Hey and welcome to a new video from Social Psychology Masters YouTube channel.

"What was the happiest time in your entire life?"

"What's the weirdest thing you've ever done?" or "What's the weirdest thing you believe?"

"What is your favorite childhood memory?"

"What do you like about your job?" or "What process do you like most about your hobby?"

"What personality, in history or today, would you like to have as a dinner guest?"

"When did you last sing to yourself or someone you know?"

"What are you most grateful for?"

"If you could learn one specific answer about the future, what would you want to know?"

"What is your dream? Something you always wanted to do."

"What are your greatest life accomplishments so far?"

"What is friendship?" or "Who is your best friend and why?"

"In the event of a house fire, after saving your family, friends and pets, what one item do you go for and why?"

Ask for his advice on a problem.

"What's the nicest compliment you've ever received?" Or "What compliment would you like to receive the most?"

"What is your favorite type of food?"

"Who was your first kiss?"

"How do you deal with people that rub you the wrong way?"

"What would your superpower be?"

Find out a metaphor for how he sees himself

Tell me about your parents.

"What am I like in your mind?"

"What is your unusual hidden talent?"

"Where did you study?" or "Why did you choose that school?"

Asking how someone made a major decision like where to attend school gives you a peek into their decision-making process, and where their priorities lie.

"Would you rather..." questions.

"What's your most embarrassing story?"

"What are your favourite books, TV shows, or movies?"

"What's the best way to earn somebody's respect?"

Ask Powerful Questions

What might happen if “small talk” was replaced with conversations that matter? In their Bestselling book, Will Wise and Chad Littlefield explain how the questions we traditionally ask are often meaningless when it comes to establishing a connection. Introducing a set of practice tools for understanding others by changing the way we ask questions, Will and Chad show how to transform “How are you?—I’m fine, thanks” into conversations that change not only how you lead but who you are as a person. Educators, business professionals, personal coaches, and anyone in a position of leadership will relate

to the personal successes and failures Will shares. He unpacks the art of asking questions that lay the foundation for trust, psychological safety, productivity, and impact. Chad complements Will's personal stories and examples with fascinating facts and nuances in neuroscience that are behind the art of asking. Together, the art of asking and the science behind it join to create a simple and powerful framework for leaders to build a culture of connection. In his book, Will and Chad break it down into six simple steps for all of us to be able to understand. The Asking Powerful Questions Pyramid? shows you how to build: Intention Rapport Openness Listening Empathy Powerful questions can be used everywhere: from the board room to the city park, the dinner table to the grocery store. If you want to connect with employees at a team building retreat, hone your leadership skills as a new boss, improve the company culture where you work...this book is for you. If you want to navigate difficult conversations with your spouse or a friend, or practice presence-based listening with your kids...this book is for you. If you want to become a better educator and facilitate an ice breaker conversation with colleagues...this book is for you. Ask Powerful Questions invites the reader on a journey that explores: the clarity of intent, connecting through rapport, creating openness, reflective listening, and empathy. How can we explore the space between ourselves and others, and exchange meaningful perspectives? Just ask-powerfully.

The Five Temptations of a CEO

A commemorative edition of the landmark book from Patrick Lencioni When it was published ten years ago, *The Five Temptations of a CEO* was like no other business book that came before. Highly sought-after management consultant Patrick Lencioni deftly told the tale of a young CEO who, facing his first annual board review, knows he is failing, but doesn't know why. Refreshingly original and utterly compelling, this razor-sharp novelette plus self-assessment (written to be read in one sitting) serves as a timeless and potent reminder that success as a leader can come down to practicing a few simple behaviors that are painfully difficult for each of us to master. Any executive can learn how to recognize the mistakes that leaders can make and how to avoid them. The lessons in *The Five Temptations of a CEO*, are as relevant today as ever, and this special anniversary edition celebrates ten years of inspiration and enlightenment with a brand-new introduction and reflections from Lencioni on new challenges in business and leadership that have arisen in the past ten years.

