All About Motherhood

In this new, expanded edition with more than fifty essays on the joys and heartaches of mother-
hood—from longing for a newborn to waiting for a teen to arrive home late at night—Kathryn E.
Livingston, who has written for national magazines on parenting topics and co-authored two parenting
books, explores the universal feelings and experiences all mothers share. The perfect gift book for new
as well as “seasoned” moms, All About Motherhood charts the interior journey women make when they
give birth and take on the most demanding and dynamic role of their lives. With poignancy and candor,
this mother of three captures the essence of motherhood, probing the conflicting emotions a woman
feels in her heart as she watches her babies grow up. “Treat yourself to this glorious compilation of
essays about real mothering.” —Michele Borba, Ed.D, author of *The Big Book of Parenting Solutions:
101 Answers to Your Everyday Challenges and Wildest Worries* “Regardless of subject, Livingston
remains inquisitive, easygoing and often witty.” —Publishers Weekly “Kathryn E. Livingston’s essays
distill all that we mothers know to be true about ourselves. Her witty, reassuring pieces are islands of
calm in our hectic parenting world.” —Abigail Gary, editor, mother

And Now We Have Everything

A raw, funny, and fiercely honest account of becoming a mother before feeling like a grown up. When
Meaghan O'Connell got accidentally pregnant in her twenties and decided to keep the baby, she
realized that the book she needed -- a brutally honest, agenda-free reckoning with the emotional
and existential impact of motherhood -- didn't exist. So she decided to write it herself. And Now We
Have Everything is O'Connell's exploration of the cataclysmic, impossible-to-prepare-for experience
of becoming a mother. With her dark humor and hair-trigger B.S. detector, O'Connell addresses the
pervasive imposter syndrome that comes with unplanned pregnancy, the fantasies of a “natural” birth
experience that erode maternal self-esteem, post-partum body and sex issues, and the fascinating
strangeness of stepping into a new, not-yet-comfortable identity. Channeling fears and anxieties that
are still taboo and often unspoken, And Now We Have Everything is an unflinchingly frank, funny, and
visceral motherhood story for our times, about having a baby and staying, for better or worse, exactly
yourself. Smart, funny, and true in all the best ways, this book made me ache with recognition." -- Cheryl
Strayed

The Mommy Myth

Now in paperback, the provocative book that has ignited fiery debate and created a dialogue among women about the state of motherhood today. In *THE MOMMY MYTH*, Susan Douglas and Meredith Michaels turn their 'sharp, funny, and fed-up prose' (San Diego Union Tribune) toward the cult of the new momism, a trend in Western culture that suggests that women can only achieve contentment through the perfection of mothering. Even so, the standards of this ideal remain out of reach, no matter how hard women try to 'have it all'. *THE MOMMY MYTH* skilfully maps the distance travelled from the days when *THE FEMININE MYSTIQUE* demanded more for women than keeping house and raising children, to today's not-so-subtle pressure to reverse this trend. A must-read for every woman.

Mum in a Million

There is no one quite like your mother - but along with the unconditional love and understanding, this also means that there is no one else who always knows when you're fibbing, or where you keep your diary, or the terribly amusing thing you once said at a family wedding when you were five. In an affectionate, amusing and mischievous book, Judith Holder's tribute to motherhood covers everything from mothers through the ages (it's not only the Virgin Mary who we wish had had an immaculate conception) to maternal anxiety and those little things she says and why she says them: 'You're not going out like that', 'What are you doing inside on a lovely day like today?', and the classic 'because I said so.' Using interviews and testimonies from mothers and daughters of all ages, this is a humorous look at motherhood and everything that goes with it, with beautifully illustrated and funny line drawings integrated into the text.

The Myths of Motherhood

"Given a voice, what would the Great Goddess, the Virgin Mary, Snow White's evil stepmother, or Portnoy's mom have said about child care, contraception, bonding, or breast-feeding? Would their feelings have mattered? After all, maternity has been constructed by men over the millennia. Aristotle thought mother's womb merely cooked father's seed. The Church preferred virgins to mothers, and Freud was father-fixated. Even a brief survey of history reveals a diversity of maternal practices and ideals that are at odds with each other as well as with the views of contemporary child-care experts and psychologists." "I cannot recall ever treating a mother who did not harbor shameful secrets about how her behavior or feelings damaged her children," writes Thurer. Today our sentimentalized conception of the good mother casts a long, guilt-inducing shadow over real mothers' lives. Never has there been so much advice and so little agreement. Never have the ideals of motherhood been as ambiguous, psychologically demanding, and unforgiving. One conclusion is certain: the "good mother" is a cultural invention." "In this brilliant synthesis of history, psychology, the arts, and religion, Thurer shows how our current concept of the ideal mother, like all ideology, is culture-bound, historically specific, and hopelessly tied to fashion. Thurer exposes our current myths of motherhood as a backlash against recent gains in women's rights and control over their bodies." "For thousands of years, because of her awesome ability to spew forth a child, mother has been feared and revered. She has been the subject of taboos, witch hunts, mandatory pregnancy, and confinement in a separate sphere. She has endured appalling insults and perpetual marginalization. She has also been the subject of glorious painting, chivalry, and idealization. Through it all she has rarely been consulted." *The Myths of Motherhood*, finally, is her story."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

The Little Book of Motherhood

"A mother's arms are made of tenderness and children sleep soundly in them." – Victor Hugo No one compares to your mother. All encompassing and powerful, the love she has for you knows no bounds. *The Little Book of Motherhood* is a celebration of being a mum, it covers all aspects of motherhood, from what it means, new mother tips and facts, birthing traditions from around the world, folklore and inspirational quotes from mothers past and present. Perfect as a mother's day gift or just a little token to remind your mom how much she means to you.

