Clinical Skills for Healthcare Assistants and Assistant Practitioners

Clinical Skills for Healthcare Assistants and Assistant Practitioners is an accessible, easy-to-read guide, outlining the fundamental and core skills integral to clinical practice. Fully updated in its second edition, this book is divided into three sections; the first looks at fundamental skills applicable to all staff, such as accountability, communication and record keeping. Section two explores core clinical skills such as respiratory care, pulse, blood glucose management and catheter care. Section three outlines complex clinical skills that require more in-depth training, such as medication and intravenous cannulation. An invaluable resource for healthcare assistants and assistant practitioners, this book will also be of use to newly qualified practitioners, and students in health and social care.

Medical Assisting Online for Saunders Essentials of Medical Assisting (User Guide, Access Code, Textbook and Study Guide Package)

Study Guide for Clinical Procedures for Medical Assistants - E-Book

Learn how to think critically and perform competently in the clinical setting! Correlating to chapters in *Clinical Procedures for the Medical Assistant*, 10th Edition, this study guide provides additional activities, review questions, and exercises designed to prepare you to work as a clinical medical assistant. New, is the addition of SimChart® for the Medical Office activities that tie into appropriate chapters of the text. In addition, video evaluation activities on the companion Evolve site track your progress and understanding of each procedure. Assignment sheets at the beginning of each chapter indicate the upcoming textbook and study guide assignments, and make it easy to prepare for what's coming next. Critical thinking activities utilize realistic situations to help you analyze and apply what you've learned with games, role-playing situations, fun crossword puzzles, and independent study questions. Pre-tests and post-tests provide a quick assessment of your knowledge prior to and after you study each chapter. Key term exercises and assessments help in mastering new vocabulary. Evaluation of Learning questions let you assess your understanding, evaluate your progress, and prepare for the certification examination. Practice for Competency sections include checklist worksheets to use in practicing clinical skills. Practicum activities on the Evolve companion website use worksheets to help you learn how the practicum site functions. NEW! SimChart® for the Medical Office (SCMO) connection ties Elsevier's Educational EHR cases to the appropriate chapters and provides cohesion for the total curriculum solution. NEW! Evaluation of Competency checklists evaluate your performance versus stated objectives and performance standards, and include CAAHEP and ABHES standards. NEW! Video evaluation activities allow students to track their understanding of the video procedures.

Medical Assisting Online For Saunders Essentials of Medical Assisting

Medical Assisting Online is an engaging, fully integrated online course that supplements the coverage in *Saunders Essentials of Medical Assisting*, 2nd Edition with interactive exercises to prepare you for professional success in medical assisting. Ideal for distance learning or an enhanced classroom experience, this new edition is competency-based and more interactive than ever, giving you practice performing the clinical and administrative tasks you'll encounter on the job, such as checking in patients, filing insurance claims, taking vital signs, administering medications, and more. Easy-to-use learning modules correspond directly to textbook content to strengthen your understanding. Self-comprehension questions and interactive exercises interspersed throughout allow you to check your comprehension and learn from feedback. Engaging Training Activities cover key curriculum competencies, guiding you step-by-step through important skills and encouraging you to try them on your own. Video clips demonstrate the most commonly performed clinical procedures and techniques in vivid detail. Pop-up boxes provide further explanations, forms, or oversized figures, enabling you to "dig deeper" and see the tools and paperwork actually used on the job. Automatically scored quizzes and exams help you evaluate your comprehension and check your grade at any time throughout the course. A glossary of definitions with audio pronunciations is linked on each screen to help you learn the correct definitions in context. Updated content reflects the latest CAAHEP and ABHES competencies and familiarizes you with current trends and practices.

