introduce students to a range of Native American works. Grounded in the idea that studying tribal cultures will enable students to gain deeper insights into Native literatures, each chapter helps teachers recognize what students need to know and then provides them with supporting materials and activities that will lead them to more informed interpretations of the literature. After considering ways in which a study of Native American literature addresses gaps in standard American history textbooks, Goebel discusses the complexity that lies in the language of race. In the following chapters, he offers in-depth study of specific texts, including early Native American poetry, James Welch's *Fools Crow*, Leslie Marmon Silko's *Ceremony*, and Sherman Alexie's *The Business of Fancydancing*. Reproducible copies of traditional, tribally specific poems and stories are linked to the larger texts being studied. In addition to a brief annotated bibliography of resources for teaching Native American literature, the chapters also contain histories, a glossary, and teaching activities.

Literature and Language

American Literature (Excellence in Literature, English 3) cultivates competent readers and writers in a self-directed, classics-focused, one year, college-prep literature and composition course for co-op, classroom, or homeschool use. The award-winning Excellence in Literature curriculum, suitable for grades 8-12, presents a feast of great ideas by immersing students in great literature. Classics that have stood the test of time-rollicking adventures, compelling plays, engaging poetry-encourage students to enjoy literature study, rather than just endure it. Students will study and write about the following books: *Autobiography* by Benjamin Franklin *Rip Van Winkle* and *The Legend of Sleepy Hollow* by Washington Irving and selected works by Longfellow *The Last of the Mohicans* by James Fenimore Cooper *The House of Seven Gables* by Nathaniel Hawthorne *Moby Dick* by Herman Melville *The Adventures of Huckleberry Finn* by Mark Twain *The House of Mirth* by Edith Wharton *The Great Gatsby* by F. Scott Fitzgerald *The Old Man and the Sea* by Ernest Hemingway How it works A four-week lesson plan guides the study of each unabridged classic, providing writing assignments and context resources - information on the author, relevant historical events, related art and music resources, etc.. To help students stay engaged, a variety of sources, voices, and formats have been carefully chosen as context resources, with links provided to those that are online. There are 9 4-week modules in each study guide for one school year of study. An optional Honors track adds additional reading and writing, including a research paper and an optional CLEP exam. The text is written directly to the student, and can be used independently or in a classroom. There is no separate teacher manual; all writing assignments, context resource links, and student/teacher helps are included in the Introduction to Literature study guide. Student helps - Week-by-week assignment schedule - Instructions and a student-written model for each type of paper assigned - A chapter on how to read and understand challenging literature - Overview of how to write an essay, from conception to revision - A curriculum website with supporting resources, including author biographies, art, music, related poetry, and writing helps. - Built-in time for both a rough and a final draft of each month's essay - Instructions for setting up a study area, English notebook, and study habits - A model essay that teaches and demonstrates MLA formatting - Glossary of literary terms Teacher helps - Week-by-week pacing chart with overview of reading and writing for the entire school year - Grading instructions and reproducible rubric - Suggestions for using in a co-op or classroom - A year-end Student Evaluation Summary to keep with student records Each student and teacher will need a copy of the study guide, plus a copy of each classic that is studied (short stories are linked online). There are specific book editions recommended, but students who already own a different edition may use that. It is also helpful to have access to a dictionary, thesaurus, and the *Handbook for Writers* (from Excellence in Literature).

Adventures in American Literature

How does one keep classic books alive for young people today and teach them that literature is instructional and delightful? How does the teacher foster a classroom environment that encourages student participation and promotes enjoyment so that teenagers learn to appreciate literary study? More specifically, how can teachers cover centuries of American literature with students who don't appreciate why they should read material written centuries ago about people and issues that appear to be irrelevant to life today in a language that seems esoteric? The author of this series of high school teaching guides addresses these issues. *How to Teach American Literature: A Practical Teaching Guide* provides a detailed resource for teachers or anyone interested in an in-depth study of the subject. This second book in the series covers American literature from the Puritan era to contemporary works. Included are suggestions for cultivating a love for literature, teaching techniques, detailed analyses of each work, questions for review and test questions with suggested responses, essay topics, audiovisual aids, classroom handouts, and recommended books that enhance teaching. The author emphasizes two basic reasons for teaching literature: it is instructional and delightful. This book provides a comprehensive methodology for teaching the subject that a teacher could apply to one year's lesson plans without further investment in time. Elizabeth McCallum Marlow has developed quality comprehensive guides for the teaching community based on her thirty-five years of experience and her passion for literature. Teaching professionals will find her tried and true practices to be invaluable. --Johnathan Arnold, MBA, M.Ed, D.Ed.Min Headmaster Covenant Christian Academy, Cumming, GA

Adventures for Readers

The absence of one of American writings' oldest traditions in the canon has produced a body of literature not only alienating to a large part of the population, but one which has impoverished itself of a broader representation of humanity. This book is written by teachers interested in bringing that traditional African American literature into the classroom. Documented here is the learning process that these educators experienced themselves as they read and discussed the stories and pedagogical strategies which would engage their students. In following these discussions between teachers and academics, one should be able to see how the teaching and learning of African American literature can be an exciting and challenging way of confronting and questioning pervasive cultural assumptions about race and gender. In this way, all students can bring their personal experiences and insights into the classroom. Given today's social landscape, conventional frameworks for teaching literature must be seriously revised to accommodate and address a growing multicultural population.

The Teachers & Writers Guide to Classic American Literature

American publishing in the long nineteenth century was flooded with readers, primers, teaching-training manuals, children's literature, and popular periodicals aimed at families. These publications attest to an abiding faith in the power of pedagogy that has its roots in transatlantic Romantic conceptions of pedagogy and literacy. The essays in this collection examine the on-going influence of Romanticism in the long nineteenth century on American thinking about education, as depicted in literary texts, in historical accounts of classroom dynamics, or in pedagogical treatises. They also point out that though

this influence was generally progressive, the benefits of this social change did not reach many parts of American society. This book is therefore an important reference for scholars of Romantic studies, American studies, historical pedagogy and education.

Telling stories from secondary and college English classrooms, this book explores the new possibilities for teaching and learning generated by bringing together reader-response and cultural-studies approaches. The book connects William Shakespeare, Charles Dickens, Mark Twain, and other canonical figures to multicultural writers, popular culture, film, testimonial, politics, history, and issues relevant to contemporary youth. Each chapter contains brief explications of literary scholarship and theory, and each is followed by extensive annotated bibliographies of multicultural literature, approachable scholarship and theory, and relevant Internet sites. Each chapter also contains descriptions of classroom units and activities focusing on a particular theme, such as genocide, homelessness, race, gender, youth violence, (post)colonialism, class relations, and censorship; and discussion of ways in which students often respond to such "hot-button" topics. Chapters in the book are: (1) A Course in Contemporary World Literature; (2) Teaching about Homelessness; (3) Genderizing the Curriculum: A Personal Journey; (4) Addressing the Youth Violence Crisis; (5) Shakespeare and the New Multicultural British and World Literatures; (6) "Huckleberry Finn" and the Issue of Race in Today's Classroom; (7) Testimonial, Autoethnography, and the Future of English; and (8) Conclusion. Contains approximately 350 references. Appendixes contain an email exchange between the author and a first year, inner-city teacher; a note to teachers on the truth of Rigoberta Menchu's testimonial; a brief account of philology; a 13-item annotated bibliography of readings in literary theory for English teachers; and lists of web sites exploring literary theory and cultural studies, supporting literature teaching, and for new teachers.
