Our true nature is our essence, and awakening is the essence of enlightenment, with necessary awakening being the recognition of true nature and primary awakening being a deeper encounter with spiritual nature.

Awakening is the recognition of a new and different spiritual element that brings about liberation and a transformative experience.

Recognizing the spiritual nature of our experiences is essential for awakening and moving towards a higher quality of existence, allowing us to understand and experience love and our true nature as a dynamic, self-illuminating presence.

Our spiritual nature differentiates us from animals and embracing it can lead to a desire to protect and preserve life, but we must awaken to our true nature of goodness and compassion in order to experience a new and transformative perspective.

Recognizing our true nature as a divine presence brings awakening and liberation, leading to a more authentic and compassionate life, and practicing self-discovery allows our inner light to shine through.

In her own life, she found that fashion helped her regenerate herself and rediscover her confidence. In *Get Changed*, Kat's authentic, down-to-earth voice, trademark humour, and insights into some of her personal anxieties make you feel like she's right there in the room with you. The book delivers the personal stylist experience to readers, a step-by-step practical guide to building the ultimate new wardrobe. Borrowing from the structure of a recipe book, the prep, the ingredients and the method, Kat breaks down the process with easy-to-remember tips and tricks; the reader will come away inspired and confident that they can build a wardrobe of clothes they love. Most importantly, Kat will show that finding your confidence again and discovering the new you can be as simple as getting changed. The book covers all the basics - sorting out and assessing your current wardrobe, working out what works for your body type and your lifestyle, how to shop successfully, key wardrobe pieces (crucially that will work together) all tackled with Kat's helpful, warm and funny approach.

A groundbreaking and accessible field guide to the birds of Britain and Ireland This guide is a celebration of the beauty of birds and the British and Irish countryside. Aimed at beginner and intermediate birders, yet suitable for all levels, this new volume in the groundbreaking Crossley ID Guide series is the most user-friendly guide to the birds of Britain and Ireland. Following The Crossley ID Guides' award-winning design, this book looks at all regularly occurring species in Britain and Ireland, and shows readers how to identify birds in their natural habitats using size, structure, shape, probability, and behavior—just like the experts do! Stunning images are accompanied by the colorful and compelling text of Dominic Couzens, one of Britain's leading nature writers. This unique book treats more than 300 species—all the regularly occurring birds likely to be encountered by observers--and the guide's attractive pages provide a real-life approach to bird identification. Beautiful, in-focus scenes present birds in various plumages and in lifelike poses set in identifiable British and Irish habitats. The plates also illustrate how a bird's appearance changes with distance. Organizing images in cohesive, easy-to-understand plates rather than as separate photographs, this book also sets itself apart by containing more images that demonstrate flight, behavior, habitat, and plumages than any other volume available. Not only is this field guide a reference book, it is also a spectacular teaching resource that makes it easy for nature enthusiasts to see and appreciate the big picture of bird identification. The most user-friendly guide to the birds of Britain and Ireland A close look at more than 300 regularly occurring species Award-winning Crossley ID Guide design Lifelike images of birds from near to far A celebration of the British and Irish countryside A teaching and field guide and essential reference Concise and compelling text by Dominic Couzens and Richard Crossley

Colour Me Beautiful

The aim of the study was to enlighten the knowledge of color and its application in selection of clothes. Any color in a dress looks nice if it is appropriate to the wearer's skin tone and it looks becoming. The colors should be right for day wear and evening wear. This particular book will be presenting findings of both Day and Evening Wear. Color is one of the most important elements in Fashion. Fashion is color; color is fashion, giving feeling and emotion to every changing trend and is an essential part of our everyday life. Color is perhaps the first element that we register when we view something for the first time. Color is usually first to attract us to clothing. Color selection in clothes is very personal and each of us has a color or colors in which we think we look best. It was observed by the researcher through the pilot study that the age group between 20 to 30 years in women is very crucial, they have

their own wardrobe demands, their choices in color selection are random and based on trends and mostly on others opinion. They need color guidance for day wear and evening wear. However, this reference is applicable to women above 30 years of age as well. Hence, under the study, 'A STUDY OF COLOR SELECTION FOR CLOTHING AS PER SKIN- TONE'(Reference of Skin-Tones taken from Donna Fujji's Skin Tone palette of 10 Warm and 10 Cool skin colors).I have tried to give proper color palette for each of the seven identified skin tone from the sample size of 500 women with a vocabulary of 101 colors (Reference taken from Jean Allen's 29 basic and 101 Color Vocabulary) which were matched with Pantone Shade Cards and same were dyed in cotton and silk fabrics for this study by the Researcher. 22 One of the main objectives of this research is to address misconceptions that women have regarding skin tones and suitable colors for clothing for day wear and evening wear and provide an opportunity of enhancement of self-image. Since the study is based on skin tones of the women, firstly each of the 500 women's skin tone was identified with skin tone scale and with the data analysis seven skin tones were identified on the majority ratio. Here the Hair color and color of eyes being constant as black brown. The second aspect was the vocabulary of color; it was matched with Pantone Shade Cards then dyeing them in exact shade in cotton and silk fabrics. This book hopes to provide suggestions, information and an opportunity to every woman in India to enhance self-image, look beautiful and attractive in the colors she wears
