Blazing skies: Air Defense Artillery on Fort Bliss, 1940-2009

The book is an authoritative history on the Army Air Defense Artillery Branch on Fort Bliss, Texas. Fort Bliss in 1940 was a cavalry post located on the Texas border. The post itself occupied the sixth location of what had been called Fort Bliss. In the summer of 1940 a number of Army National Guard antiaircraft regiments were called to active duty to spend one year protecting American cities and territories from air attack. In September the first antiaircraft regiment, the 202nd Coast Artillery (Antiaircraft) Regiment, arrived at Fort Bliss. Over the next four years the post became an antiaircraft training center and finally the Army antiaircraft training center. After the war, Fort Bliss became the premier guided missile testing and training center for the Army. All of the Nike missile battalions deployed to protect American cities during the Cold War trained there. As time passed, Fort Bliss expanded to 1.1 million acres, one of the largest Army posts in the world. By 1946, the antiaircraft arm was the owner of Fort Bliss. By 1957, the post had become the Air Defense Center and School for the United States Army. This book is the story of that progression until the Base Realignment and Closure announcement in 2005. By 2011, the Air Defense Artillery Center and School will be located at Fort Sill, Oklahoma. This will end the era of Air Defense Artillery ownership of Fort Bliss, Texas

Blazing Skies

The book is an authoritative history on the Army Air Defense Artillery Branch on Fort Bliss, Texas. Fort Bliss in 1940 was a cavalry post located on the Texas border. The post itself occupied the sixth location of what had been called Fort Bliss. National Air Power and International Politics

An in-depth look at the combat performance of ground-based air defenses during the Korean War, Vietnam War, Middle East conflicts, and other campaigns. Though anti-aircraft artillery was extensively used in combat in the First World War, it wasn't until World War II that it came into prominence, shooting down more aircraft than any other weapon and seriously degrading the conduct of air operations. In the battle between the attackers and anti-aircraft artillery, the latter had the upper hand when the war ended. The post-war years saw a decline in anti-aircraft artillery as peace prevailed, and the advent of the jet aircraft seemed to tilt the balance in favor of the aircraft as they flew faster and higher, seemingly beyond the reach of anti-aircraft artillery. It would take all the hi-tech equipment and the guile and cunning that anti-aircraft artillery could muster to try and reclaim pole position. It is that story, of the tug of war between the aircraft and artillery, that forms the narrative of this book—as it traces the history

of combat employment of anti-aircraft artillery from the Korean War, in effect the first Jet Age war, to the War of Attrition between Arab states and Israel when the missiles came of age, sending the aircraft scurrying for cover. Mandeep Singh's book is the first attempt to look at the performance of anti-aircraft artillery, incorporating the views, analyses and experiences of Soviet, Arab and South Asian Armies through the major wars between 1950 and 1972.

Journal of the United States Artillery

The primary mission assigned to the British Army from the 1950s until the end of the Cold War was deterring Soviet aggression in Europe by demonstrating the will and capability to fight with nuclear weapons in defence of NATO territory. This "surreal" mission was unlike any other in history, and raised a number of conceptual and practical difficulties. This comprehensive study observes how the British Army imagined nuclear war, and how it planned to fight it. Using new archival sources, Simon J. Moody analyses British thinking about tactical nuclear weapons, the role of the Army within NATO strategy, the development of theories of tactical nuclear warfare, how nuclear war was taught at the Staff College, the role of operational research, and the evolution of the Army's nuclear war-fighting doctrine. He argues that the British Army possessed the intellectual capacity for organisational adaptation, but that it displayed a cognitive dissonance about some of the more uncomfortable realities of nuclear war.

The Coast Artillery Journal

Beginning Oct. 1959 some issues include "Russian supplement."