Medical Assisting Online for Today's Medical Assistant (User Guide and Access Code)

Reinforce your medical assisting skills with online learning! Corresponding to CAAHEP and ABHES competencies and to Bonewit-West's *Today's Medical Assistant: Clinical & Administrative Procedures*, 2nd Edition, Medical Assisting Online helps you learn and perform common administrative and clinical skills. A variety of exercises provide realistic experience and practice with the competencies you are expected to master. Featuring active, hands-on learning, MAO provides effective preparation for class, labs, and jobs. Active, hands-on learning is promoted with modules that are mapped to core Medical Assisting competencies in the textbook. Competency-based training activities provide opportunities to learn, apply, and practice skills in a safe virtual environment. Review questions ensure that you understand the material before you proceed, and include feedback for both right and wrong answers. Lesson quizzes measure your comprehension of the content and provide feedback, with scores automatically submitted to the instructor. Video clips demonstrate commonly performed clinical skills and procedures step by step. Glossary provides quick access to definitions of key terms with links at the point when they are introduced. Pop-up boxes provide in-depth explanations of concepts, detailed illustrations, and examples of forms. Updated content reflects the latest CAAHEP and ABHES competencies and familiarizes you with current trends and practices.

Clinical Procedures for Medical Assistants

Learn the concepts, procedures, and skills you need to succeed as a medical assistant! Clinical Procedures for Medical Assistants provides clear, step-by-step instructions for common office procedures such as taking vital signs, collecting and processing lab specimens, preparing patients for examinations, and assisting with office surgeries. Written by expert educator Kathy Bonewit-West, this edition covers the latest competencies and topics related to today's medical assisting practice, including HIPAA, the Electronic Health Record, and caring for special populations. It also includes four DVDs with video demonstrating more than 90 clinical skills described in the book. More than 90 procedures are presented in a clear, step-by-step format along with underlying principles and illustrations, with procedure videos included on the companion DVDs. Chapter outlines and learning objectives prepare you for the skills and concepts you will be learning. What Would You Do? What Would You Not Do? case studies challenge you to apply your knowledge to realistic medical office situations -- and a practitioner's response is included for comparison. Putting It All Into Practice and Memories from Externship boxes feature real medical assistants sharing personal, on-the-job experiences. Patient Teaching boxes prepare you for effective communication, with detailed instructions on how to answer questions and how to explain medical concepts and procedures. Charting examples help you understand the process for charting your own procedures. Certification Review sections summarize points that are essential to know for the certification examination. Highlight boxes emphasize important topics that influence the world of medical assistant. Key Terms and Terminology Review help you master medical assisting terminology. Medical Practice and the Law highlights important legal and ethical issues. Apply Your Knowledge helps you assess your comprehension. On the Web provides up-to-date lists of websites for further research and study. Student resources on a companion Evolve website feature interactive games and activities including flashcards for the Road to Recovery game, animations, a math review, and more than 90 step-by-step video procedures. Four new procedure videos: Release of Medical Information, Preparing a Medical Record, Wheelchair Transfer, and Peak Flow Measurement The most up-to-date information on emerging topics in the field including patient care protocol, pharmacology, and laboratory testing Expanded information on the Electronic Medical Record, including the recording of prescriptions and laboratory documents Updated pharmacology table of drugs commonly administered and prescribed in the medical office Current information on the OSHA Bloodborne Pathogens Standard along with a new video Expanded information on CLIA-waived testing kits and CLIA-waived automated analyzers New ADA guidelines for interpreting blood glucose test results The PT/INR laboratory test and PT/INR home testing End-of-chapter terminology review now contains broken down word parts New interactive math review on the companion Evolve website

Clinical Skills Online for Medical Assistants

Set up as 10 individual modules divided into units with at least 10 video skills presentations each, Clinical Skills Online for Medical Assisting is specifically designed to help you visually master all of the clinical medical assisting skills you need. A medical assistant demonstrates proper technique to give you a consistent portrayal of all skills. Review questions and additional activities test your basic knowledge to see how much you've learned. Duration for access to this product, which may be at the discretion of your institution, is up to 36 months. Elsevier reserves the right to restrict or remove access due to changes in product portfolio or other market conditions. Presents a consistent process for each skill, including proper documentation techniques, to aid learning and memorization. Includes Skill Variations to provide you with the option to observe the most common skills techniques used in their areas. Spanish captioning provides easy access to translations from English to Spanish. What If scenarios provide interviews with actual medical assistants to help you think about what you would do in the same situation. An Instructor's Resource Manual available on Evolve provides outlines of times for each skill, a correlation grid of skills to CAAHEP and ABHES competencies, suggestions for effectively using the programs for in-class demonstrations and student self-study, and multiple-choice and open-ended assessment questions for each skill with answers and rationales.