What to Ask the Person in the Mirror

Successful leaders know that leadership is less often about having all the answers—and more often about asking the right questions. The challenge lies in being able to step back, reflect, and ask the key questions that are critical to your performance and your organization's effectiveness. In *What to Ask the Person in the Mirror*, leadership expert Robert Kaplan presents a process for asking the big questions that will enable you to diagnose problems, change course if necessary, and advance your career. He lays out areas of inquiry, including questions such as: Do I clearly articulate my vision and top priorities to my employees and key constituencies? Does the way I spend my time enable me to achieve my top priorities? Do I give subordinates timely and direct feedback they can act on? Do I actively seek feedback myself? Have I developed a succession roadmap? Is my organization's design aligned with the achievement of its objectives? Is my leadership style still effective, and does it reflect who I truly am? Packed with real-life situations, this highly readable and practical guide helps you learn to ask the right questions—and work through the answers in ways that are right for you. By asking these questions, you can tackle the inevitable challenges of leadership as you craft new strategies for staying on top of your game.

Powerful Questions that Every Director, Executive and Manager Must Ask

The skill of asking the right question at the right time and in a way that works is an essential skill for business leaders that can save your company millions of dollars. This hands on book is packed with techniques, examples and exercises on how to ask the right questions.

Power Relationships

The Relationship Laws that Drive Success There are powerful but invisible laws that determine whether your relationships—with your clients, colleagues, and friends—will thrive or wither. These relationship laws are ever-present. When you align with them, the results are dramatic. Your network will grow rapidly. You'll be seen by clients as a trusted partner rather than an expense to be managed. And you'll find the people around you eager to help you succeed. When you ignore the laws, however, your efforts will falter. Relationship building will seem like very hard work. *Power Relationships* gives readers a

unique, entertaining guide to relationship success at work and in life. Each of the 26 laws is illustrated and explained using a compelling, real-life story that shows how to implement it. The second section of the book presents 16 common relationship challenges with specific solutions. You'll read about: The top Citigroup executive whose relationship with a CEO was changed forever on a business trip that exploded into chaos, and how you can use the same principle to deepen your own relationships. The philanthropist who, on the verge of being mugged in a dark parking lot, learns how his actions have had an unimaginable ripple effect across several generations. How one of the authors flew halfway around the world and used Law 18—"Make them curious"—to turn a make-or-break, five-minute meeting with a top executive into a long-term relationship. The chance encounter on an airplane with a famous actor that revealed a simple but profound truth. It's Law 25: "Build your network before you need it." Sobel (author of *Clients for Life*, *All for One*, and *Power Questions* (with Panas)) and Panas (author of *Asking and Supremely Successful Selling*) have sold over half a million books and are the leading authorities in their field. *Power Relationships* is a unique, road-tested guide to relationship success.

The CEO Test

Named to the longlist for the 2021 Outstanding Works of Literature (OWL) Award in the Leadership category. Are you ready to lead? Will you pass the test? Despite all the effort through the years to understand what it takes to be an effective leader, the challenges of leadership remain enormously difficult and elusive; even today, most CEOs don't last five years in the job. The demands to deliver at a consistently high level can be unforgiving. The loneliness. The weight of responsibility. The relentless second-guessing and criticism. The pressure to build all-star teams. The 24/7 schedule that requires superhuman stamina. The tough decisions that often leave no one happy. The expectation to always have the right answer when it can be hard just to know the right question. These challenges are brought into their highest and sharpest relief in the corner office, but they are hardly unique to chief executives. All leaders face their own version of these tests, and the authors draw on the distilled wisdom, stories, and lessons from hundreds of chief executives to show how every aspiring leader can master these challenges and lead like a CEO. These foundational leadership skills will make all aspiring executives more effective in their roles today and lift the trajectory of their careers. The CEO Test is the authoritative, no-nonsense insider's guide to navigating leadership's toughest challenges, brought to you by authors uniquely qualified to tell the stories. Adam Bryant has conducted in-depth interviews with more than 600 CEOs. Kevin Sharer spent more than two decades as president and then CEO of Amgen, where he led its expansion from \$1 billion in annual revenues to nearly \$16 billion. He has served on many boards and is a sought-after mentor for CEOs of global companies. Leadership is getting harder as the speed of disruption across all industries accelerates. The CEO Test will better prepare you to succeed, whether you're a CEO or just setting out to become one.