Anti-Aircraft Artillery in Combat, 1950–1972

The Writing of American Military History: A Guide should stimulate intelligent probing into the past with an eye to the future. This, in turn, should lead to increased wisdom and, therefore, to wiser decisions and better execution throughout the Army in peace and war. The primary purpose of this text is to bring order out of chaos in the fields of historical study and research in the United States Army. In line with the views of Clausewitz, the principal object of the text is to stimulate a progressive and scientific study of United States military history and leadership with the hope that it will "produce searching rather than inventive minds and cool rather than hot heads," to which the safety of our country can be most advantageously entrusted in time of emergency or war. All officers of the United States Army, but particularly those having historical assignments and undergoing instruction at the service schools and colleges or civilian educational institutions, will find the text helpful. Scholars and others interested in American military affairs may also find it very useful. The Writing of American Military History: A Guide was originally published by the Department of the Army in June 1956.

Imagining Nuclear War in the British Army, 1945-1989

... dedicated to the advancement and understanding of those principles and practices, military and political, which serve the vital security interests of the United States.

An Air Power Bibliography

Vol. 7, no.7, July 1924, contains papers prepared by Canadian engineers for the first World power conference, July, 1924.

Aeronautical Engineering Index

The British Pacific Fleet was formed in October 1944 and dispatched to fight alongside the USN in the Central Pacific under Admiral Nimitz. Deploying previously unpublished documents, this book reveals how relations between the UK and US forces developed from a starting point of barely repressed suspicion, to one where both navies came to understand each other and eventually find a remarkable bond. Born out of a shared experience of Kamikaze attacks, extended operations against bitterly hostile shores, the pooling of knowledge and experience, the two navies underpinned the diplomatic moves in both Washington and London. The book carries the legacy of this experience through to the next Anglo-American participation in war, Korea. It illustrates and explains how and why certain lessons were incorporated into the composition, behaviour and structure of the post-war Navy. It demonstrates the significance of what was learned from the USN by the RN and by USN from the RN. As well as examining the background to the largest fleet the Royal Navy ever put to sea, the book also charts its effects on Anglo-American relations, multinational operations, alliance building,

and the ways naval forces are shaped by and in turn shape politics. It addresses a period of rapid technological development that witnessed profound changes in the international system, and which raised fundamental questions of what navies were for and how should they operate and organize themselves. In so doing the study illustrates how the experience of a few long months at the end of the war in the Pacific would cast a long shadow over these issues in the very different circumstances of the post-war world.

Journal of the Royal Aeronautical Society

In this memoir spanning nine decades, Lieutenant Colonel C.F. Jerram (1882-1969) of the Royal Marines recounts his life and military service through both world wars. Jerram describes in candid detail his late 19th-century childhood in Devon and Cornwall, the late Victorian and Edwardian Royal Navy, the Royal Navy's Far East Station, a traditional Corps of Marines, the Gallipoli Campaign, the World War I Western Front and the interwar and World War II years. His experience and insight convey two fundamental lessons: "Know thy profession and look after those for whom you are responsible." An essay by the editor, based on other sources, provides a broader perspective on Jerram, whose approach to professional military service is still pertinent today.