Regretting Motherhood

Women who opt not to be mothers are frequently warned that they will regret their decision later in life, yet we rarely talk about the possibility that the opposite might also be true—that women who have children might regret it. Drawing on years of research interviewing women from a variety of socioeconomic, educational, and professional backgrounds, sociologist Orna Donath treats regret as

a feminist issue: as regret marks the road not taken, we need to consider whether alternative paths for women currently are blocked off. She asks that we pay attention to what is forbidden by rules governing motherhood, time, and emotion, including the cultural assumption that motherhood is a “natural” role for women—for the sake of all women, not just those who regret becoming mothers. If we are disturbed by the idea that a woman might regret becoming a mother, Donath says, our response should not be to silence and shame these women; rather, we need to ask honest and difficult questions about how society pushes women into motherhood and why those who reconsider it are still seen as a danger to the status quo. Groundbreaking, thoughtful, and provocative, this is an especially needed book in our current political climate, as women's reproductive rights continue to be at the forefront of national debates.

Mothers of the Village

So many mothers feel like something is out of joint, something is missing—and maybe the truth is that we're all just missing each other. C. J. Schneider found herself in the middle of a perfect storm after giving birth to her third child and moving to a new neighborhood. Conditions for misery and postpartum depression were ideal: she was isolated, lonely, and exhausted with three young children at home. As she started talking with other mothers, she realized that she was not alone in her experience of feeling alone. In her unique voice, Schneider intelligently and compassionately offers practical advice on how to create the essential community that mothers need. Given the many examples of communal mothering from the past and around the world, as well as modern examples of communities in which mothers are thriving, the research is clear: since the beginning of womankind, mothering has been a communal effort. *Mothers of the Village* affirms that as mothers connect with each other and learn to work with each other, despite the challenges, they may find a piece of themselves that they have felt missing all along.

This Is Motherhood

By Moms, for Moms—Redefining Motherhood for a New Generation With *This Is Motherhood*, the cofounders and contributors of the Motherly online community present a collection of essays and practices to celebrate motherhood in all its complexity. Here you'll find reflections on each phase of “the wild ride of motherhood,” including the soaring highs of meeting your new baby, the ground-shaking lows that make you doubt everything you've ever known, and all the beauty and pain in between. Each chapter closes with practices from Motherly's team of wellness experts to help you define, clarify, process, and celebrate your journey. This book was created to inspire and guide you through some of the most miraculous and stressful milestones of your life, such as: • New Mama—get ready for the mysterious, unpredictable, and beautiful start to your new life as a mother • Firsts—each step is brand new to you and your baby . . . and a chance to discover your way to learn and love • Mental Load—even with the worries, the to-do lists, the midnight emergencies, you deserve time and attention, too • Village—how to find the support that's all around you, because you aren't meant to do this alone • Transformation—discover and embrace the powerful, loving, capable woman who's been molded by motherhood There are many ways to get motherhood right. It's not your mother's path or your sister's path or that seemingly-perfect mom from your kid's preschool's path. It's yours. You get to define—and redefine along the way—your experience of motherhood. And you are not alone. Each essay in *This Is Motherhood* is a letter to you, from one mama to another, to remind you that your feelings are normal. That you're doing an amazing job. That you're stronger than you even realize. Most of all: You've got this, mama.

Forget Having It All

A clear-eyed look at the history of American ideas about motherhood, how those ideas have impacted all women (whether they have kids or not), and how to fix the inequality that exists as a result. After filing a story only two hours after giving birth, and then getting straight back to full-time work the next morning, journalist Amy Westervelt had a revelation: America might claim to revere motherhood, but it treats women who have children like crap. From inadequate maternity leave to gender-based double standards, emotional labor to the “motherhood penalty” wage gap, racist devaluing of some mothers and overvaluing of others, and our tendency to consider women's value only in terms of their reproductive capacity, Westervelt became determined to understand how we got here and how the promise of “having it all” ever even became a thing when it was so far from reality for American women. In *Forget “Having It All,”* Westervelt traces the roots of our modern expectations of mothers

and motherhood back to extremist ideas held by the first Puritans who attempted to colonize America and examines how those ideals shifted -- or didn't -- through every generation since. Using this historical backdrop, Westervelt draws out what we should replicate from our past (bringing back home economics, for example, this time with an emphasis on gender-balanced labor in the home), and what we must begin anew as we overhaul American motherhood (including taking a more intersectional view of motherhood, thinking deeply about the ways in which capitalism influences our views on reproduction, and incorporating working fathers into discussions about work-life balance). In looking for inspiration elsewhere in the world, Westervelt turned not to Scandinavia, where every work-life balance story inevitably ends up, but to Japan where politicians, in an increasingly desperate effort to increase the country's birth rates (sound familiar?), tried to apply Scandinavian-style policies atop a capitalist democracy not unlike America's, only to find that policy can't do much in the absence of cultural shift. Ultimately, Westervelt presents a measured, historically rooted and research-backed call for workplace policies, cultural norms, and personal attitudes about motherhood that will radically improve the lives of not just working moms but all Americans.