Medical Assisting Online for Today's Medical Assistant (User Guide, Access Code, Textbook and Study Guide Package)

This money saving package includes Medical Assisting Online for Today's Medical Assistant (User Guide and Access Code) and Bonewit: Today's Medical Assistant textbook and study guide.

Study Guide for Today's Medical Assistant - E-Book

Use this study tool to master the content from your Today's Medical Assistant: Clinical & Administrative Procedures, 2nd Edition textbook! Corresponding to the chapters in the textbook by Kathy Bonewit-West, Sue Hunt, and Edith Applegate, this study guide helps you understand and apply the material with practical exercises, activities, flashcards, checklists, review questions, and more. Chapter assignment tables at the beginning of chapters guide you through textbook and study guide assignments, and make it easy to track your progress. Laboratory assignment tables list the procedures in each chapter, including study guide page number references, and indicate the procedures shown on the DVDs. A pretest and posttest in each chapter measure your understanding with 10 true/false questions. Key term assessments include exercises to help in reviewing and mastering new vocabulary. Evaluation of Learning questions let you assess your understanding, evaluate progress, and prepare for the certification examination. Critical thinking activities let you apply your knowledge to real-life situations. Practice for Competency sections offer extra practice on clinical skills presented in the book. Evaluation of Competency checklists evaluate your performance versus stated objectives and updated CAAHEP performance standards. Updated content includes exercises for topics such as electronic medical records, advanced directives, HIPAA, emergency preparedness, ICD-10 coding, documentation, medical office technology, medical asepsis, vital signs, pediatrics, colonoscopy, IV therapy, and CLIA waived tests. New activities provide practice for the Today's Medical Assistant textbook's newest and most up-to-date content. New Emergency Protective Practices for the Medical Office chapter includes procedures, critical thinking questions, and other activities to help you understand emergency preparedness. New Wheelchair Transfer Procedure and Evaluation of Competency checklist includes a step-by-step guide to this important procedure. New video evaluation worksheets on the Evolve companion website reinforce the procedures demonstrated on the textbook DVDs. New practicum and externship activities on Evolve provide practice with real-world scenarios.

Study Guide and Procedure Checklist Manual for Kinn's The Medical Assistant - E-Book

This money-saving package includes Medical Assisting Online for Saunders Fundamentals of Medical Assisting - Revised Reprint (User Guide, Access Code and Textbook Package).

Medical Assisting Online for Saunders Fundamentals of Medical Assisting

Saunders Essentials of Medical Assisting, 2nd Edition, is designed to give you just the right amount of the essential information you need to prepare for your career as a medical assistant. It covers all of the need-to-know information in an organized, approachable format. The condensed information is perfect for shorter programs of study and as a review tool for certification or re-certification for practicing

medical assistants. Full-color and visually oriented, this text presents information in manageable segments that give you all the relevant facts, without being overwhelming. With the most up-to-date information on basic body systems; foundational concepts such as medical terminology, nutrition, and full coverage of office concepts and procedures, you'll have everything you need to know to begin your Medical Assisting career with confidence. Full-color design is visually stimulating and great for visual learners. Helpful studying features guide students through the material, such as: Learning Objectives for every chapter, Key Information summarized in tables throughout the text, and emphasized Key Words! Practical Applications case studies at the beginning of each chapter quickly introduce students to real-life Medical Assisting. Word Parts and Abbreviations at the end of the Anatomy and Physiology sections reinforce learned medical terminology. Illustrated step-by-step Procedures, with charting examples and rationales, show how to perform and document administrative and clinical procedures. UPDATED information on Medical Office Technology prepares students for jobs in today's modern, and often hectic, medical offices. NEW Disaster Preparedness content demonstrates how medical offices can work closely with community and health departments during an emergency. Newly organized information emphasizes foundational areas of knowledge, with new chapters on Nutrition, Phlebotomy (Venipuncture), and Blood, Lymphatic, and Immune Systems.