Jeffrey Gitomer's 21.5 Unbreakable Laws of Selling

There are universal laws of selling that determine whether you succeed, or don't succeed — whether you earn enough to enjoy the lifestyle you want or struggle to make ends meet. When you align the wind with your sails, you move effortlessly across the water. When your sails are out of alignment, you flounder and go nowhere. If you align your thinking and actions with these powerful laws of selling, you will be more effective and efficient. You will encounter less friction, require less energy, and get bigger results faster. Here's a sampling of Jeffrey's 21.5 Laws of Selling: • Deliver Value First • Ask Before Telling • Communicate in Terms of Them • Become Your Own Brand • Earn Referrals and Testimonials without Asking • Create Loyal Customers. These 21.5 Laws are the rock foundation of selling. They may be invisible but they are undeniable — and unbreakable. If you're just getting started in selling, you will find the Laws invaluable. Whether or not you learn them and follow them will make or break your career. If you've been in sales for a while, you will find yourself saying, "I haven't been doing that." "I knew that! How did I forget?" When we break the Laws we pay the price. Our sales suffer. Our bank account takes a hit. It's an effort to get out of bed and make a sales call, to do our best work — work that is aligned with the Laws. Use Jeffrey's Laws of Selling to recharge your enthusiasm and redirect your actions back to what really works.

The Five Most Important Questions You Will Ever Ask About Your Organization

With Peter Drucker's five essential questions and the help of five of today's thought leaders, this little book will challenge readers to take a close look at the very heart of their organizations and what drives them. A tool for self-assessment and transformation, answering these five questions will fundamentally

change the way you work, helping you lead your organization to an exceptional level of performance. Peter Drucker's five questions are: What is our Mission? with Jim Collins Who is our Customer? with Phil Kotler What does the Customer Value? with Jim Kouzes What are our Results? with Judith Rodin What is our Plan? with V. Kasturi Rangan These essential questions, grounded in Peter Drucker's theories of management, will take readers on a exploration of organizational and personal self-discovery, giving them a means to assess how to be--how to develop quality, character, mind-set, values and courage. The questions lead to action. By asking these questions, readers can focus on why they are doing what they are doing in their work, and how to do it better. Designed for today's busy professionals, this brief, clear and accessible book will challenge readers to ask these provocative questions and it will stimulate spirited discussions and action within any organization, inspiring positive change and new levels of excellence, helping all to envision the future of theirs' or any organization.

CEO Excellence

"Based on extensive interviews with today's . . . corporate leaders, this look at how the best CEOs do their jobs focuses on the mindsets and actions that foster an environment of excellence"--

The CEO's Playbook

Many business leaders love their work and their company, but don't know what else to do to get their employees to love it, too. Their employees may be good people; however, leaders who want their team to become brilliant together are facing roadblocks. In *The CEO's Playbook*, Nora Ganescu shows businesses how to become that exciting and innovative workplace that creates one game-changing success after the other. She also understands the importance of key elements such as dedication, passion, and joy at work and teaches leaders how to instill these qualities within their employees. If running your company feels more like pushing a huge boulder up the mountain, then you are not alone. *The CEO's Playbook* can help.

The CEO Guide To Getting The Best From Your Team

If you are a CEO or managing director of a business you know more than anybody how important it is to have 'every' member of your team firing on all cylinders. Your people really are your business. From your CEO's vantage point, you clearly see the direct link between the performance of your team(s) and the financial and operational results your business achieves. Good, bad or indifferent, the results you deliver as a CEO are in the hands of the people who work for you. The results they achieve are also a direct reflection on your ability as a leader. One of your most important jobs as a CEO or Managing Director is to make sure -- at all times -- that you are getting the best from your people. But how? Where do you start to get your team(s) to operate at a higher level? In 'The CEO Guide To Getting The Best From Your Team' you'll discover an easy to use program (called Enterprise LEADER) which you, or your fellow executives/managers (or an outside coach/consultant) can use to improve team performance. You'll discover the step-by-step methodology and set of tools which CEOs around the world are using right now to get their teams tuned in to their businesses, performing at a higher level, and achieving greater business results than they ever thought possible. Whether you are the managing director of a small 10 man marketing agency, or the CEO of a 1,000+ person manufacturing company, the ideas in this book will help you transform the performance and results of your own people and teams.