Motherhood Without All the Rules

Ditch Pressure for Freedom in Christ Any mom who has tried to create a godly home for her family knows it doesn't happen automatically. Through books, blogs, and Instagram accounts, culture asserts that good moms must follow certain standards and abide by certain rules if she want what's best for her children. She must do everything she can—and she must do it all just right. Following the suggested steps and recommended rules may seem best, but what if we're missing the point? This is something Maggie Combs came to realize while seeking to be a good mom to her three sons. Though the world around us may have critical expectations and rules for mothering, Christ instead calls moms to an intimate, abiding relationship with a triune God. In *Motherhood Without All the Rules*, Maggie identifies the main "rules" moms today often feel pressured to follow and counters them with gospel truth. You'll discover how the character of each member of the trinity practically impacts your role as a mom. Join Maggie in forgetting the rules, so that instead of being a good mom, you grow to become a holy mom.

The Mother of All Journeys

This is a personal story of a young woman's transition from independent newly-wed, through the anguish and depression of pregnancy, childbirth and motherhood, to the realisation that life, as she knew it, would never be the same again - not for her or her husband. Having plunged into the depths of despair, almost from the moment of conception, she wondered how she could possibly return to the cheerful, carefree person she had once been. The poignancy of this book centres particularly on the fact that the author felt like an outcast who had nothing in common with other pregnant mothers and new parents. How could she feel so low when everywhere around her were books and "experts" telling her how wonderful motherhood was and how overjoyed she should be feeling? With the support of family and friends and a long-suffering husband, two years on this young woman is a happy, caring mother of a beautiful son who is bonny, healthy and loved unconditionally. And she is back to normal. For more information please visit www.themotherofalljourneys.co.uk

Be a Great Mum

Teach Yourself - the world's leading learning brand - is relaunched in 2010 as a multi-platform experience that will keep you motivated to achieve your goals. Let our expert author guide you through this brand new edition, with personal insights, tips, energising self-tests and summaries throughout the book. Go online at www.teachyourself.com for tests, extension articles and a vibrant community of like-minded learners. And if you don't have much time, don't worry - every book gives you 1, 5 and 10-minute bites of learning to get you started. Practical common sense that gives you support for all the things that most concern you Combines inspiring stories and tips from real mothers Coaching and motivational techniques to boost your confidence For all mums - not just working mums and not just those in a 'conventional' family setting Written by someone who knows what you're feeling - Judy's not just a parent coach, she's also a busy mum of 3 *Teach Yourself Motherhood* is an inspiring yet practical guide designed to address the top ten issues that most concern you, from concerns about whether you're doing it 'right', to finding time to work (or not?), finding time for your children and still finding time for you. It will help you boost your actual parenting skills - building your childrens' confidence and juggling all the many 'plates' that are needed to help you achieve a happy family - while at the same time focusing on your own needs. Throughout the book there will be lots of case studies, tips and supportive

insight and advice; at the same time, you will find lots of interactive material which will help you both to understand your own behaviour and to take steps to boost confidence in all the areas where you feel it is lacking.

The Magic of Motherhood

Motherhood can often feel overwhelming and isolating. Your feelings swing between joy and uncertainty, intense love and anxiety, laughter and tears. Through it all, you ask yourself, Am I the only one who feels this way? From Ashlee Gadd and the writers behind the popular blog Coffee + Crumbs comes a beautiful reminder of your identity, both as a woman and a mother. In this book, you'll find heartwarming essays about identity, adoption, body image, miscarriage, friendship, faith, infertility, and more. This curated collection of honest stories weaves together the love, joy, and magnificent heartache of motherhood. Instead of offering advice, the writers offer something even better: their hearts. Essays from Ashlee Gadd of Coffee + Crumbs and its contributors will reassure you that you're not alone. This book is a love letter to mothers everywhere; it's a story about the magic that happens between calm and chaos, the joy that can be found in both beauty and mess, and the valuable lessons we learn about ourselves in between cups of reheated coffee and kitchen tables covered in crumbs. Find a new strength, beauty, and sisterhood you never believed possible in The Magic of Motherhood, an inspiring and encouraging book written for an imperfect, trying-her-best mom just like you.