Saunders Essentials of Medical Assisting - E-Book

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. For courses in Medical Assisting Help students develop the procedural, people, and professional skills they need to succeed in the medical assisting profession Pearson's Comprehensive Medical Assisting, Fourth Edition, offers a step-by-step, competency-based approach that covers virtually all facets of the medical assisting profession. Filled with 227 Procedures (32 of which are new), and a variety of workplace scenarios and critical-thinking exercises, the book helps students gain the procedural, people, and professional skills that are fundamental to being an effective Medical Assistant. The Fourth Edition was reconceived around the latest standards and guidelines published by CAAHEP (the Commission on Accreditation of Allied Health Education Programs) and ABHES (Accrediting Bureau of Health Education Schools). In this groundbreaking approach, the text's learning objectives were rewritten to directly conform to the standards, and all content was reorganized to flow from these objectives. Mapping documents demonstrate where standards for both of the accrediting bodies are met. To ensure a comprehensive, cohesive teaching and learning experience, the Fourth Edition's ancillaries also underwent a comprehensive update, and, in the case of the Student Workbook, a significant revision. The detailed, in-depth, follow-along study guide feature, found at the beginning of each Workbook chapter, directly reflects the correlating textbook chapter, providing important reinforcement of the information. The Workbook also features brand-new activities that directly relate to CAAHEP standards, particularly CAAHEP's Affective Competencies. The Instructor's Resource Manual details how each chapter's content conforms to the the specific curriculum standards of accrediting bodies, as well as the content required in various certification exam outlines. An updated Test Bank, PowerPoint Lecture Slides, and set of Lesson Plans round out the new edition's supplement package. Also available with MyLab Medical Assisting MyLab™ Medical Assisting is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students pursue an adaptive test of their knowledge, practice what they've learned, and prepare for their certification exam. Content includes comprehensive Homework Questions, Critical-Thinking Quizzes, Professionalism Scenarios, and sample Certification Exams. This edition features an update of key Procedural Videos, as well as the inclusion of new video-based Decision-Making Cases, Dynamic Study Modules, and Interactive Procedural Checklists. Note: You are purchasing a standalone product; MyLab does not come packaged with this content. Students, if interested in purchasing this title with MyLab, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. Pearson's Comprehensive Medical Assisting

The Nursing Associate's Handbook of Clinical Skills The Nursing Associate's Handbook of Clinical Skills provides evidence-based guidance for those undertaking the newly developed Nursing Associate

(NA) role that bridges the gap between the Health Care Assistant (HCA) and the Registered Nurse (RN). Structured around the latest Nursing and Midwifery Council (NMC) Proficiencies, this invaluable handbook helps the prospective Nursing Associates develop the skills and core competencies required to succeed in a broad range of healthcare contexts—covering more than 90 procedures, and communication and relationship management skills. This timely resource features contributions from a team of experienced clinicians and academics, addressing clinical procedures on topics including skin integrity, nutrition and hydration, mobility and safety, respiratory care, managing infection, administering medicine, and end of life care. Clear, accessible chapters contain a wealth of effective learning tools, including self-assessment tests, review questions, links to electronic resources, supporting evidence, and more. This must-have textbook: Helps trainee Nursing Associates to develop and refine their skills, and demonstrate proficiency in offering care and support Reflects current NMC annexes, providing practical guidance on a diverse range of communication skills, strategies and procedures Covers the central elements of Nursing Associate care provision, including delivery, monitoring, and reviewing Includes colour illustrations, photographs, tables, charts, graphs, and algorithms designed to develop skills and demonstrate the links between theory and practice Presenting the principles of care essential for meeting the needs of patients in dynamic health and social care environments, The Nursing Associate's Handbook of Clinical Skills is an indispensable guide for trainee Nursing Associates, as well as for health and social care assistants and those returning to practice.