Leading with Questions

Many leaders are unaware of the amazing power of questions. Our conversations may be full of requests and demands, but all too often we are not asking for honest and informative answers, and we don't know how to listen effectively to responses. When leaders start encouraging questions from their teams, however, they begin to see amazing results. Knowing the right questions to ask—and the right way to listen—will give any leader the skills to perform well in any situation, effectively communicate a vision to the team, and achieve lasting success across the organization. Thoroughly revised and updated, *Leading with Questions* will help you encourage participation and teamwork, foster outside-the-box thinking, empower others, build relationships with customers, solve problems, and more. Michael Marquardt reveals how to determine which questions will lead to solutions to even the most challenging issues. He outlines specific techniques of active listening and follow-up, and helps you understand how questions can improve the way you work with individuals, teams, and organizations. This new edition of *Leading with Questions* draws on interviews with thirty leaders, including eight whose stories are new to this edition. These interviews tell stories from a range

of countries, including Singapore, Guyana, Korea, and Switzerland, and feature case studies from prominent firms such as DuPont, Alcoa, Novartis, and Cargill. A new chapter on problem-solving will help you apply questions to your toughest situations as a leader, and a new "Questions for Reflection" section at the end of each chapter will help you bring Marquardt's message into all of your work as a leader. Now more than ever, *Leading with Questions* is the definitive guide for becoming a stronger leader by identifying—and asking—the right questions.

Clients for Life

Finally, the book that all professionals frustrated with fleeting client loyalty and relentless price pressure have waited for -- the first in-depth, client-tested guide to developing lasting business relationships. What separates extraordinary professionals from ordinary ones? Why are some professionals always drawn into their clients' inner circle of advisers, while others are employed on a one-shot basis and treated like vendors? Based on groundbreaking research, *Clients for Life* sets forth a comprehensive framework for how professionals in all fields can develop breakthrough relationships with their clients and enjoy enduring client loyalty. Drawing on insights from extensive interviews with both leading CEOs and today's most prominent client advisers, Jagdish Sheth and Andrew Sobel debunk the conventional wisdom about professional success -- "find a specialty, do good work" -- as hopelessly inadequate in a world where clients have unlimited access to information and expertise. The authors replace these tired conventions with an innovative blueprint, supported by over one hundred case studies and examples drawn from consulting, financial services, law, technology, and other fields, for how you can evolve from an expert for hire -- a commodity -- to an extraordinary adviser. Riveting portraits of both exceptional contemporary professionals and legendary advisers such as Aristotle, Thomas More, Niccolò Machiavelli, and J. P. Morgan reveal how great client relationships are achieved in practice. Readers will learn, for example, to develop selfless independence, which tempers complete emotional, intellectual, and financial independence with a powerful commitment to client needs; to become deep generalists and overcome the narrow perspective caused by specialization; to systematically build lifelong trust; and to cultivate the power of synthesis -- big-picture thinking -- that is so highly valued by clients. Acclaimed by leading management thinkers, *Clients for Life* clearly illustrates the most important attributes and strategies of extraordinary client advisers and shows how you can use them to enrich your own relationships. It provides sophisticated professionals with the tools and insights they need to reap the rewards of lifetime client loyalty.