Manual of Mythology

Explore Captivating Stories of Gods, Goddesses, Monsters, and Mortals while Learning Fascinating Facts about Five Mythologies! This book includes five captivating manuscripts: Greek Mythology: Captivating Stories of the Ancient Gods, Goddesses, Heroes, and Monsters Egyptian Mythology: Captivating Stories of the Gods, Goddesses, Monsters and Mortals Norse Mythology: Captivating Stories of the Gods, Sagas, and Heroes Celtic Mythology: A Captivating Guide to the Gods, Sagas and Beliefs Roman Mythology: A Captivating Guide to Roman Gods, Goddesses, and Mythological Creatures The broad arc of the first manuscript takes us from the dim beginnings of creation as seen in the Greek mythology. We move through the birth of Titans, their overthrow by the Olympian gods, the gods' dealings with mortals like Paris of Troy, Jason and the Golden Fleece, the Trojan War, and into historical times. Here are just some of the topics that the first part of this book will cover: Uranus: Betrayal by Cronus Cronus: Fear of His Children Titans vs. Olympian Gods Olympian Rule Zeus and His Ladies Prometheus and Herakles An Unhappy Tale of the Underworld The Beauty Contest that Led to the Fall of Troy Poseidon, Metis, Athena and Atlantis Kraken and Other Monsters Jason, the Argonauts, and Medea's Dragon Menelaus, Agamemnon, and the Trojan War Solon, the Athenian Law Giver 300 Spartans Socrates, Plato, and Aristotle Alexander the Great The second part is full of fascinating facts and stories. For instance, it covers perhaps the most popular of all the Egyptian stories - the myth of Osiris. Here are just some of the topics that the second part of this book will cover: Egypt in Context Creation Fall of Humanity Osiris Myth Chief Gods of the Egyptian Pantheon Lesser Known Pantheon Ancient Egyptian History Here are just some of the topics that the third part of this book will cover: Norse Creation Story The Nine Realms Gods and the "Giants" of J tunheim Midgard and the Humans Elves, Dwarves, Trolls and Valkyries Odin, Frigg, Thor, and Loki The Death of Baldr Conflict Between the Realms English Days of the Week Here are just some of the topics that the fourth part of this book will cover: Celtic Animism Universal Celtic Gods Local Irish Celt Gods Local Gallic Celt Gods Celtic Sagas: The Cycles Celtic Beliefs: Animal and Human Sacrifice The Wicker Man Celtic Beliefs: Reincarnation Celtic Beliefs: Matriarchy Here are just some of the topics that the fifth part of this book will cover: The Trojan Connection What History and an Analysis of Myth Tell Us Founding of Rome Purely Roman Gods The Creatures of Roman Mythology Borrowings from Etruria Influence of the Greek Pantheon Greek Creatures Adopted by the Romans Celtic Potpourri Roman Conquests of the Celts Truth Behind the Roman Gods Get the book now to learn more about these five mythologies!

The Illustrated A-Z of Classic Mythology

The Myths and Legends of Ancient Greece and Rome; This excellent Book gives the reader a knowledge of a huge number of myths and legends of the classical civilisation era. Including sections on Greek and Roman Gods, Minor Deities, Heroes and the practices of the time, it also includes a large number of illustrations. Zeus, Hera, Venus, and Mars are just a few of the gods and goddesses from ancient Greek and Roman myths that remain part of cultural consciousness. This volume recounts

enthraling ancient stories that made a lasting mark and explains how these myths shaped Greece and Rome. The book captures the imagination while giving readers the tools to understand common allusions in literature. Written by E.M. Berens

Mythology

Ancient mythologies are brought to life in this third volume of mythology.

Manual of Mythology

A pictorial examination of Greco-Roman mythology and its heroes.

Myths of Greece and Rome, Narrated with Special Reference to Literature and Art

Mythology can refer to the collected myths of a group of people-their collection of stories they tell to explain nature, history, and customs-or to the study of such myths. As a collection of explanatory stories, mythology is a vital feature of every culture. Many sources for myths have been proposed, ranging from personification of nature or personification of natural phenomena, to truthful or hyperbolic accounts of historical events to explanations of existing rituals. This book covers: Norse MythologyIn this book you will find information, about Norse Mythology. Norse mythology, or Scandinavian mythology, is the body of mythology of the North Germanic people stemming from Norse paganism and continuing after the Christianization of Scandinavia and into the Scandinavian folklore of the modern period. Most of the knowledge used to create this book, is from the Icelandic historian and poet, Snorri Sturluson, who has written The Prose Edda around the year 1200. The Norse gods and goddesses were loved by the Vikings. The Vikings came mainly from Denmark, Norway, Sweden, Iceland, Faroe Island, and Greenland. Greek Gods The ancient Greeks believed there were a great number of gods and goddesses. These gods had control over many different aspects of life on earth. In many ways they were very human. They could be kind or mean, angry or pleasant, cruel or loving. They fell in love with each other, argued with each other and even stole from each other. The ancient Greeks built great temples and sanctuaries to their gods. They held festivals in their honour, with processions, sports,

