Begging to Be Black

In 1992, a gang leader was shot dead by an ANC member in Kroonstad. The murder weapon was then hidden on Antjie Krog's stoep. In *Begging to Be Black*, Krog begins by exploring her position in this controversial case. From there the book ranges widely in scope, both in time - reaching back to the days of Basotho king Moshoeshoe - and in space - as we follow Krog's experiences as a research fellow in Berlin, far from the Africa that produced her. *Begging to Be Black* is a book of journeys - moral, historical, philosophical and geographical. These form strands that Krog interweaves and sets in conversation with each other, as she explores questions of change and becoming, coherency and connectedness, before drawing them closer together as the book approaches its powerful end. Experimental and courageous, *Begging to Be Black* is a welcome addition to Krog's own oeuvre and to South African literary non-fiction.

Begging in America, 1850-1940

The poverty that drives people to begging has been a pressing social issue in the United States since the beginning. This historical work explores begging and beggars in the period 1850 to 1940, with emphasis on how the police, the courts, the media and private charity organizations dealt with

them. Efforts to suppress mendicancy are explored, including legislation, police crackdowns, and public vouchers for meals and shelter. Of particular interest is the way in which media portrayals have guided public perception of mendicants. Despite the massive social upheavals the last two centuries have brought, all efforts to suppress begging have failed. Many of the complaints and arguments made against beggars and begging in 1850 and 1900 and 1940 were also made into the 21st century because, in the end, the public continued to give alms.

Reconstructing the Black Past

This book examines the character and composition of the black population of Britain between 1780 and 1830, previous studies of which have been hampered by a lack of demographic evidence. Drawing heavily from data collected from parish registers, contemporary newspapers and journals, parliamentary papers and the records of merchants involved in the slave trade, the author ventures beyond existing research to examine the age structure and sex ratios of the black population; family marriage patterns; and the occupations of black men and women.

Du Bois (1868-1963) played a key role in developing the strategy and program that dominated early 20th-century black protest in America. In this collection of essays, first published together in 1903, he eloquently affirms that it is beneath the dignity of a human being to beg for those rights that belong inherently to all mankind. He also charges that the strategy of accommodation to white supremacy advanced by Booker T. Washington, then the most influential black leader in America, would only serve to perpetuate black oppression.

The Souls of Black Folk

This volume of the *National Political Science Review*, the official publication of the National Political Science Association, is anchored by a major symposium on *The Politics of the Black "Nation,"* the book authored by Matthew Holden in 1973, which is now considered one of the most influential books in the field of black politics. Twenty-five years provide a sufficient timespan on which to base a retrospective of the book and simultaneously to reflect upon the evolution of the black liberation struggle, more formally called, African American politics. In the present age, there is not much talk about "a black nation," certainly not as was heard during the 1960s and mid-1970s. Yet there is a persistent sense of separateness in that there is constant thought and talk of "Black America" as a significantly separate communal entity. Black Americans are seen as a racially and culturally distinct community holding to social, political, economic interests which have special significance and poignancy for them. Holden's perception of the nature of the times in the early seventies stands in sharp contrast to how contemporary analysts of African American politics tend to perceive the nature of African Americans' role in political life and their position in American society in the present age. In this retrospective, readers have the opportunity to get a sense of what Holden argued of the seven essays that make up his seminal volume and to consider how well Holden's observations have stood the tests of time. In addition to the essays presented at the symposium, which pointedly discuss Holden's work, there are essays dealing with "African American Politics in Constancy and Change," by contributors including Charles Henry, David Covin, Robert C. Smith, Clyde Lusane, Cheryl Miller, D'Linell Finley, and Sekou Franklin, among others. Other features are a highly informative discussion of the *Literary Digest* magazine's Straw-Vote Presidential Polls, 1916-1936, and a review essay by Peter Ronaye in which he discusses "America as 'New World' Power: U.S. Foreign Policy in the Post-Cold War Era." The volume concludes with fifteen book reviews by knowledgeable scholars. *The Politics of the Black "Nation"* is a timely, thought-provoking volume. It will be of immense value to ethnic studies specialists, African American studies scholars, political scientists, historians, and sociologists. Georgia A. Persons is professor in the School of Public Policy at the Georgia Institute of Technology and the current editor of the *National Political Science Review*.

Chambers' Encyclopædia

This book is a manifesto for shy males who are uncomfortable in the sexually aggressive role. That role specifies that men must make the advances, while women get to remain passive. For shy males, "gender equality" has been a cruel joke since not only do these roles still exist, the male role has been made even more annoying by the actions of feminists who have no idea what agonies shy men experience. This book promotes the elimination of these roles, which, despite what feminists believe, more men than women are in favor of. But this book is more than a manifesto, for it also presents a theory of gender that is neither traditionalist nor feminist. Social differences between men and women do not go back either to genes, or to dominance in men and submissiveness in women, but to sexual aggressiveness in men and passivity in women. A major implication of this theory is that male sexuality, which is seen as a big problem in sexual misconduct, is not the real culprit at all. It is aggressive sexuality that is the culprit. Ultimately, this book shows what gender equality from the "other side," from the male perspective, looks like.