The Nursing Associate's Handbook of Clinical Skills

"This manual, the first of its kind focused on district nursing, provides the means to build competence and confidence in nurses new to the community, or developing their skills. The comprehensive and evidence-based content provides essential information for competence in key areas of district nursing." —From the Foreword, by Rosemary Cook CBE, Hon D Lett, MSc, PG Dip, RGN Director, The Queen's Nursing Institute Clinical skills are a fundamental aspect of district nursing care. The District Nursing Manual of Clinical Procedures is a practical, evidence-based manual of clinical skills which reflects the unique challenges of district nursing care within the patient's home. It provides a comprehensive resource for all district nurses, community nurses, students and healthcare professionals involved in the district nursing team, enabling them to practice competently and confidently and deliver clinically effective, person-centred care. The District Nursing Manual of Clinical Procedures addresses the complexity of district nursing care and encompasses key aspects of clinical practice, including decision making in areas that district and community nurses often struggle with or find difficult when they are on their own in a patient's home. It utilises the latest clinical research and expert clinical knowledge to address these challenges, and to provide the underlying theory and evidence for district nursing care. Key features Evidence-based manual of practical clinical skills in district nursing care Clear, user-friendly and easy to understand Contains recommendations for expert care within a patient's own home Addresses key concerns of district and community nurses working on their own within a patient's home Encompasses key aspects of district nursing care Placed in the context of person-centred care All procedures include the rationale for each action - 'why' as well as 'how' This title is also available as a mobile App from MedHand Mobile Libraries. Buy it now from iTunes, Google Play or the MedHand Store.

District Nursing Manual of Clinical Procedures

Part of the new Medical Assisting Made Incredibly Easy series, this text presents the core clinical skills medical assistants need for patient care in a light-hearted, humorous, readable, extremely practical style that makes teaching and learning fun. A host character guides students through all the clinical skills needed to pass certification exams required by CAAHEP and ABHES. Boxes with eye-catching icons provide practical advice about workplace scenarios, professionalism, and other topics. More than 400 full-color illustrations enhance visual learning. A Study Guide and an online course are available as additional purchases. A free Instructor's Resource CD-ROM including PowerPoint slides and lecture notes is available from Lippincott Williams & Wilkins to instructors who adopt the text.

Clinical Competencies

This revision book for the clinical skills assessment (CSA) portion of the Membership of the Royal College of General Practitioners (MRCGP) exams includes a range of scenarios representative of those candidates will encounter, each created with direct input from an MRCGP examiner. The book enables candidates to role-play the scenarios with colleagues, providing notes for both candidates

and actors. The book's structure follows the scheme of the exam, covering information gathering, clinical management and interpersonal skills. It includes sections focusing specifically on the history, examination and management plan for scenarios, while table summaries help candidates to focus on key areas. Each chapter concludes with a tutorial of relevant information and a suggested reading list. 'What the authors have developed in this text is a guide to excellence in this assessment method: how it runs, how it is structured, how it is marked. Anyone anxious about performance and success in the CSA (and all of us are) will find a practical way to prepare and pass.' - from the Foreword by John Spicer

The MRCGP Clinical Skills Assessment (CSA) Workbook

This textbook is primarily intended for student nurses, students studying for National Vocational Qualifications (levels II and III Health Care) and those students who are undertaking an Access to Nursing Course. It provides these students with a user-friendly and contemporary understanding of some of the key clinical practice issues that they will experience in clinical areas. The book presents the reader with an institutional perspective as well as a community approach to general aspects of adult nursing care. The text is clearly written with useful illustrations. A well known model of nursing is used in which to frame the information - Roper et al's Activities of Living Model. The reader will begin to develop his/her practical nursing skills with a sound knowledge base underpinning the delivery of care. There are 14 chapters, a detailed glossary and a comprehensive list of "normal values" is included at the end. The book is designed to be used as a reference book in either the clinical setting, the classroom or at home.