sacrifices and competitions. Stories of the gods' exploits were told to children by their mothers and to large audiences by professional bards and storytellers. People today still enjoy hearing stories about the Greek gods. This book tells the tales of gods and goddesses such as Zeus, Aphrodite, Apollo, and Athena and heroes and monsters such as Helen of Troy, Perseus, and Medusa will fascinate and engage your imagination. Greek Mythology is the body of myths and teachings that belong to the ancient Greeks, concerning their gods and heroes, the nature of the world, and the origins and significance of their own cult and ritual practices. It was a part of the religion in ancient Greece. The Greeks were polytheistic in their religious beliefs. Polytheistic means they believed in and worshiped many different gods. Modern scholars refer to and study the myths in an attempt to shed light on the religious and political institutions of Ancient Greece and its civilization, and to gain understanding of the nature of myth-making itself. Egyptian Gods Worshiped for over three-fifths of recorded history, ancient Egypt's Gods and Goddesses are among the most fascinating of human civilization.. The lives of pharaohs and commoners alike were dominated by the need to honor, worship, and pacify the huge pantheon of deities. From lavish tomb paintings and imposing temple reliefs to humble household shrines, countless tributes throughout Egypt reflect the richness and complexity of their mythology. Ancient Egypt's impact on later cultures was immense. You could say that Egypt provided the building blocks for Greek and Roman culture, and, through them, influenced all of the Western tradition. Today, Egyptian imagery, concepts, and perspectives are found everywhere; you will find them in architectural forms, on money, and in our day to day lives. Many cosmetic surgeons, for example, use the silhouette of Queen Nefertiti (whose name means "the beautiful one has come") in their advertisements. Myths And Legends Of Ancient Greece And Rome

Collection of ancient myths and legends. Contains chapters on the various deities, Roman and Greek festivals and forms of worship.

A Hand-Book of Mythology

Originally published in 1894, this book contains an exhaustive amount of information on the gods and characters in ancient Greek and Roman Myths. This is the original 1st edition by E M Berens. It includes his original notes and a pronunciation index for every uncommon word or name in the book which is not in most reprints. This is not a blurry, scanned copy of the original. It is a fresh and perfectly printed book.

Mythology

This book includes: Greek Mythology Norse Mythology Sumerian Mythology In Greek Mythology: Fascinating Myths and Legends of Greek Gods, Heroes and Monsters, you will learn everything there is to learn about Greek myth and legend. You will learn about the Titans and Olympians, the monsters, who the major gods and goddesses were, who some of the important heroes were, and how Ancient Greek legend has a legacy that continues among us today. Poets and dramatists like Homer, Hesiod, Euripides, Sophocles, and Aeschylus recorded Greek stories in a form that has allowed them to be read and appreciated today. In Greek Mythology: Fascinating Myths and Legends of Greek Gods, Heroes, and Monsters, you will learn some of these tales. Norse Mythology: Fascinating Myths and Legends of Norse Gods, Heroes, and Viking Beliefs explores the Norse Gods and the Viking belief system through the tales told by people living at the time. They told tales about the formation of the universe, about how the universe was divided, and how the Gods and giants made war with one another. Because the Viking belief system was reflected in these tales about their Gods and historical figures, learning about the Gods and heroes in this way allows the reader to understand who the Vikings were and why they were. Sumerian Mythology: Fascinating Sumerian History and Mesopotamian Empire and Myths explore the tales of gods and heroes in a concise, easy-to-read fashion. These tales of heroes and gods were deeply important to the Mesopotamian people and learning about them is the only way to understand the kind of world they lived in and how it was different from our own. It was a world of birds with the faces of lions, gods with the wings of birds, and seductive goddesses who symbolically married the kings of the various city-states. The Sumerians told many tales of gods like Inanna, An, Ashur, and Enlil, tales that helped the civilizations of Mesopotamia endure for nearly 4000 years. Indeed, European travelers to the Orient in the 18th century discovered that there were still districts where the goddess

Inanna (more than five thousand years old then) was still worshipped in secret. Buy now to embark on a fascinating exploration of the world of Greek, Norse and Sumerian myth and legend.