Confessions of a Scary Mommy

Sometimes I just let my children fall asleep in front of the TV. In a culture that idealizes motherhood, it's scary to confess that, in your house, being a mother is beautiful and dirty and joyful and frustrating all at once. Admitting that it's not easy doesn't make you a bad mom; at least, it shouldn't. If I can't survive my daughter as a toddler, how the hell am I going to get through the teenage years? When Jill Smokler was first home with her small children, she thought her blog would be something to keep friends and family updated. To her surprise, she hit a chord in the hearts of mothers everywhere. I end up doing my son's homework. It's wrong, but so much easier. Total strangers were contributing their views on that strange reality called motherhood. As other women shared their stories, Jill realized she wasn't alone in her feelings of exhaustion and imperfection. My eighteen month old still can't say "Mommy" but used the word "shit" in perfect context. But she sensed her readers were still holding back, so decided to start an anonymous confessional, a place where real moms could leave their most honest thoughts without fearing condemnation. I pretend to be happy but I cry every night in the shower. The reactions were amazing: some sad, some pee-in-your-pants funny, some brutally honest. But they were real, not a commercial glamorization. I clock out of motherhood at 8 P.M. and hide in the basement with my laptop and a beer. If you're already a fan, lock the bathroom door on your whining kids, run a bubble bath, and settle in. If you've not encountered Scary Mommy before, break out a glass of champagne as well, because you'll be toasting your initiation into a select club. I know why some animals eat their young. In chapters that cover husbands (The Biggest Baby of Them All) to homework (Didn't I Already Graduate?), Confessions of a Scary Mommy combines all-new essays from Jill with the best of the anonymous confessions. Sometimes I wish my son was still little—then I hear kids screaming at the store. As Jill says, "We like to paint motherhood as picture perfect. A newborn peacefully resting on his mother's chest. A toddler taking tentative first steps into his mother's loving arms. A mother fluffing her daughter's prom dress. These moments are indeed miraculous and joyful; they can also be few and far between." Of course you adore your kids. Of course you would lay down your life for them. But be honest now: Have you ever wondered what possessed you to sign up for the job of motherhood? STOP! DO NOT OPEN THIS BOOK UNTIL YOU RECITE THESE VOWS! I shall remember that no mother is perfect and my children will thrive because, and sometimes even in spite, of me. I shall not preach to a fellow mother who has not asked my opinion. It's none of my damn business. I shall maintain a sense of humor about all things motherhood.

Not All Mothers Love Their Baby

Unlike the glamorous image of motherhood we see portrayed in film, TV and social media - bonding through breastfeeding, family days out capturing lifelong memories and well put-together mothers who can 'do it all' - this book shows a raw and gritty reality that, for a lot of first-time parents, is far from what they expected. Her world turned upside down through shock and trauma of childbirth, and dealing with the heartache of postnatal depression in its wake, Kirsty recounts the first few years of motherhood that this cruel mental illness stole from her; robbing her of joy, threatening her relationship, and rendering

her incapable of feeling any love for her baby whatsoever. Instead, she found herself in a constant state of mental brutality with 'The Mind Demons', isolating her from loved ones, berating her with intrusive thoughts, and sending her into a downward spiral of self-loathing and suicidal ideation. Without holding back, Kirsty takes her readers on a painful (albeit, rich with humour and wit) journey through postnatal depression - cracked nipples and swollen 'yoohas' galore. Believing herself to be a toxic, horrid beast and a failure of a mother, so much of her story will relate to new parents everywhere, especially those who have also found themselves asking why everyone else seems to have it together and they don't. From breakdowns mid 'passion' to weeping over postpartum belly pouches, this is a real story of parenthood, in all its sincere pain, rage and love - eventually.

The Mother of All Jobs

The Mother of All Jobs is a funny, heart-breaking and completely realistic take on why combining a big job and small children breaks you, why everyone lies about it, and ultimately how you can be happy if you extract the knowledge others learned the hard way.

All I See Is You

"Motherhood, the journey where you stop to take in the scenery. And even through the storm, isn't it beautiful?" 'All I See Is You' captures the little but meaningful moments of motherhood as if you're there breathing it all over again. Jessica Urlichs' words encompass the highs and the lows, the raw and the vulnerable and the overwhelming love a mother has for her child. This book of poetry and prose will take mothers on a journey of healing and growth with a powerful affirmation that you are not alone. "Jessica found a way to put into words the very soul of motherhood". "Your words help me feel seen"

Mother of All Myths

A provocative and debate-inspiring book which explores the pressure, politics, philosophy and culture of motherhood in today's society.

Motherhood

'A response - finally - to the new norms of femininity' Rachel Cusk Having reached an age when most of her peers are asking themselves when they will become mothers, Heti's narrator considers, with the same urgency, whether she will do so at all. Over the course of several years, under the influence of her partner, body, family, friends, mysticism and chance, she struggles to make a moral and meaningful choice. In a compellingly direct mode that straddles the forms of the novel and the essay, Motherhood raises radical and essential questions about womanhood, parenthood, and how - and for whom - to live. 'Likely to become the defining literary work on the subject' Guardian 'Courageous, necessary, visionary' Elif Batuman 'Quietly affecting... As concerned with art as it is with mothering' Sally Rooney 'Groundbreaking in its fluidity' Spectator **A Daily Telegraph, Financial Times, Irish Times, Refinery29, TLS and The White Review Book of the Year **

Liberating Motherhood

Highly acclaimed by leading parenting authors, academics and activists, with a foreword from Naomi Stadlen, founder of Mothers Talking and author of What Mothers Do, and How Mothers Love. If it is true that there have been waves of feminism, then mothers' rights are the flotsam left behind on the ocean surface of patriarchy. For all the talk of women's liberation, when it is predicated on liberation from motherhood, it is no liberation at all. Under twenty-first century capitalism, the bonds of motherhood are being replaced with binds to the market within wage slavery and ruthless individualism. Mothers are in bondage - and not in a 50 Shades way. Olorenshaw is clear: When mothering is on our terms, it can be liberating. The time has come for a radical, bold and creative approach to the question of mothers, children and care. Liberating Motherhood discusses our bodies, our minds, our labour and our hearts, exploring issues from birth and breastfeeding to mental health, economics, politics, basic incomes and love and in doing so, broaches a conversation we've been avoiding for years: how do we value motherhood?