Compendium of Clinical Skills for Student Nurses

This money-saving package includes Klieger: Saunders Textbook of Medical Assisting plus the Study Guide / Software for Virtual Medical Office. For further information on the individual products, please click on the links provided below.

Saunders Textbook of Medical Assisting - Text with Intravenous Therapy and E-Book Package

Nursing Skills Online is an interactive and evaluative learning system designed to support Elkin's Nursing Interventions and Clinical Skills, 4th Edition text. Focusing on the skills that are most labor-intensive to teach and pose the greatest risk to patient safety, this course is the perfect tool to help users review and evaluate their competency before performing skills in the clinical setting. This online course consists of 17 modules organized around the 5-step nursing process. Each module challenges users with a series of realistic, case-based lessons that consist of objectives, a content overview, reading assignments, numerous interactive exercises, and a post-test. Lessons include helpful tables, graphs, charts, illustrations, photographs, animations, audio clips, and videos throughout - all designed to make the learning experience more visual, realistic, and engaging.

Nursing Skills Online for Nursing Interventions and Clinical Skills (User Guide and Access Code)

This pocket-sized book is an ideal reference for nursing students. It puts the facts at your fingertips, giving you immediate access to 50 different clinical procedures. Handy checklists covering the things to consider before starting the procedure. Clear instructions guide you step-by-step through the skill. All fields of practice included to ensure your care is person-centred. Whether revising for an OSCE, preparing for a new clinical placement or looking for a clear description of how to perform a certain task, this book will become a trusted companion and daily reference as your practice experience steadily grows.

The Nurse2s Clinical Skills Pocketbook

Designed to ensure that every medical assisting graduate can quickly trade a cap and gown for a set of scrubs, Clinical Medical Assisting, Fifth Edition is more than just a textbook - it's an engaging, dynamic suite of learning resources designed to train medical assisting students in the clinical skills they'll need in today's rapidly changing health care environment. The Fifth Edition includes a full chapter on Emergency Preparedness, new in-book role playing activities, and an expanded array of online resources. We're pleased to continue to offer case studies, skills videos, and animations.

Nursing Skills Online Version 2.0 for Nursing Interventions + Clinical Skills

This money-saving package includes Medical Assisting Online for Kinn's The Medical Assistant (User Guide and Access Code), the 12th edition Textbook, Study Guide and Procedure Checklist Manual.

Medical Assisting Online for Kinn's the Medical Assistant (User Guide/Access Code, Textbook, and Study Guide and Checklist Package)

Get the review and practice you need to master essential medical assisting skills! Corresponding to the chapters in Kinn's Medical Assisting Fundamentals, 2nd Edition, this study guide offers a wide range of exercises to reinforce your understanding of administrative and clinical competencies. Review questions test your proficiency with subjects such as anatomy and physiology, medical terminology, math basics, and key administrative and clinical concepts. Hands-on activities and competency checklists help you apply your knowledge to patient care. The 2nd edition adds coverage of expanded skills approved in many states. It's all the review and practice you need to succeed in the classroom and begin preparing for a successful and rewarding career as a Medical Assistant. Review and practice supports educational competencies and certification test plan coverage. Focus on foundational areas includes a solid review of medical terminology, anatomy and physiology, and basic math calculations. Vocabulary review, multiple-choice, fill-in-the-blank, and true/false questions test student knowledge and understanding of key concepts. Skills & Concepts, Word Puzzles, Case Studies, Workplace Applications, and Internet Activities enhance study with application and critical thinking exercises. Chapter review quizzes assess student comprehension and serve as an excellent review for classroom and certification exams. Procedure Checklists help students confirm mastery of key administrative and clinical skills. Work Products provide documentation of key tasks and help in building a skills portfolio. NEW chapters on intravenous procedures and limited-scope radiography provide coverage of expanded Medical Assisting functions approved in many states. NEW! Expanded content addresses behavioral health, catheterization procedures, disease states, medical office organization, expanding MA roles, and more.