Ramona spun around, the hem of the sexy nightgown riding up and revealing the firm, rounded cheeks of her brown ass. Flynn inhaled sharply, his lusts rising up in him to the boiling point. "I, I don't think," he began. Ramona sat down next to him on the bed. "Good," she chirped, "I told, you, just don't think." Flynn watched numbly as she knelt down on the floor, next to the edge of the bed. She reached up her slender, bare arms and shoved her hands into his lap. Flynn grasped her wrists firmly and raised her arms up away from his crotch. "Please," he said desperately. His lusts were raging like a bushfire. Ramona freed her wrists with a snap of her arms and dropped her hands to the businessman's crotch. "Are you sure you don't want me for your birthday," she cooed, pressing her slim fingers into the bulge that was growing steadily in the fabric of the crotch of his slacks. When the normally prudish and faithful Flynn "wins" ebony goddess and working girl Ramona for his birthday, he finds himself at the mercy of his usually suppressed raging lust. His eyes devour her naked nubile body and velvety chocolate skin, his mind already ruminating all all manner of libidinous deeds they will get up to. And Ramona is more than willing to accommodate. But Flynn is not the only one committing interracial indiscretions as his wife embarks on a torrid affair with their studly black neighbor. Will the unfaithful satiate their passions enough to come together or will they let their wants consume them. With ample lashings of lesbian gamahuching, interracial same room swapping, and all deeds in between, our randy young protagonists are about to take a bite out of something deliciously forbidden. But once they have their fill of black, can they really go back?

When apartheid ended in 1994, a radiant optimism suggested a bright future for the new, unified South Africa. But today, even in the midst of a vibrant economy, the cumulative effect of the country's corrosive past--three hundred years of colonialism, the Anglo-Boer War, the displacement, dispossession, and disenfranchisement of millions of people, and the ravages of racism and capitalist exploitation--continues to eat away at what Desmond Tutu admiringly called "the Rainbow Nation." Using the South

African Truth and Reconciliation Commission as starting point, acclaimed writer Antjie Krog's essays explore texts from every corner of South Africa in an attempt to remap the borders of her country's communities. In these pages, texts from black women, Afrikaner men, and comic strips are discussed alongside ideas from African philosophers, an archbishop, and a Nobel Prize winner. Through this extraordinary marriage of academic observation and poetic intervention, Krog endeavors to move South Africa beyond the present moment and toward a vocabulary of grace and care.

At Night All Blood is Black

Amid the instability and violence of turn-of-the-century industrialization and urbanization Russians embraced a revolutionary art form to reflect the aspirations and motivations of a new class. In *The Magic Mirror* Denise Youngblood portrays a newly urbanized entrepreneurial middle class not the revolutionaries or imperialists of historians and the movies they made and paid to see. Upon those screens they saw their lives depicted in all their variety and uncertainty. Youngblood provides a cultural angle into an era most often viewed through a revolutionary lens. Film and the film industry illuminates and reflects the popular attitudes of the time. *The Magic Mirror* is a study of the ten years of native film production through the Revolutions of 1917, based almost exclusively on Russian language primary sources. Topics examined include the organization and evolution of the industry followed by description and analysis of genres, motifs, and themes as exemplified in 65 of the most important surviving films."

The revelry after the victory at Yellow Ford could not mask the tragedy that followed. Seamus and Eunan were dealt a devastating blow. They were left with a grim determination to seek revenge by any means, even leading the rebellion against their oppressors. The Curse of Black Mountain hung over Seamus as his ultimate challenge lay ahead: returning to Munster where his clan had been decimated and family murdered, to reclaim what was stolen from him. Eunan, likewise, was determined to face these same forces—not only for vengeance, but to rescue the woman he loved. What awaited them when they arrived? Would the remains of the MacSheehy welcome Seamus back with open arms? Can Eunan protect himself from his adversaries or would they win and take his life? *The Curse of Black Mountain* is the fifth book in the epic Irish historical fiction Exiles series. Set during the Elizabethan wars in Ireland in the 1590s, it tells a story of Irish clans, their politics and fight for control, brimming with spies and intrigue, as well as a burning desire for rebellion against English rule. When Black Preachers Preach

Television scholarship has substantially ignored programming aimed at Black audiences despite a few sweeping histories and critiques. In this volume, the first of its kind, contributors examine the televisual diversity, complexity, and cultural imperatives manifest in programming directed at a Black and marginalized audience. *Watching While Black* considers its subject from an entirely new angle in an attempt to understand the lives, motivations, distinctions, kindred lines, and individuality of various Black groups and suggest what television might be like if such diversity permeated beyond

specialized enclaves. It looks at the macro structures of ownership, producing, casting, and advertising that all inform production, and then delves into television programming crafted to appeal to black audiences—historic and contemporary, domestic and worldwide. Chapters rethink such historically significant programs as *Roots* and *Black Journal*, such seemingly innocuous programs as *Fat Albert* and *bro'Town*, and such contemporary and culturally complicated programs as *Noah's Arc*, *Treme*, and *The Boondocks*. The book makes a case for the centrality of these programs while always recognizing the racial dynamics that continue to shape Black representation on the small screen. Painting a decidedly introspective portrait across forty years of Black television, *Watching While Black* sheds much-needed light on under-examined demographics, broadens common audience considerations, and gives deference to the the preferences of audiences and producers of Black-targeted programming.