Woman in Girlhood, Wifedom, Motherhood

Ann Pleshette Murphy is one of my heroes' T. Berry Brazelton, M.D., bestselling author of What Every Baby Knows This is the book every mum needs, and it hasn't been available until now. Seven Stages

of Motherhood looks at the experience of parenting not only in the first year or two of a baby's life, but right on through childhood and adolescence and even into adulthood. Ann Pleshette Murphy argues that women evolve as mothers throughout the lives of their children, and her book is intended as a guide through this remarkable experience. Practical, sensible and above all readable, it will be invaluable to first-time parents and absolutely relevant to mothers of growing families. 'A beautiful insight into the joys and sorrows of motherhood, an emotional lifeline to mothers everywhere as they journey through the confusing yet rewarding stages of motherhood. Not to be missed' William Pollack, author of *Real Boys* 'Heartwarming, witty and wise ... let Annie be your guide on this charming tour through motherhood' Harvey Karp, MD, paediatrician and author of *The Happiest Baby on the Block*

The Seven Stages of Motherhood

By Moms, for Moms—Redefining Motherhood for a New Generation With *This Is Motherhood*, the cofounders and contributors of the Motherly online community present a collection of essays and practices to celebrate motherhood in all its complexity. Here you'll find reflections on each phase of "the wild ride of motherhood," including the soaring highs of meeting your new baby, the ground-shaking lows that make you doubt everything you've ever known, and all the beauty and pain in between. Each chapter closes with practices from Motherly's team of wellness experts to help you define, clarify, process, and celebrate your journey. This book was created to inspire and guide you through some of the most miraculous and stressful milestones of your life, such as:

- New Mama—get ready for the mysterious, unpredictable, and beautiful start to your new life as a mother
- Firsts—each step is brand new to you and your baby . . . and a chance to discover your way to learn and love
- Mental Load—even with the worries, the to-do lists, the midnight emergencies, you deserve time and attention, too
- Village—how to find the support that's all around you, because you aren't meant to do this alone
- Transformation—discover and embrace the powerful, loving, capable woman who's been molded by motherhood

There are many ways to get motherhood right. It's not your mother's path or your sister's path or that seemingly-perfect mom from your kid's preschool's path. It's yours. You get to define—and redefine along the way—your experience of motherhood. And you are not alone. Each essay in *This Is Motherhood* is a letter to you, from one mama to another, to remind you that your feelings are normal. That you're doing an amazing job. That you're stronger than you even realize. Most of all: You've got this, mama.

This Is Motherhood

Nothing else in life compares to the one-of-a-kind bond mothers have with their children. Filled with more than 400 heartfelt reflections from such luminaries as Sylvia Plath, Booker T. Washington, Abraham Lincoln, Helen Keller, Alice Walker, Toni Morrison, Thomas Edison, Mark Twain, Jamaica Kincaid, Anne Tyler, and Amy Tan, *All About Mom* is a wise, witty, touching, and always honest look at what it really means to be mom. Whether reflecting on a mother's strength, unconditional love and wisdom or examining her influence on her grown children's lives, this book goes straight to the heart of this essential, enduring relationship.

All About Mom

CONTAINS A BRAND NEW CHAPTER Sunday Times Number One Bestseller *Happy Mum Happy Baby* is now a Number One podcast. A positive and uplifting book about what it is to be a mother and all things mum and baby by Celebrity Mum of the Year and phenomenally popular vlogger, author, TV presenter and actress Giovanna Fletcher. Being a mum is an incredible journey, a remarkable experience that changes how we look, how we feel, who we are. As mothers we are strong, protective, proud. We feel a love like no other. But being a parent can be hard too. It challenges us physically, mentally, emotionally. There are the days where just managing to fit a shower in amidst the endless feeding, entertaining young children and surviving on a lack of sleep feels like an achievement. With so many people ready to offer 'advice' on the best way to parent, it can feel like you are getting it all wrong. Since Giovanna and her husband Tom Fletcher have had their sons Buzz and Buddy, they have been sharing glimpses of their family life. With an infectious positive outlook and happy take on all things mum-related, Giovanna has developed a following of fellow parents and mums-to-be. This is not a book about how to have the perfect family experience - Gi would be the first to admit she is winging it just as much as the rest of us - instead it is an honest, upbeat and incredibly personal account of her own experience of having a family. In *Happy Mum, Happy Baby* Giovanna shares her own journey through parenthood and in doing so, she looks at what it is to be a mother today, encourages you to be

confident in yourself as a parent and celebrates how putting a focus on being a happy and confident mum can really make for a happy baby.