Greek & Roman Mythology

A guide to the pantheon of Greek and Roman gods and the myths weaved around them. Split into two parts, the first part giving biographies of the gods, the second part the famous legends

Manual of Mythology Greek and Roman, Norse, and Old German, Hindoo and Egyptian Mythology
by Alexander S. Murray

Mythology

Excerpt from Greek and Roman Mythology Heroic Legend Study of Greek religion needs no apology, and should need no bush. This all must feel who have looked upon the creations of the art it inspired. But to purify and strengthen admiration by the higher light of knowledge is no work of ease. No truth is more vital than the seeming paradox which declares that Greek myths are not nature-myths. The ape is not further removed from the man than is the nature-myth from the religious fancy of the Greeks as we meet them in history. The Greek myth is the child of the devout and lovely imagination of the noble race that dwelt around the Aegaeon. Coarse fantasies of brutish forefathers in their Northern homes softened beneath the southern sun into a pure and godly beauty, and thus gave birth to the divine forms of Hellenic religion. Comparative Mythology can teach us much. It can shew how gods are born in the mind of the savage and moulded into his image. But it cannot reveal to us the heart of the Greek as his devout thoughts turned towards his gods. Greece sees God with her own eyes; and if we would share the loveliness of her vision we must put away from our thoughts the uncouth forms which had been worn by her northern forefathers' deities, the slough cast off by her gods as they grew into shapes of godliness and beauty. True it is that in regions where nature and history hindered Greek religion from developing its potential riches, that slough was still often trailed by the figures of popular faith; but these exceptions point all the more effectively the lesson of evolution in Greek religion. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. The Myths and Legends of Ancient Greece and Rome

A collection of Greek and Roman myths arranged in sections on the gods and early heroes, love and adventure stories, the Trojan war, and a brief section on Norse mythology

A Hand-book of Mythology

Reprint of the original, first published in 1874.

Mythology Collection

An introduction to such a vast subject as Norse Mythology can be problematic as it could well fall between two stools; so packed with details as to put one off, or so vague, that one is none the wiser for having read it. This text manages a pleasing balance, succeeds in whetting the appetite and supplying excellent online resources for the reader who wishes to find out more. Inside you will read about... The Creation in Norse Mythology The Nine Worlds Major Gods and Goddesses Valhalla Ragnarok The Sagas The Influence of Norse Mythology on Our Lives Today The author quotes generously from the most important relevant source which is freely available via the Project Gutenberg, and you are left with the sounds and taste of the times... ringing in your ears and tingling on your tongue.

Myths and Legends of Ancient Greece and Rome

This excellent book gives readers insight into many myths and legends of classical civilization. It includes sections on Greek and Roman gods, minor gods, heroes, and customs of the time. This version has been specially formatted for today's book readers and is a great addition. If you are a student of ancient history or just want to learn more about Zeus, Saturn and Icarus...

Mythology Collection

In celebration of the 75th anniversary of this classic bestseller, this stunningly illustrated, beautifully packaged, larger-format hardcover edition will be beloved by fans of Greek, Roman, and Norse mythology of all ages. Since its original publication by Little, Brown and Company in 1942, Edith Hamilton's *Mythology* has sold millions of copies throughout the world and established itself as a perennial bestseller in its various available formats: hardcover, trade paperback, mass market paperback, and e-book. For 75 years readers have chosen this book above all others to discover the thrilling, enchanting, and fascinating world of Western mythology—from Odysseus's adventure-filled journey to the Norse god Odin's effort to postpone the final day of doom. This exciting new deluxe, large-format hardcover edition, published in celebration of the book's 75th anniversary, will be beautifully packaged and fully-illustrated throughout with all-new, specially commissioned four-color art, making it a true collector's item.

Greek and Roman Mythology Heroic Legend

A true handbook of ancient Greek and Roman mythology, this book covers the origin stories of the Gods in addition to the legends surrounding their lives. Written by E.M. Berens in 1880, this two-part book has been updated with many illustrations. The first part allows you to understand the intricate connections and tangled relationships between the various gods, heroes, minor divinities, mythical figures, and legendary creatures while the second part dives into the classic legends. Sure to take you from novice to expert in all things Greek and Roman mythology, this classic book is sure to be enjoyed by readers young and old.