7 Simple Habits of Extraordinary Salespeople

The obvious question is, "Why do a select number of salespeople earn extraordinary incomes, while others with the same apparent ambition do not?" Extraordinary salespeople develop a business plan that reaches for an extraordinary reputation that provides a powerful stream of enthusiastic referrals and repeat business. The result is a marketing advantage that cannot be matched by any other method. The common elements driving these extraordinary salespeople are 7 Simple "Take the High Road" Habits

A complete guide to successful trade shows and exhibitions Trade shows, consumer shows, product launches, sporting events, and other opportunities to interact face-to-face with customers have become an important part of the marketing mix. Recent studies show that the percentage of the total marketing communications budget spent on event marketing ranged from over 9% to a staggering 29%. In 2003, North America alone hosted over 13,000 trade and consumer shows, each one with hundreds of exhibitors, and thousands of visitors. Beyond traditional trade shows, there are countless other opportunities for exhibitors to interact with their customers directly and improve the bottom line, such as mall displays, corporate events, road shows, and permanent displays. Well chosen and executed events can shorten the sales cycle significantly and put you miles ahead of the competition, but you need to have an exhibit plan that's well thought out, organized, and executed. While some large organizations have a dedicated exhibit staff, often the role of exhibit management lands on the desk of an unsuspecting, overworked, or unwilling sales or marketing person who needs to get results from their exhibit investment, but doesn't know where to start. The Power of Exhibit provides the step-by-step advice you need to exhibit successfully. This definitive guide to trade shows and other event marketing shows how to set objectives, budget for your event and measure its success in ROI, choose the right show and find the right audience, turn leads into business, design booths, work the show, gather information and intelligence, and much more.

In business - as in life - the right behaviours matter. But getting it right is tricky. Even when we acknowledge the need to change what we do and how we do it, life has a habit of getting in the way, upsetting even the best-laid plans. And just how do we manage those situations that can provoke even the most rational among us into behaving in ways we would rather forget? Triggers confronts head-on the challenges of behaviour and change, looking at the external factors (or 'triggers') - both negative and positive - that affect our behaviours, our awareness of when we need to change, our willingness (or otherwise) to do so and our ability to see the change through. Drawing on his unparalleled experience as an international executive educator and coach, Marshall Goldsmith invites us to understand how our own beliefs and the environments in which we operate can trigger negative behaviours, or a resistance to the need to change. But he also offers up some simple, practical advice to help us navigate the negative and make the most of the triggers that will help us to sustain positive change.

Future of work requires a new way of leadership, with creativity a key differentiator between humans and robots in the workplace. We are facing a big challenge: with robots and automation happening in workplaces, jobs will be lost and work activities automated. The earlier you accept this transformation, the earlier you adapt to this change and manage your career. Whether you are an employee or business owner, you have to move up the value chain quickly and focus on creative and innovative output, which is more difficult for robots to replicate. Regardless of industries, future workplaces require leaders who are creative and innovative. Future leaders need to focus on The "3i"s (individual mindset, infrastructure, ideas), mastering 9 essential leadership and career skills to edge over robots. "Disregard it at your peril! If you plan to be relevant in a digitally connected world, then you need to read this book." — Simon Cocking, Senior Editor at Irish Tech News "Leadership has been disrupted by the future of work. Dickson's book brings this guiding principle to light." — R "Ray" Wang, Principal Analyst & Founder, Constellation Research, Inc.

Leadership for future of work: 9 ways to build career edge over robots with human creativity

CEO Branding advances our understanding of the importance and impact that CEOs have on companies. In recent years, there has been a growing body of interdisciplinary literature on this powerful aspect of branding, and Fetscherin has invited a leading panel of international scholars and practitioners to contribute original chapters in their area of expertise. The book introduces the concept of the CEO as a brand, and outlines the "4Ps" of this branding mix – the CEO (person), personality, prestige (reputation), and performance. It discusses the CEO branding process, and demonstrates the many ways in which this 'human brand' affects the company in financial terms (such as performance, profit, and stock returns), as well as non-financial terms (reputation, trust, and firm strategy). The book also includes 'lessons learned' and many examples that illustrate how companies can measure and manage the CEO brand. This comprehensive, authoritative volume will give students, researchers, marketing and communication managers, and CEOs themselves a thorough understanding of all aspects of the CEO brand. A must read for any CEO who is serious about developing, managing and measuring their own brand. For more information, visit www.ceobranding.org