Happy Mum, Happy Baby

AN EYE-OPENING EXPLORATION OF MODERN MOTHERHOOD PACKED WITH PRACTICAL ADVICE ON NAVIGATING DISCRIMINATION IN THE WORKPLACE 'It's the book that proves working mothers are shamefully mistreated' - Daily Mail 'Brearley's book leaves no stone unturned in what needs to be done to remedy these problems going forward' – Vogue UK 'Joeli is one of the most tenacious and impressive campaigners I know, and her work has had a massive positive impact on the lives of thousands of women. Her work is invaluable, from setting up a vital lifeline for women to learn about their rights on maternity discrimination, to the frontlines of the Covid-19 crisis, where she battled for women not to be left out of the picture altogether.' - Laura Bates Imagine suddenly being sacked from your job. After spending years building your career, it's all taken away in just one moment. Why? Because you told your boss you are pregnant. This happened to Joeli Brearley. And she quickly realised she wasn't alone - 54,000 women a year are forced out of their job because they dared to procreate, and three quarters of working mothers face workplace discrimination. And this was before the pandemic, with its never-ending cycle of extraordinary childcare challenges and overt pregnancy and maternity discrimination, resulting in a tsunami of mothers exiting the labour force. *Pregnant Then Screwed* is an expose of the unscrupulous work practices and antiquated systems that we've been conditioned to accept and a toolkit for how to challenge them. It's full of practical advice to help you navigate systemic barriers when they slap you in the face. Whether you're a mother who is sick of being sidelined, undermined, and underpaid. A "stay at home" mother who wants to work but can't. A future parent who is scared that having children will affect your career. An employer who wants to get the best out of its parent employees, or you simply want a stronger, fairer economy, *Pregnant Then Screwed* is a compelling manifesto for change and a call to arms for all women.

The Motherhood Penalty

Motherhood is amazing and the devotion you encounter is staggeringly strong. But when you're in the eye of the shitstorm, veering between love and lunacy, wondering how this tiny, adorable human can wreak so much bedlam in your life, I believe you need a robust sense of humour to help save your sanity. For Zeena Moolla, the early days of being a new mum were a heady cocktail of sleepless nights, acid reflux and aching boobs. But finding the funny in the chaos buffered so much of the stress. And she has her dad to thank... Being brought up solely by a single dad, one of a foreign, Muslim background, exemplified beautifully that parenting and families come in all different shapes and sizes. His massive-hearted parenting shaped the kind of mother Zeena is, and as the funniest person she knows, he can also turn any situation around with warmth, wit and a cheese sandwich. If that's not a vital skill in parenting, then what is? With top tips for surviving sleep-deprivation (spoiler alert: embrace a cantankerous mood and don't buy crap coffee) to dealing with judgy idiots, getting to grips with shitty mum-guilt and returning to work, Zeena will show you that motherhood won't just get better, it'll be incredible. Laugh-out-loud funny, honest, tender and packed with real life advice - this is essential reading for every new mother not cherishing every moment, feeling like a misfit or simply finding this parenting lark all too much.

Everything I've Learned about Motherhood (From My Single-Parent Dad)

Who among us has not at some point asked, what is the meaning of life?' In this extraordinary book, an eminent social scientist looks at the big picture and explores what empirical studies from diverse fields tell us about the human condition. *MEANINGS OF LIFE* draws together evidence from psychology, history, anthropology, and sociology, integrating copious research findings into a clear and conclusive discussion of how people attempt to make sense of their lives. In a lively and accessible style, emphasizing facts over theories, Baumeister explores why people desire meaning in their lives, how these meanings function, what forms they take, and what happens when life loses meaning. It is the most comprehensive examination of the topic to date.

Meanings of Life

The Book Every Mother Needs! As mothers, we live life thinking that that's our only title. We simply don't recognise how *INDISPENSIBLE* we are. We make sure that everything is taken care of at home and beyond! *Priceless Roles of a Mother* is an inspirational memoir and handbook, intertwined with

humour. It comes from voices of mothers from all walks of life and aims to help you: regain your feminine strength and true worth reclaim your value and the gift of 'motherhood' raise awareness to honour your contribution in life revamp your roles into a hobby, business or profession Margaret V Aberdeen shares her own heart-wrenching story, which includes the survival of an abusive relationship, the tragic loss of a second child, homelessness and life threatening cancer. It is an extension of her poem 'A Mother' written due to the void felt from missing her first son, and the need to let the world know that mothers should be praised and celebrated not only on Mother's Day! Margaret courageously makes herself vulnerable to you by revisiting some of her darkest moments. This is an inspiring read and an invaluable resource for all mothers! What others are saying about this book: 'There's a saying: don't judge people before stepping into their shoes. The same goes for this book. The cover can't tell the whole story. You've got to open the book, read and you may find this book brings to light the limitless roles, achievements and values of "motherhood." They are all the things I wish I had known before becoming a mother, and I am sure even my mother and my grandmother would have felt the same.' Edith Huntington, Women Links 'While there are a lot of books out there aimed at the first time mother, which can bombard women with a variety of sometimes confusing messages, Priceless Roles of a Mother has a more refreshing and attractive viewpoint, which is to celebrate ourselves for what we achieve as mothers, rather than concentrate on how we could be doing it differently.' Debra Duncan, Life Living Experiences 'If you are a woman who is a mother or expecting to be a mother, I suggest you buy this book, read it and then pass it on to all mothers, and also to all male gender that crosses your path. It contains vital information everyone should know. Though I think I have been a good mother with my ability, capability and resources. I am sure if I had known all this, I would have been a better mother.' Cynthia Tyler, Women Rising 'I have thoroughly enjoyed reading Priceless Roles of a Mother and to have learned the valuable multiple professional skills we obtained in motherhood. It's a moving, interesting and uplifting read. I felt supported in my own personal journey as a mother, and I know many women will benefit from it.' Patricia Hill 'There are a plethora of books out there aimed at new mothers, offering tips and advice on everything from how to feed your child, to how to plan the best birthday parties. Priceless Roles of a Mother however, targets women at the other end of their mothering - those whose children have recently, or are about to leave the nest. This perspective is one that is often overlooked.' Judy Pendington

Priceless Roles of a Mother

"HuffPost Parents bloggers, Kara Lawler and Regan Long, have written a beautiful, inspiring collection of essays that speak to mothers at all stages of their journey."--Arianna Huffington, founder and editor-in-chief of the Huffington Post "While one of the most extraordinary experiences, motherhood can be one of the most isolating experiences a woman will ever face. All that most of us want to hear is that we are not alone on this crazy ride - and that is just what A Letter for Every Mother will accomplish. Compiling a collection of stories that every single person in this market will relate to, with a message that each of them craves, is a genius move. I believe this book will sell itself and I can't wait to see it published." --Tori Grenz, Editor of Mamalode "Kara and Regan have managed to capture the entire essence of being a mother - the highs, the lows and everything in between - in this beautiful collection of essays. You will find yourself comforted by the commonalities we all face, and reminded that, even though it doesn't always feel like it, we're all on the same side. Motherhood, like the words on these pages, unites us."--Jill Smokler of Scary Mommy, New York Times bestselling author Kara Lawler and Regan Long invite readers to join their tribe of mothers and be encouraged, uplifted and inspired on their parenting journey. A LETTER FOR EVERY MOTHER is the perfect gift for every mother. In A LETTER FOR EVERY MOTHER, authors Kara Lawler and Regan Long have written a heartwarming compilation of letters addressed to mothers from all walks of life, meant to celebrate, inspire and commiserate with all stages of the parenting journey. This book will encourage, inspire and uplift mothers from all walks of life. Kara and Regan invite readers to join their tribe of mothers, to learn from one another and band together to face one of the hardest jobs in the world: becoming and being someone's mother. Their mission is to inspire and to create a community through this book to remind mothers that we're all in this together-an especially welcome message in the current atmosphere of competition and anxiety of parenting. A LETTER FOR EVERY MOTHER is warm, inviting, inclusive-and the tone is inspirational or irreverent, depending on the letter or subject you happen to turn to. After all, motherhood is an oxymoronic experience; it is both exhilarating and exhausting, uplifting and demeaning, wonderful but terrible, too.

A Letter for Every Mother

Gathers information on infertility, pregnancy, childbirth, infant care, child development, parenting, and grandparenting

Mothering

Motherhood can sometimes get overwhelming! The initial excitement of learning your pregnant is an indescribable feeling and often the most acknowledged part of the life experience. All the Shit They Don't Tell You: Pregnancy and Motherhood, author Bryttnae Thomas, sheds light on topics that are taboo concerning motherhood and in return empowers women to push through all the challenges motherhood brings. It's time to talk about it and stop normalizing suffering in silence. The author's goal is to have women step out of their comfort zone and discuss topics everyone is too scared to talk about through honesty and humor. Review from readers: All the Sh*t is an honest and profound testament to what we women really experience and go through during pregnancy and motherhood. This book gives women permission to express their feelings (even the negative ones) and lets us know we are not alone. I loved it from start to finish and would recommend this wonderful read to women in all stages of life! -M. Brandon While reading this book I realized it wasn't just for women it's more of an insight of what women go through. Men need to know all the s*** that women are going through during pregnancy and afterwards. there's a lot that women go thru with pregnancy mentally and physically. If you want a better understanding of what your wife or partner is going through you have to read this book -R. Thomas

All The Shit They Don't Tell You: Pregnancy and Motherhood

'A beautifully written and wisely laid out memoir . . . a treasure map back to 'living', for those who have been away too long' Donna Ashworth, author of Wild Hope 'Lyrical and beautiful... the book we all need to read right now' Catherine Simpson, author of One Body An intimate memoir of motherhood, herbal folklore ALL MY WILD MOTHERS is more than just a memoir. It's a handbook on survival, and a testimony to radical hope. At seven months pregnant, Victoria Bennett learns her sister has died in a canoeing accident. In that moment, her life changes. Five years later, and struggling with the demands of motherhood, grief and full-time care, Victoria and her family move to a new social housing estate in rural Cumbria. Here, in the rubble of a former industrial site, she and her young son begin to grow a wild apothecary garden: daisy, for resilience; dandelion, for strength against adversity; sow thistle, to lift melancholy; and borage, to bring hope in dark and difficult times. Stone by stone, seed by seed, they discover that sometimes life grows, not in spite what is broken, but because of it. All My Wild Mothers is a profound exploration of grief, identity, and rediscovery; a testament that life and love persists, even when we think all is lost. 'Spellbinding... the most moving portrait of a mother and child I've ever read' Tanya Shadrack, author of The Cure For Sleep *** 'An impossibly moving memoir of gardens, herbalism, and the rigours and rewards of care... It heralds the arrival of an exciting new voice in nature writing' Cal Flyn, author of Islands of Abandonment 'A stunning meditation on the joy of nurturing (and of getting your hands dirty). It is a love letter to mothering and nature and mother nature, which bursts with wisdom, humility and hope. The writing is lyrical and beautiful... exactly the book we all need to read right now... What a wonderful book' Catherine Simpson, author of When I Had A Little Sister 'Exquisitely written... the most moving portrait of a mother and child I've ever read... This is a book of passionate resistance to everything in modern life that wants us to stay neat and small and fearful' Tanya Shadrack, author of The Cure for Sleep 'Beautiful and life-affirming experience. A memoir written with tremendous care for the reader' Jini Riddy, author of Wanderland 'Prismatically beautiful in its honesty and telling... a wonderful book. An apothecary of love' Nicola Chester, author of On Gallows Down

All My Wild Mothers

"[Prepon] returns to the written word with this heartfelt, honest look at motherhood, styled as both informative guidebook and raw memoir." —Entertainment Weekly When actor, director, and author Laura Prepon first became a mother, she felt raw, full of stress, and blindsided. She sought out resources to help navigate this huge life transition, but only found books about childcare with almost nothing on the shelves about momcare. So, Laura decided to write the book she was looking for. You and I, as Mothers: A Raw and Honest Guide to Motherhood is part memoir, part handbook, as Laura digs into her own unconventional upbringing and investigates how it shaped her as a person and as a mother, with intimate stories and never-before-shared anecdotes brought forth in an effort to understand our collective experience as mothers. The book is packed with practical tips for moms of any age, at any stage of motherhood, such as stress reduction techniques, self-care, protecting one's

partnership, asking for help, and getting a global perspective on maternity. Also included are easy and delicious recipes, from ideas for kids-friendly food, to romantic dinner dates, and batch-cooking favorites that will help any parent feed their family. Unfiltered, honest, and insightful, Laura encourages the reader to acknowledge their challenges, embrace their strengths, and celebrate their victories as we navigate the greatest adventure of all: motherhood. "Every mother, partner, and friend can benefit from the evocative and hard-earned wisdom within these pages." —Mila Kunis "A powerful multi-hyphenate manifesto examining the most important and often overlooked realities of modern motherhood, written with wit, extraordinary grace, and real guts." —Amber Tamblyn

You and I, as Mothers

THIS HIGHLY GIFTABLE DELUXE EDITION OF THE BESTSELLER INCLUDES THREE ALL-NEW CHAPTERS Motherhood is hard. In a world of five-step lists and silver-bullet solutions to become perfect parents, mothers are burdened with mixed messages about who they are and what choices they should make. If you feel pulled between high-fives and hard words, with culture's solutions only raising more questions, you're not alone. But there is hope. You might think that Scripture doesn't have much to say about the food you make for breakfast, how you view your postpartum body, or what school choice you make for your children, but a deeper look reveals that the Bible provides the framework for finding answers to your specific questions about modern motherhood. Emily Jensen and Laura Wifler help you understand and apply the gospel to common issues moms face so you can connect your Sunday morning faith to the Monday morning tantrum. Discover how closely the gospel connects with today's motherhood. Join Emily and Laura as they walk through the redemptive story and reveal how the gospel applies to your everyday life, bringing hope, freedom, and joy in every area of motherhood.

Best Mom of All Time in the History of Ever

"You really should have kids." Hurtling toward 40-and still single and longing for children of her own-Kathleen doesn't need to be reminded that time is running out for her to turn her dreams for a family into reality. So she starts to consider a Plan B: becoming a single parent. But can she do it all on her own? And does she really want to? If only I could try it out, she thinks. For wouldn't an internship as a single mommy help her make major life decisions? And then?. In an open, thoughtful, and sometimes hilarious memoir, Kathleen shares what she learns while caring for her 15-month-old nephew, Jake, while his parents travel. With Jake, she experiences the realities of single parenthood, including a taste of the loving affection she craves, fierce tantrums that test her best auntying skills, moments of bliss amidst exploding poopy diapers and ongoing sleep deprivation, and ah-hahs that have her questioning whether she has wasted her life. And that's just the start of her journey. Back at home, she unpacks and examines the societal baggage that led her to believe a woman's only true value is as a mother. Empowered by her experience, research, and introspection, she learns to embrace the different paths women choose, including the one she ultimately chooses for herself.

The Mother of All Dilemmas

Mothering is messy. Our joy and hope in raising children doesn't change the reality that being a mom can be frustrating, stressful, and tiring. But just as God is using us to shape our children, God is using our children and motherhood to shape us. In The Better Mom, author Ruth Schwenk, herself a mother of four children, encourages us with the good news that there is more to being a mom than the extremes

of striving for perfection or simply embracing the mess. We don't need to settle for surviving our kids' childhood. We can grow through it. With refreshing and heartfelt honesty Ruth emboldens moms to: Find freedom and walk confidently in purpose Create a God-honoring home environment Overcome unhealthy and destructive emotions such as anger, anxiety, and more Avoid glorifying the mess of mom-ing or idolizing perfection Cultivate life-giving friendships At the heart of The Better Mom is the message that Jesus calls us to live not a weary life, but a worthy life. We don't have to settle for either being apathetic or struggling to be perfect. Both visions of motherhood go too far. Ruth offers a better option. She says, "It's okay to come as we are, but what we're called to do and be is far too important to stay there! The way to becoming a better mom starts not with what we are doing, but with who God is inviting us to become."

The Better Mom
